

THE STAR RANGE 2007

MOONSTAR

The Moonstar range initially has two extremely popular and practical layouts, a 570 and 580. The 570 has a rear kitchen, an offside front dinette with two lap and diagonal inertia reel seat belts and a rearward seat that will easily swivel to form a comfortable L-shape lounge. A long nearside settee and a rear corner toilet/shower room complete this original layout based on a traditional theme.

The 580 has a large luxurious rear lounge area with wrap round seating that can be complemented by a rear central chest of drawers with an occasional table top. A centre kitchen and front offside toilet/shower room complete this very successful, tried and tested layout.

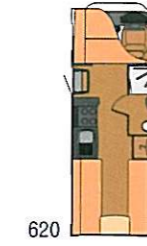

A host of new features are standard in the Moonstar including a unique double floor for added insulation and an unobtrusive, snag free, neat installation of the pipe work and wiring. The new robust exterior door with two locking catches, one top and one bottom, gives added security, complete with a window and blind. For ease of use the Moonstar has a larger slide out gas locker that will accommodate a 13kg and a 6kg gas bottle. A large hidden storage space behind the driver and passenger seat utilises what would otherwise be dead space and epitomises the attention to detail of our design team.

“ the 580 has a large luxurious rear lounge area with wrap round seating ”

GOLDSTAR

620

640

The Goldstar 620 and 640 are the first models of several that will be included in this new range. The 620 has two six feet two inches long rear lounge seats which can be complemented by a choice of either wrap round seating or a central chest of drawers with occasional table. The 620 also boasts a separate shower within the toilet room and a central kitchen unit.

A rear offside fixed bed is one of the many features of the Goldstar 640 that also include a separate shower in the toilet room, a front dinette with two lap and diagonal inertia reel seat belts, a rearward facing seat that easily swivels to form an L-shape seat for more comfortable lounging and a nearside fully fitted kitchen unit.

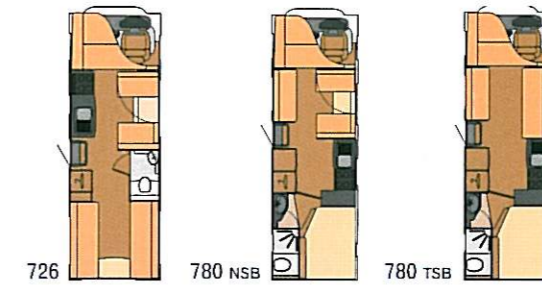

The standard features not only include all those mentioned under the Moonstar but also a colour coordinated white bumper, rear spoiler with high level brake light, a choice of two top quality Belgian upholstery fabrics with matching curtains, mood lighting in the overcab bed area, an easily adjustable bracket for a flat screen TV and a microwave in the kitchen.

“ the Goldstar 620 also boasts a separate shower within the toilet room and a fully fitted central kitchen unit ”

ROADSTAR

The flagship of the Lunar motorhome ranges for many years, the newly designed Roadstar will not disappoint for 2007. A feast of standard equipment including a gas/electric hob unit, special mood lighting in the over-cab bed area, fully fitted flush awning incorporated in the exterior design, ali-fibre side panels giving the benefit of robust good looks together with superb new alloy wheels; a small selection of the huge list of specification features for this range.

The Roadstar range has the ever popular layouts of the 726, 780 and 786 and is further enhanced by the all new Roadstar 800 with an island bed, front lounge, centre kitchen, centre toilet, a separate shower area and a half garage for storage across at the rear.

The Roadstar 726 has a large rear lounge area, central toilet/shower room, front kitchen and offside front dinette. The front dinette has two forward facing seat belts and a swivel arrangement, unique to Lunar, which converts the dinette into L-shape seating.

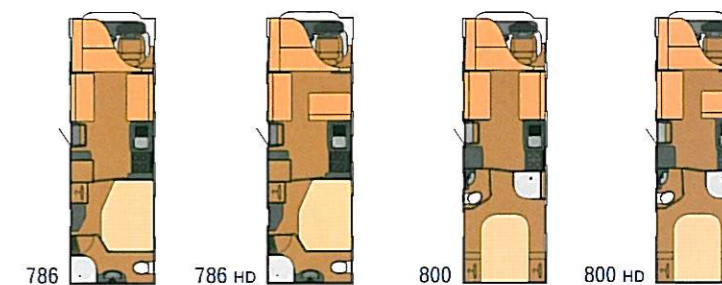

A fixed bed is the feature of the three remaining Roadstar models with the 780 having an optional front layout of lounge seats or a full dinette with two lap and diagonal inertia reel seat belts, a centre kitchen and half garage at the rear.

