The translation of the Lunar crest is 'Our product - our pride'... A personal statement made by our founding directors over thirty years ago and still at the core of Lunar's philosophy today. Since that time, Lunar has built a healthy reputation for its designs and innovation - a reputation complemented by the fact that all Lunar caravans weigh considerably less, caravan for caravan, than any of our rivals.

New layouts, clever and practical improvements, improved specifications... all these are apparent and the unique lightness of all Lunar products gives them a broad appeal to old and new caravanners alike. No other manufacturer offers such a selection of lighter caravans. Check out Lunar's 2003 range...

You will be impressed

More caravan, less weight

Designed to answer the demands of today's touring, Lunar's 2003 range sees the introduction of brand new models and features a host of improvements to our existing range.

Three new models appear for 2003. The Delta 640EW is based on the fantastically successful Lexon EW with a host of added extras such as the 86 litre powerfridge from Electrolux, the CD/Radio, inboard water tank, Omnivent extractor fan over the kitchen, Concept 'Kel' security system and the external sealed locker compartment.

All model ranges (except the Ariva GTS) feature long single seats (6'2"/1.88m) to further enhance the already comfortable lounge area.

The Clubman 400-2 is a traditional end kitchen 2 berth caravan offering superb comfort and facilities, as does the new Clubman 470-2, a very special and very unique luxury caravan that combines the popular washroom facility with the concept of an end kitchen. Remarkable!

Setting future standards

At Lunar we are caravanners too, and our own special understanding of your needs has resulted in many practical advantages. The quality of our cabinet work is something we are particularly proud of. Note how all of our ranges have undergone significant changes in, for example, the roof locker designs. The use of angles and curves creates an enormously satisfying vista and a feeling of openness and space which does not compromise on the practicalities of lots of storage.

Then there's the slide-to-side easy access into the bed box storage. Built into many kitchens is the pull-out chopping board and for added safety there is the low level courtesy light. There are so many more features where Lunar quality shines through... All designed to make caravanning a real pleasure.

Relaxation and pleasure

With the high level of standard equipment fitted throughout the different ranges, we are sure there's a Lunar caravan that will meet your needs perfectly...

The automatic ignition fridge and external 230v mains socket are new features in the Astara and Lexon ranges, whilst all Delta models have the remote access Concept 'Kel' security system as standard.

The tilt and slide sunroof brings extra light to the living area and assists airflow on those warm summer days. The stereo CD player in Clubman and Delta models creates the right mood for relaxing in the extremely comfortable lounge, and the new lighting creates a special ambiance as you settle down for the evening.

As a caravanner you are bound to be weight conscious, so you will appreciate the many years of experience and development which give Lunar the edge in saving every last kilogram. By utilising materials which are light in weight yet strong in use, and by paying meticulous attention to manufacturing methods, we build caravans that are lighter than any comparable product, without sacrificing either strength or quality.

Check out Lunar's 2003 range at your dealer now!

Ariva GTS

Narrower and lighter than any of its rivals, the luxurious Ariva GTS is totally unique in its class, offering real caravanning luxury in an easy to handle, lightweight body.

The design of the Ariva GTS with its traditional rear-end kitchen layout gives it a surprisingly roomy and spacious feel, without compromising on storage facilities or the high specification.

The new washroom with swivel toilet is light and spacious, as is the lounge area with the 'Heki' tilt and slide rooflight.

New curved, integrated roof lockers provide ample storage space without affecting the light and roomy opulence that is so uniquely the Ariva GTS.

Ideal for year round caravanning, the gas/electric room heater has ducted blown air for total comfort, and the large fridge with full width freezer is ideal for those little indulgences!

◀ *Compact, lightweight luxury - despite its size the Ariva GTS combines a high level of specification with ingenious use of space to create a comfortable year-round tourer that is truly unique in its class.*

Stellar

Created in response to the need for comfortable, roomy caravans that are of an easily manageable, compact size the unique layout of Lunar's award winning Stellar provides unrivalled space within a small caravan.

