Brave the « impossible voyage »

*W*hat brings us closer to the great adventurers such as Marco POLO or Christopher COLUMBUS ? More than a simple desire to travel, it is the image we hold of the world. This idea incites our curiosity and unconsciously « dictates » our trips.

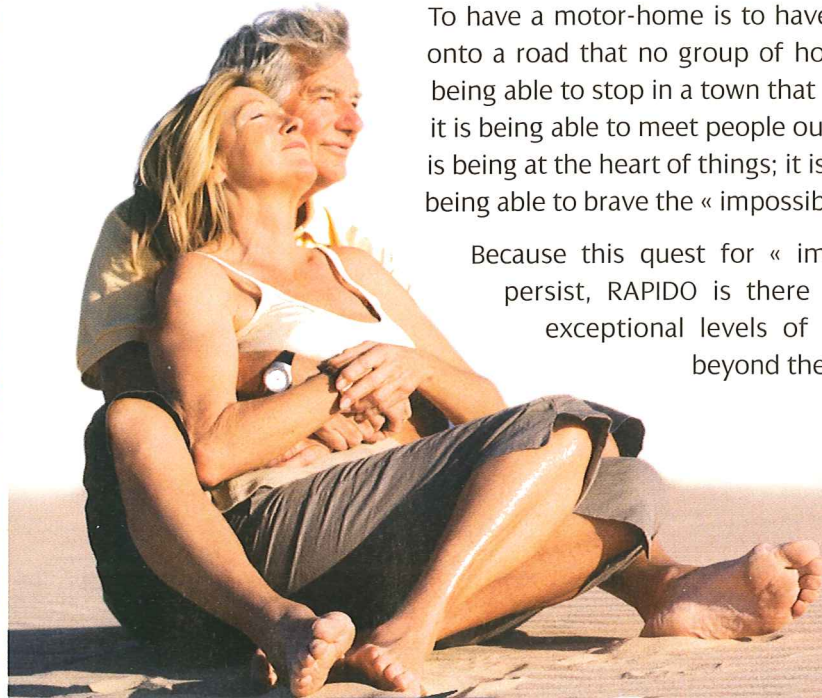

Since the discovery of America to the present day, the world has grown smaller to a certain extent. In fact, the improvement in transport conditions, the opening up of countries, the advances in cartography, the Internet or yet again, developments in the media, all provide a vision of a world without frontiers, almost « small » and within our reach. As a result, travel is democratised and becomes a genuine consumer good.

Paradoxically, at a time when « getting away » seems to be accessible to everyone, « real voyages » seem to have become « impossible ». The increasing number of brochures, guides and travel agencies intrinsically entails a large number of « all-inclusive » package deals where the countryside matches the images seen before you set off like two peas in a pod. This phenomenon has developed to such an extent that certain anthropologists such as Marc AUGÉ think that travel now leaves little if no more room at all to surprise tourists, to the extent that he qualifies as an « impossible voyage » « one that we will no longer make, one that could have made us discover new landscapes and other peoples ».

Only you, as « nomadic travellers », are the exception to this rule.

To have a motor-home is to have the possibility of turning onto a road that no group of holidaymakers will take; it is being able to stop in a town that no tourist guide mentions; it is being able to meet people outside any organisation...; it is being at the heart of things; it is therefore rightly and truly being able to brave the « impossible voyage ».

Because this quest for « impossible » voyages must persist, RAPIDO is there beside you to offer you exceptional levels of comfort and equipment, beyond the norm and the traditional.

Welcome to space

Close your eyes. Imagine you are on the edge of the Sahara. From the top of the dune where you are, you calmly contemplate this expanse of sand extending to the horizon, a symbol of space in all its majesty. You are intoxicated by the heat and caressed by a gentle breeze. Under the purity of this light, you smile as you face the Sun: you feel good.

Now open your eyes...you are in a RAPIDO.

