YEAR 2001  
TOURERS

Elddis

## TOURERS HAVE COME A LONG LONG WAY

The history of touring caravans has seen many changes, with standards of technology and luxury increasing year by year. Elddis has always been at the forefront of this ongoing revolution, and our 2001 range is no exception.

New features, such as shower duckboards for safety and style, and (on selected models) 14" low profile tyres to distribute weight more evenly, blend with popular existing features such as Heki rooflights, cassette blinds and flyscreens, blown air heating and luxurious soft furnishings.

Add these latest new advances to the already impressive specification of Elddis tourers and you have our finest collection to date - a touring tour de force, providing outstanding value for money and a choice of four great ranges - Avanté, GT, GTX and Crusader - which include a total of 21 different models. There's also a fixed bed, twin axle Crusader coming soon.

When you want the freedom of the road, with all the comforts of home, at a highly competitive price - choose Elddis.

3% has been added to Mass in Running Order to calculate the Maximum User Payload.

Maximum User Payload includes Essential Habitation Equipment, Personal Effects and Optional Equipment.

\* Due to weight restrictions this model does not have low profile tyres.

Note 1: Please take care to ensure that you have allowed for the masses of all items you intend to carry in the caravan.

Note 2: Warning - under no circumstances must the Technical Permissible Laden Mass of the caravan be exceeded.

## THE EXPLORER GROUP PROMISE

The Explorer Group was formed in 1998 and brought together member companies with a joint history which stretches back over many decades. Throughout that history, value for money has been the central concern of every Explorer Group brand, from design, through the building and testing of prototypes, to construction, fitting and finishing. The wide range of products we currently offer embraces every imaginable lifestyle, and every motorhome and tourer we produce, from the most inexpensive to the most luxurious, is made with craftsmanship, care, and a deep concern for value.

We recognise the value that peace of mind affords on the open road. So, in addition to using the latest materials, components and manufacturing techniques, we offer three years extended warranty as standard, with a further two years at a special price for Explorer Group members. In this way we ensure long term peace of mind and the residual value of your investment.

All Explorer Group products are covered by a new Water Ingress Code of Practice, which provides certain guarantees to cover owners against financial loss for water ingress repairs for up to 5 years. Ask your dealer for details. To back up our comprehensive warranty programme, we have a truly nationwide network of dealers who offer excellent service and support.

The website, another innovative addition to our marketing programme features full details about the Explorer Group, each of our brands and all of our products. It provides a wealth of information on every aspect of our business. You can even take a virtual tour of selected models, with 360° viewing. Details of your local dealer can be found on our new improved website at [www.explorer-group.co.uk](http://www.explorer-group.co.uk)

Finally, buying an Explorer Group product means you are eligible to join one of our owners' clubs. With a wide range of activities to take part in, membership adds another dimension to touring. For more information about the Elddis Owners' Club, contact John Harrison, 9 Brookside Avenue, Bedale, North Yorkshire, DL8 2DP.

This brochure has been designed to provide you with basic information prior to making a purchase decision. Please refer to your local dealer for additional information before you buy. The Explorer Group Limited reserves the right to alter technical specifications, prices and model ranges as materials and conditions demand and can accept no responsibility for discrepancies between these and subsequent models. Household items illustrated in the brochure (e.g. fruit and personal effects) have been used to enhance photography and are not supplied with the caravan. Limitations in the printing process may mean upholstery colours are not truly represented. It should be noted that distributors and dealers are not the agents of The Explorer Group Limited and therefore are not authorised to bind the company by any specific or implied undertaking or representation.

All year 2001 model Explorer Group caravans and motorhomes have been built, inspected and certified to new European standards.

Every Explorer Group caravan is supplied with an Electrolux fridge as standard.