Boasting masses of floor and locker space in the slightly wider 2.28m body and an attractive rear-offside kitchen, the Stellar's interior is complemented by beautifully styled natural wood framed roof locker doors. With an extremely high level of specification including blown air heating to the shower room, the Lunar Stellar is the ideal choice for discerning couples.

◀ *The wide-bodied Stellar has a spacious air of luxury, combining big caravan specification with the ease of towing. Its compact design has proven to be a real winner with experienced tourers.*

Solar

The brightly coloured soft furnishings of the Solar are a perfect match for the newly re-styled furniture with its curved natural wood framed doors, creating a pleasing and relaxing environment in which to spend your holidays.

Allied to the soft curves and numerous roof lockers is a comprehensive list of features that will ensure the utmost comfort and enjoyment... including a large fridge with full width freezer, a tilt and slide rooflight and deep, hard-wearing upholstery.

The Solar 615 provides a unique family layout, whilst the bunk and side dinette of the 524 are separated from the lounge by an attractive dresser. The Solar 462 boasts an especially large shower room, whilst the Solar 525 has its large rear dinette afforded privacy by the substantial sliding doors.

◀ *With four models in the range, from two to five berths, Solar is the value for money choice in family touring. Shown here is the Solar 524*

Astara

Astara is a truly outstanding caravan offering exceptional value for money and for 2003 models the specification has been upgraded to include an automatic ignition fridge and external 13 amp socket.

The re-designed roof lockers, complemented by new mains lights and bold soft furnishings have helped create a range of caravans that are very competitive and very weight conscious.

Astara's high level of specification includes everything you would expect from a year round tourer, including gas and electric room and water heaters and a large fridge with full width freezer.

The large tilt and slide sunroof, circular ceiling lights, attractive furniture fabrics and soft furnishings, plus colour co-ordinated equipment, all help to make the Astara as complete a package as any caravanner could wish for.

▲ *The Astara 525 illustrating the large rear dinette area*

Lexon

This new Lexon series is destined to be the best ever, with curved natural wood framed roof locker doors that are gloriously complemented by the new wood finishes.

Now even better value with automatic ignition fridge and external mains socket, the Lexon range offers a superb selection of unrivalled caravanning luxury.

Wider than most other models, the additional space has enabled us to design and build a range of truly unique touring caravans.

The Lexon CD is ideal for family caravanning with its 'end kitchen' layout, the Lexon EW has proved to be a real winner with its fixed bed and large, rear washroom, while the ultimate in spacious touring luxury has to be the Lexon 640. It's large walk-round bed provides a sense of comfortable permanence. The soaraway success however, is the Lexon EB which has a fixed bed as well as a capacious lounge area. Ideal for those lazy summer days or social gatherings.

◀ *An original approach to caravan design, the luxurious wide-bodied Lexon EB*

Clubman

The ever popular Clubman has an indefinable mix of quality and traditional appeal that has proved to be so elusive to others, yet has remained the basis for the Clubman's continuing success over many years.

The new models feature beautifully matched interiors with the newly introduced curved, wrap-around, roof lockers and their distinctive pelmeted effect.

The provision of an independent locker box on the nearside, along with the gas barbecue point and mains 13 amp socket are practical and worthy new features.

A new addition, the 470-2 is a totally unique layout, combining all the benefits of an end washroom with those of an end kitchen. The effect created by the 2.28m body is startling, using the extra space to its best advantage and creating an exciting and new caravanning experience.

This extra dimension has become so successful that the ever popular 475 CK layout is now available in a wider bodied version, the Clubman 475 CKW.

- ▲ Unique Clubman 470-2 rear end kitchen with rear washroom
- ◀ Clubman 475 CK lounge

Delta

The Lunar Delta is a stunningly designed range of models with the fixed bed Delta 640 EW offering that extra touch of luxury in what has become a very popular layout.

The newly designed furniture makes the most of soft curves to enhance the stylish interior layout, but as with every Lunar there is, of course, so much more...