This voyage in the world of space and light, with stopovers in the lands of comfort and well-being, this is what the new RAPIDO 2009 collection offers you.

As you browse through the pages of this catalogue, you will discover the introduction of new sliding bedsprings enabling you to move around the central and transversal beds more easily. Also in the ranges, new storage spaces with a new Serie 70dF with a double floor and new layouts providing room for convivial gatherings such as the great U-shaped rear lounge in the 9010dF. In the A-Class, seasoned travellers will joyfully welcome the 4 heavy vehicle models providing more autonomy because of their permissible loads. These models actually offer greater energy resources for water and electricity.

Light is still always being celebrated. The new introductions in 2008 (ambiance lighting, backlit bar and opening panoramic roof) have been enhanced this year with the introduction of panoramic bays in the bedrooms in certain models and sky view has been fitted to a second series of low profile models. The Elegance furniture units from the Serie 9M have now been extended to several Series and are now coloured with a new shade for the 70+ and 9M models. The sensation of warmth within your vehicle will be accentuated even more.

So, let's get going!

RAPIDO, more than ever

At a time when distinguishing marks are being erased on a blossoming motor home market, RAPIDO presents, more than ever, the virtues of a reliable, well-known brand, engaged in a continuous quality improvement process, the symbol of a certain style of living in the French manner. A warm ambience, attention to detail: our values have not changed, they are measured by the exceptional degree of loyalty between RAPIDO and its customers. Almost half our customers are on their second or third RAPIDO. Highly sought-after, the RAPIDO brand also makes its mark on the second-hand market. Demand for it is high; the resale value of a RAPIDO is higher than that of many other models. Isn't this the best indication of quality?

RAPIDO's virtuoso style consists this year of 7 ranges: Serie 7, Serie 70 and Serie 70+ for the low-profile vehicles, with one new arrival: the Serie Serie 70dF with its panoramic opening roof and double floor. The Series 9F and 90dF, on the AL-KO chassis, this year offer a completely new front design. And then there is the magnificent Serie 9M on the Mercedes carrier, accompanied for 2009 by 3 heavy vehicle models with twin wheels.

The main point they have in common? A design creating a balance of tradition and novelty, which stands out from the crowd.

703

CONCENTRATED SPACE

The 703 succeeds in accommodating, in less than 6 metres, a garage, a bathroom with separate shower and a 4-seater living room. The bed easily adjusts to high or low position, thereby adjusting the height of the garage by 20 centimetres. A nice job! You will love it for its comfort and convenience, its compact design and its clever layout.

EQUIPMENT AND FURNISHINGS

ABS BRAKES

ABS (Antilock Brake System)

This prevents the wheels from locking during braking, optimises stopping distances and, above all, ensures that the motor home can continue to steer.

MORE PRACTICAL KITCHEN

The new kitchen provides extremely practical functions: drainer, bin and a second sink. The opening of the hobs can be varied thanks to a double leaf opening system. Nor does it lack for charm with its honeycomb stainless steel covering.

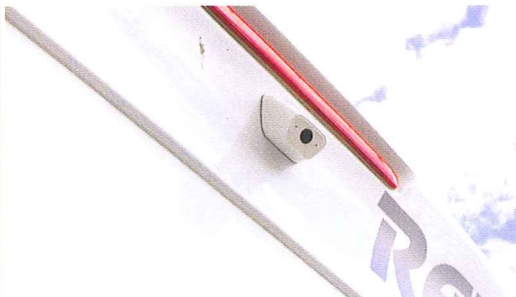

ELEGANCE FURNITURE

All Serie 70 models are now equipped with new units in Elegance style. You will appreciate the sophistication of the design and their gentle curving lines.

AIR BAG

For your safety, the Serie 70 is fitted with a driver's air bag as standard.

REVERSING CAMERA

The reversing camera provides night vision. It is connected to a motorised 7" colour screen integrated into the dashboard. Manoeuvring has never been so simple!