" the flagship of the Lunar motorhome ranges for many years, the newly designed Roadstar will not disappoint for 2007 "

ROADSTAR

The ultimate Roadstar 786 continues for 2007 with its completely separate rear shower, toilet and vanity unit, offside fixed bed and kitchen and front lounge seats with swivel driver and passenger seats. A half dinette at the front including two lap and diagonal inertia reel seat belts will be introduced later in 2007 on both the 786 and 800.

The Fiat Ducato is the number one chassis cab in Europe for motor homes and has been completely redesigned for the 2007 season. Working in liaison with the motorhome manufacturers, studying closely the needs of users and realising the importance of recreational vehicles, Fiat have set a benchmark that Lunar are delighted to utilise for the new Moonstar, Goldstar and Roadstar.

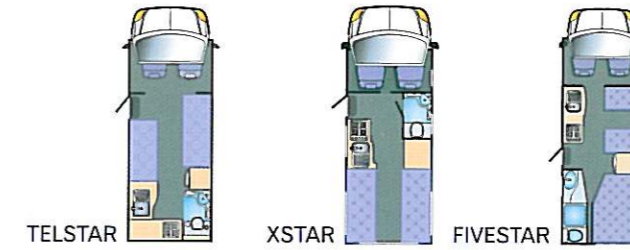

The strengths of the new Ducato include car-like driving with excellent driving position, design, visibility and ergonomics, road holding and safety, comfort for the occupants with perfect integration between cab and living area, homogeneous ventilation and quiet running, a new generation of engines and a European customer care service dedicated to motorhome customers.

“ comfort for the occupants with perfect integration between cab and living area ”

TELSTAR / XSTAR / FIVESTAR

Stylish, robust and compact this range of Stars are built on the award winning Renault chassis. The meticulously designed interiors have fully fitted kitchens with thermostatically controlled gas ovens and curved fronted Dometic gas/electric fridges for starters. Brimming with high specification standard features these low profile, coach built motorhomes must be seen.

The highly distinctive Renault Master chassis cab is powered by a 2.5litre turbo diesel 100dCi common rail direct injection engine with a 100 BHP. This can be upgraded to a 120dCi with 119 BHP or a 150dCi with 146BHP and all comply with the new Euro 4 emissions. All are 2.5 litre turbo diesel common rail direct injection engines and have a six speed gearbox plus reverse.