Delta's high level of specification is designed to match the roomy interiors that result from a 2.28m wide body and includes a Status multi-directional television aerial and 'Concept Kel' remote security system – just two of the features which make the Lunar Delta a very special caravan indeed.

All Delta models are equipped with a colour co-ordinated, built-in microwave oven, complementing the stereo CD/Radio, the latest Electrolux 86 litre Powerfridge, the large built-in freshwater tank and numerous other quality features.

Important

* These MRO weights are estimated. As the weights are confirmed an addendum will be published. Check with your authorised Lunar dealer.

MRO includes a manufacturing tolerance to reflect changes in the weights of the component materials. It is anticipated that this figure will never be exceeded in the standard ex-works specification.

* MTPLM increase option

Most models can have the MTPLM (maximum technical permissible laden mass) increased with minimal disruption. Contact your Lunar Caravans dealer for further information.

Alternative interior Formats

An 'L' front seat option is available for all models except the Ariva GTS, the Lexon CD and the Delta 610-3. This option gives an offside, long picture window and a floor cabinet. The double bed size is 2.01 x 1.23m (6'7" x 4'0").

In addition the Astara 525 is also available with a rear bed 'L' option with a bed size of 1.80 x 1.29m (5'11" x 4'3").

Front 'L' layout option.

Rear 'L' layout option.

Soft Furnishing Selection

We have carefully selected the soft furnishings for each model range. However for a small charge, and subject to availability, selecting the soft furnishings you prefer is no problem with Lunar. Simply ask your dealer to show you the sample swatches of carpet, upholstery and curtain fabrics.

Extended Warranty for touring peace of mind

All Lunar caravans receive a full twelve month's warranty from the date of purchase - for no extra charge, but subject to an annual service and inspection, an extended warranty will cover the following major items, but not items subject to ordinary wear and tear.

Second year of warranty

Body and floor

Against water ingress and delamination.

Head, shaft and damper of the coupling

The entire axle assembly and all aspects of the chassis, including corner steadies.

Third year of warranty

Body and floor

Against water ingress and delamination.

LUNAR
WE PUT YOU FIRST

The now famous Lunar crest carrying the Latin for "Our product - Our pride", sums up a philosophy that has consistently produced award winning touring caravans with new innovative features that are the envy of our competitors, particularly as our caravans are markedly lighter than any comparable caravan.

Lunar Owner's Club

When you choose a Lunar caravan you also have the opportunity to join the growing band of enthusiasts who enjoy all the benefits of the Lunar Owner's Club. As a club member you will be sent regular newsletters containing all the latest information on upcoming events, reviews, letters from fellow members and news from Lunar Caravans itself.

You'll be made very welcome at all the numerous rallies which take place across the country by people sharing a common interest in Lunar caravanning. They can also offer you a wealth of knowledge and expertise to help you enjoy your future touring even more.

There are a wide variety of activities on offer to Owner's Club members including fruit picking, summer fairs, trips to major caravan and leisure shows, country walks, wine making, photography and a host of games and competitions for all the family.

Perhaps more importantly however, when you become a Lunar Owner's Club member you join a big happy family made up of new friends just like you who share a real interest in the freedom of luxurious, lightweight touring at its very best.

The best
CATCH
of the year

Zenith2003

Renowned for their exceptional build quality and attention to detail, the question was clear... Could Lunar build a quality caravan that would sell for significantly less than any of its rivals?

The Zenith is the superb result of this simple question. Offering fantastic value for the whole family, these three great looking models have an excellent specification, are

on single axles for ease of towing, and come in four, five or six berth layouts.

So the answer is yes! In fact the Zenith costs several hundred pounds less than similar competitor's designs, representing fantastic family value.

But, you'll have to hurry to hook one – before they get away.

LUNAR
WE PUT YOU FIRST

Zenith Features

- Roll-out slats for double bed make-up
- 2 bolster cushions
- Truma gas room heater
- Truma gas and electric water heater, plumbed to both kitchen and washroom
- Smoke alarm