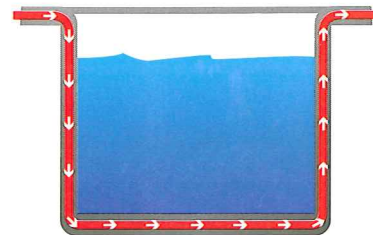

OPTIONAL LEATHER TRIM

Now available right from the start of the range, leather make sits appearance in all the RAPIDO interiors. Two shades are available: Beige (Boston trim) or brown (Chicago trim).

AL-KO low-profile double floor | 7066dF | 7083dF | 7092dF | 7095dF

On the strength of its universally recognised know-how in the design of the Double Floor developed until now for its Serie 90dF models in the A-Class range, RAPIDO is now offering this equipment for its new collection on the 70dF models in the Low-Profile range in order to increase your storage space.

New storage space beneath your feet

The RAPIDO double floor is an innovative design because of the second level of storage providing an additional volume laid out in the form of compartments in variable sizes. These are accessible both from inside and outside the vehicle. With benefits including thermal insulation, technical aspects accommodating the water, electricity and gas circuits and optimum use of the double-floor space, RAPIDO provides a unique, high-quality solution.

Sky and space within your reach.

7066dF

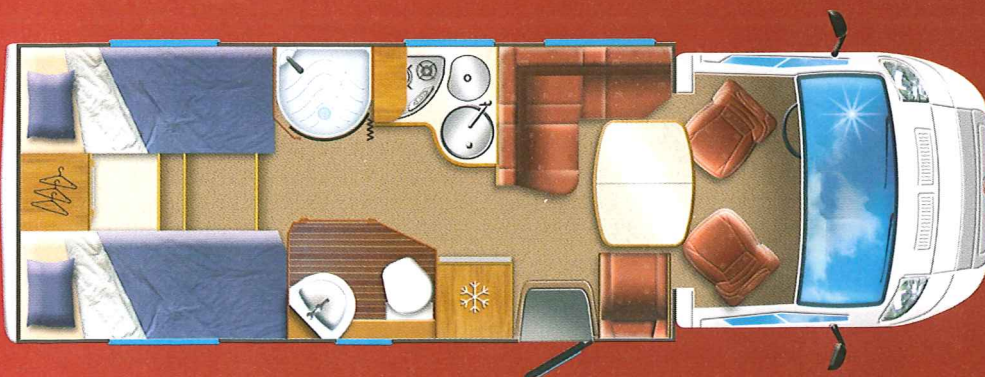

7066dF - NEW FOR 2009

IN A GOOD MOOD EVERY MORNING

The twin beds, over a 1.20m-high garage, can be converted into a bed 1.40 x 2.00m. After a 5-star night, you wake up in good spirits under the revitalising jet from the large separate shower. This joy of living is also due in no small part to the 7066dF's amazing storage spaces, cleverly distributed in the double floor.

THE SPECIAL FEATURES OF THE 7066dF

- DOUBLE FLOOR WITH EXCLUSIVE 2ND STORAGE LEVEL
- PANORAMIC OPENING ROOF
- NEW MULTIFUNCTION KITCHEN
- NEW FURNITURE, ELEGANCE STYLE
- TWIN BEDS, 80CM WIDE