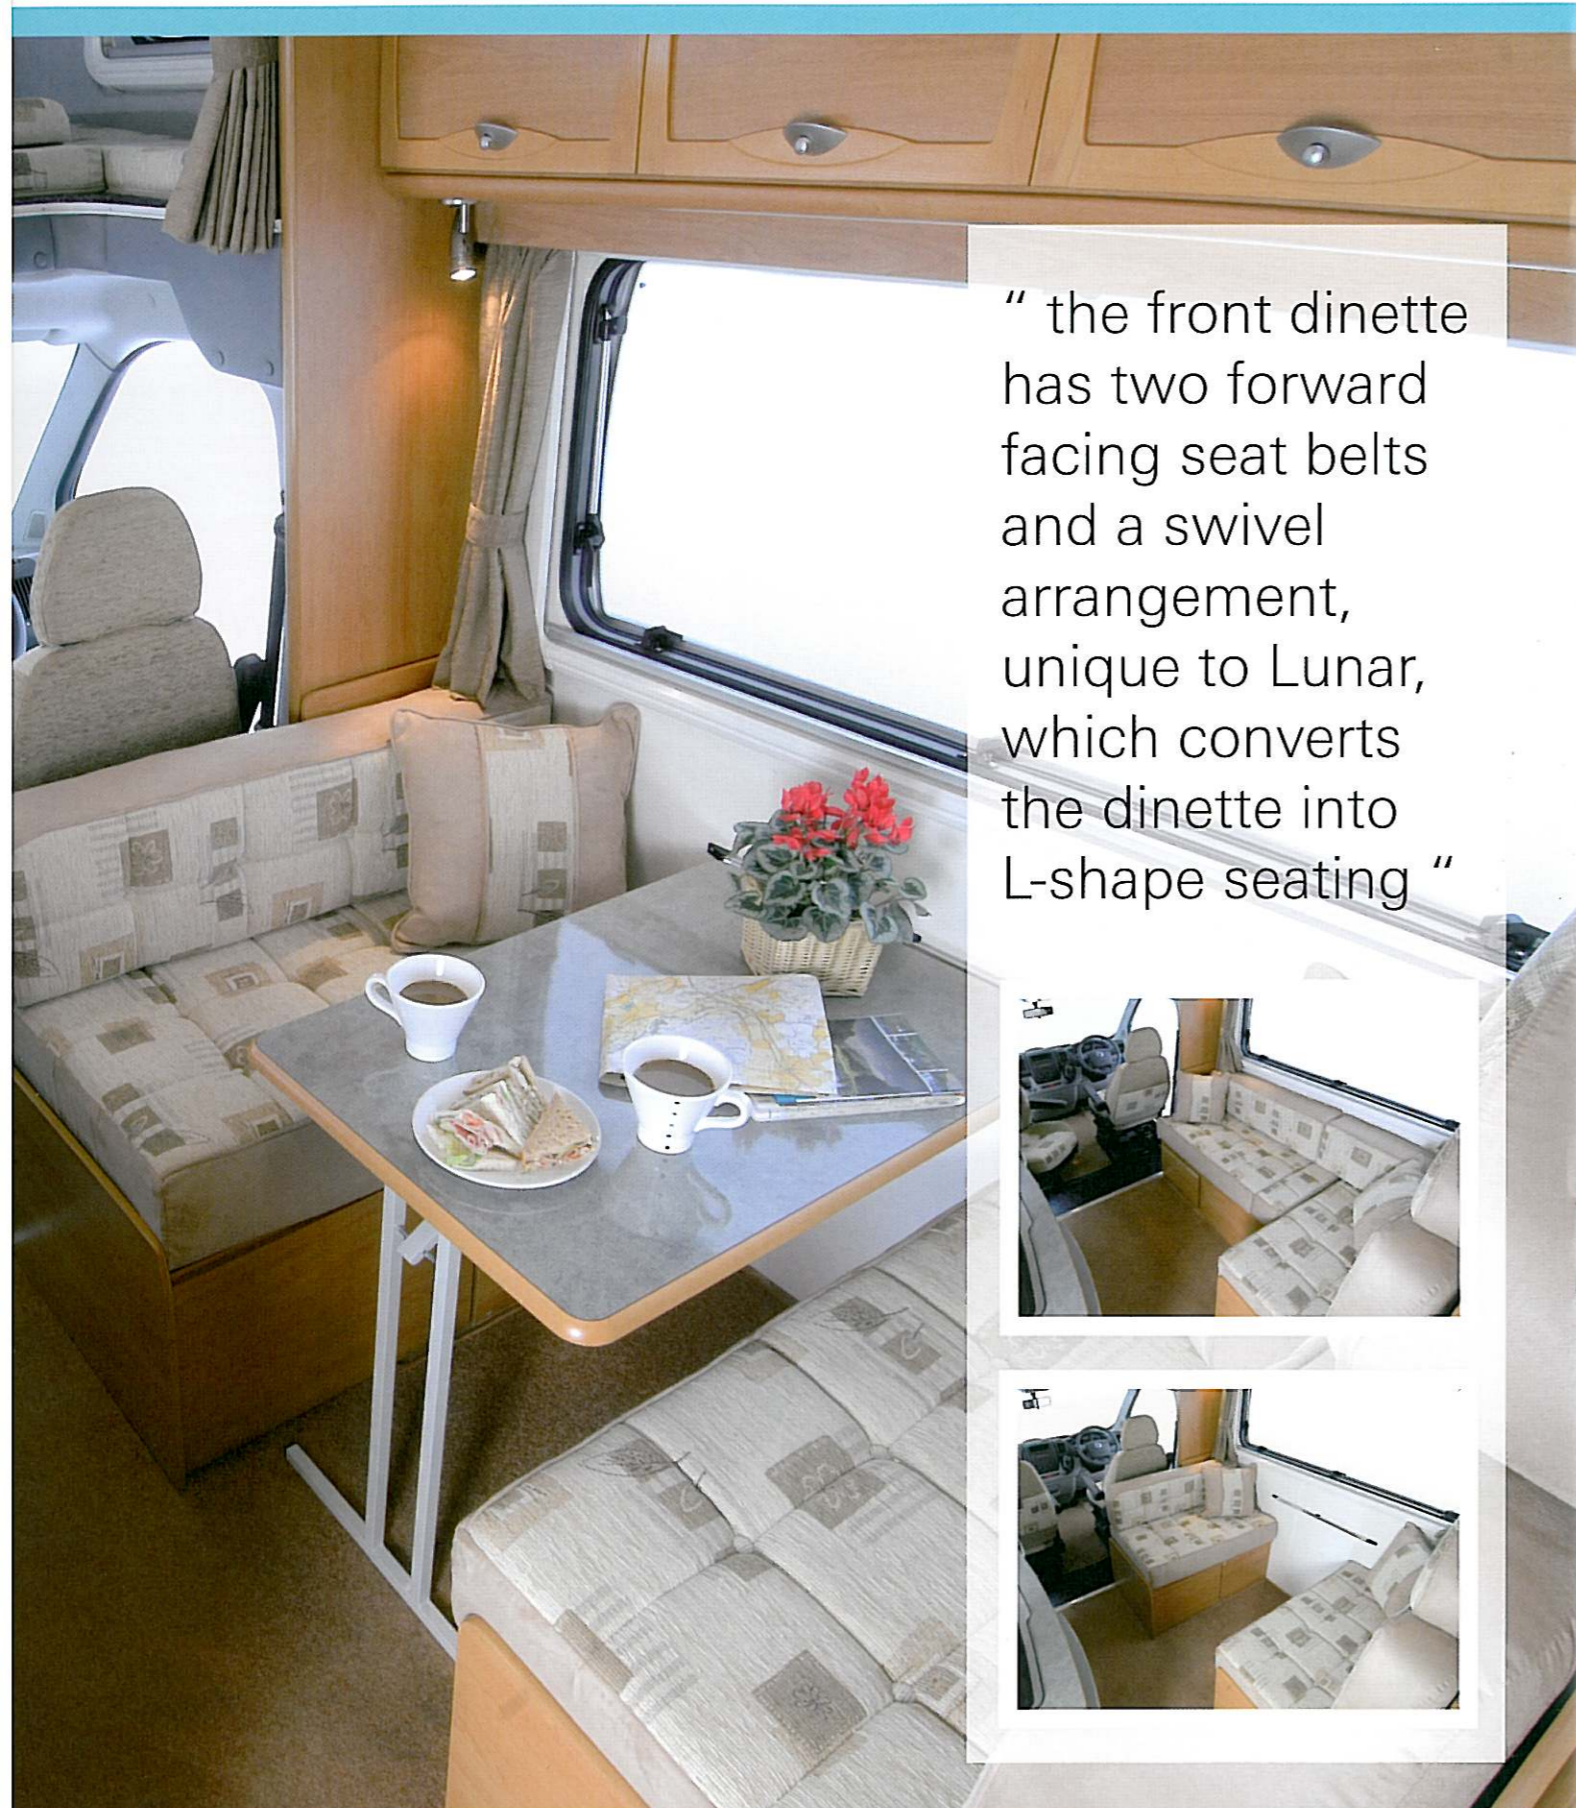

Disc brakes, 16" wheels, driver air bag, ABS, a double wishbone suspension, camper pack rear suspension and ISRI swivel driver and passenger seats are all standard equipment on this increasingly popular chassis cab. A pleasure to drive, with ease and comfort at the fore, the Renault Master offers the added bonus of an optional automatic gearbox with further optional equipment including cab air conditioning, cruise control and a passenger air bag.

“ brimming with high specification features these low-profile motorhomes must be seen ”

VERSATILE FEATURES

“ the front dinette has two forward facing seat belts and a swivel arrangement, unique to Lunar, which converts the dinette into L-shape seating “