7083dF

7083dF - NEW FOR 2009

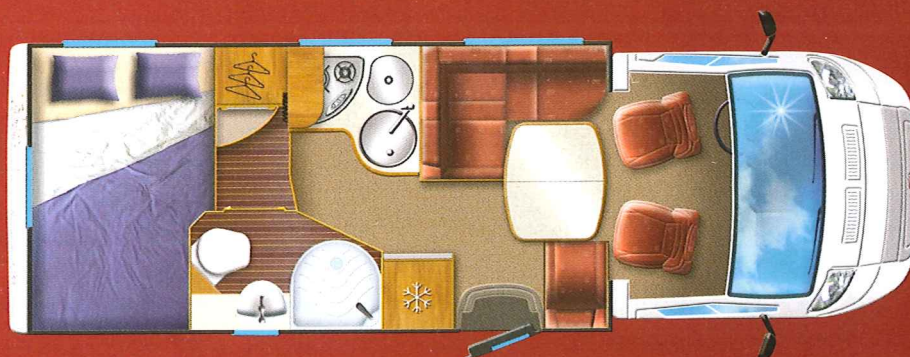

A VERITABLE MAGICIAN

The 7083dF really plays with your senses. It successfully pulls off the trick of occupying little space outside while providing considerable space inside. The result: seen from outside, this compact vehicle keeps its label of « small », whereas, when you go inside, you are impressed by the volume of its interior space and its many areas for storage. With this model, do not hesitate any longer: take a large view of your trips.

THE SPECIAL FEATURES OF THE 7083dF

- DOUBLE FLOOR WITH AN EXCLUSIVE SECOND STORAGE LEVEL
- OPENING PANORAMIC ROOF
- NEW MULTI-FUNCTION KITCHEN
- NEW ELEGANCE STYLE UNITS
- BACK-LIT BAR
- 1.20M-HIGH GARAGE

7092dF - NEW FOR 2009

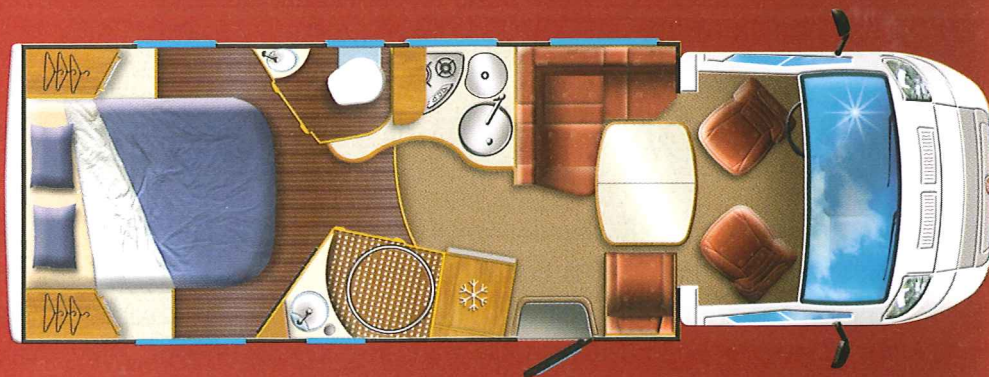

GENTLE CURVES

The main advantages of the 7092dF are its rounded angles and its invitation to relax. Between its generous curves and its distinct living areas, it carries you away in the comfort of a central bed, a bathroom with wooden grating, separates WCs and even the warm feeling caused by the double floor.

THE SPECIAL FEATURES OF THE 7092dF

- DOUBLE FLOOR WITH EXCLUSIVE 2ND STORAGE LEVEL
- PANORAMIC OPENING ROOF
- REAR CENTRAL BED WITH INCLINABLE BEDSPRING
- NEW MULTIFUNCTION KITCHEN

7095dF - NEW FOR 2009

THE BOUNDARIES MUST COME DOWN

Comfortably installed in the sliding bed of the 7095dF, you will be able to watch the sun rise through the panoramic side bay in total peace and quiet or benefit from this « relaxation » area during the day by reading a good book facing the sea. In the living room, the panoramic opening roof provides the same feeling of freedom. Lastly, storage also gains in space and modularity with the double floor, the compartments under the bed accessible from both inside and outside the vehicle and the new storage under the bathroom across the full width of the vehicle.

THE SPECIAL FEATURES OF THE 7095dF

- DOUBLE FLOOR WITH EXCLUSIVE 2ND STORAGE LEVEL

THE ADVANTAGES OF THE DOUBLE FLOOR

The double floor houses the water, electricity and gas circuits and also the water tank. The result? You have storage hatches for bulky items, like skis, fishing rods... The living area is better insulated against the cold. And all without losing any ceiling height.

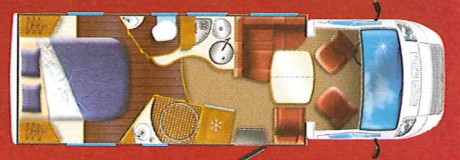

THE ADVANTAGES OF THE **AL-KO** CHASSIS

RAPIDO calculates the AL-KO chassis's wheelbase and track to adapt them to the living area according to the type of layout. These two criteria, the wheelbase and the width of the track, combined with independent wheels, provide driving comfort and greater freedom for laying out the interior.

The double glazed opening panoramic roof is fitted with a flyscreen and a light-excluding curtain. You can vary the intensity of the light to suit your desires! You will find two storage spaces on either side of the bay.

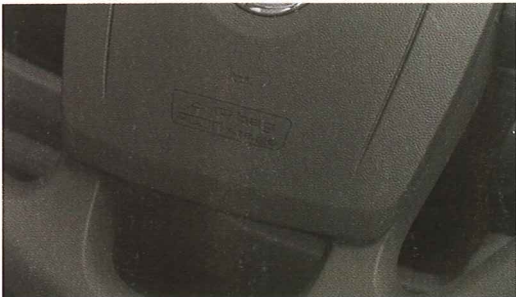

REVERSING CAMERA

The reversing camera provides night vision. It is connected to a motorised 7" colour screen integrated into the dashboard. Manoeuvring has never been so simple!

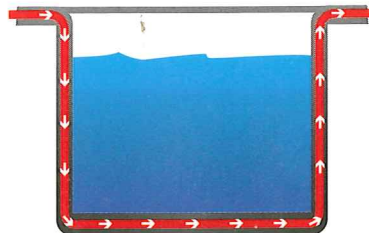

ELEGANCE FURNITURE

All Serie 70dF models are now equipped with new units in Elegance style. You will appreciate the sophistication of the design and their gentle curving lines.

AIR BAG

For your safety, the Serie 70dF is fitted with a driver's air bag as standard.

INSULATED, HEATED WASTEWATER TANK

The tank is protected by an insulated compartment, heated by forced air*, which also contains a drain valve.

* as soon as the TRUMA heating is switched on.

EXCEPTIONAL ENGINES

For good performance on the road, all RAPIDO motor homes are fitted with 130hp engines as standard (except the Serie 9M). A 160hp engine is available as an option.

DOUBLE FLOOR WITH SPECIFIC RAPIDO LAYOUT

The Serie 70dF's double floor is of an original design. It provides additional space laid out in the form of compartments in various sizes. These can be accessed from both the outside and indoors. The Serie 70dF's double floor has 2 different storage levels to store away bulky articles such as skis, fishing rods, water bottles... The double floor also fulfils a technical function by housing the water, electricity and gas circuits. It also improves the quality of the heat insulation.

EQUIPMENT AND FURNISHINGS

PANORAMIC ROOF

The double glazed opening panoramic roof is fitted with a flyscreen and a light-excluding curtain. You can vary the intensity of the light to suit your desires! You will find two storage spaces on either side of the bay.

MORE PRACTICAL KITCHEN

The kitchen provides some extremely practical features: drainer, bin and a second sink. The opening of the hobs can be varied thanks to a double leaf opening system. Nor does it lack for charm with its honeycomb stainless steel covering.

NEW ELEGANCE FURNITURE

The Indian Summer colour of the new Elegance furniture enhances the warmth of your interiors. Their beauty and sophistication will impress your guests.

BACK-LIT BAR

The bar accommodates two rows of glasses* in a sophisticated decor: mirror, wood and glazed door, all back-lit. A little marvel!

* Glasses not supplied

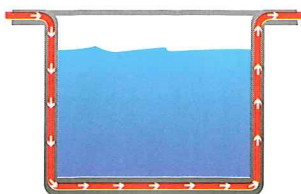

REVERSING CAMERA

The reversing camera provides night vision. It is connected to a motorised 7" colour screen integrated into the dashboard. Manoeuvring has never been so simple!

METALLIC PAINT BODYWORK

RAPIDO extends its selection by offering on the Serie 70+ metallic grey bodywork that gleams in the sun.

INSULATED, HEATED WASTEWATER TANK

The tank is protected by an insulated compartment, heated by forced air*, which also contains a drain valve.

* as soon as the TRUMA heating is switched on.

EQUIPMENT AND FURNISHINGS

ABS BRAKES

ABS (Antilock Brake System). This prevents the wheels from locking during braking, optimises stopping distances and, above all, ensures that the motor home can continue to steer.

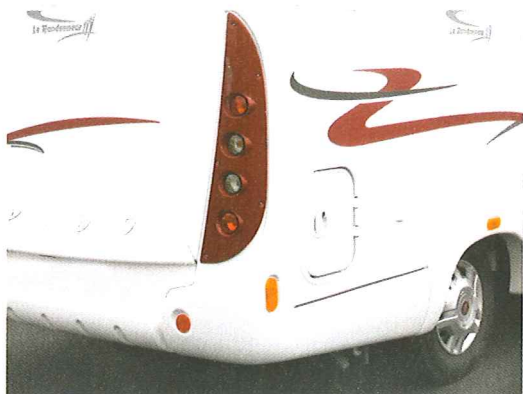

AIR BAG

For your safety, the Serie 9F is fitted with a driver's air bag as standard.

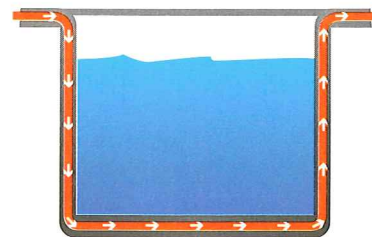

MORE PRACTICAL KITCHEN

The new kitchen provides some extremely practical features: drainer, bin and a second sink. The opening of the hobs can be varied thanks to a double leaf opening system. Nor does it lack for charm with its honeycomb stainless steel covering.

NEW REAR LIGHT PILLAR

The rear of these models has been newly designed with a new rear light pillar. More soaring and stylised, it allows the inclusion of a 4th light.

INSULATED, HEATED WASTEWATER TANK

The tank is protected by an insulated compartment, heated by forced air*, which also contains a drain valve.

* as soon as the TRUMA heating is switched on.

NEW FACE

This year, the front face of the Series 9F and 90dF have a face lift with: heightened side mirrors, ventilation grills in metallic colours and a curved-effect windscreen.

OPTIONAL LEATHER TRIM

Now available right from the start of the range, leather make sits appearance in all the RAPIDO interiors. Two shades are available: Beige (Boston trim) or brown (Chicago trim).

THE JEWEL IN THE 2009 COLLECTION

The 9009DFH is a synthesis of genius. In 8 metres, it combines together all your dreams: The legendary comfort of RAPIDO, allied to space, plenty of storage and extraordinary autonomy. Wherever you go, it is truly a mansion you are transporting. It is very simple, with the 9009dFH you will break through so many barriers that your friends will never believe the stories of your travels!

Classified as a « Heavy Vehicle », the 9009dFH has a gross vehicle weight (GVW) higher than other RAPIDO motor homes. For better autonomy, it therefore offers, among other things, a 190-litre fresh water tank, a fuel cell and a second living room battery.

THE ADVANTAGES OF THE DOUBLE FLOOR

The double floor houses the water, electricity and gas circuits and also the water tank. The result? You have storage hatches for bulky items, like skis, fishing rods... The living area is better insulated against the cold. And all without losing any ceiling height.

THE ADVANTAGES OF THE **AL-KO** CHASSIS

RAPIDO calculates the AL-KO chassis's wheelbase and track to adapt them to the living area according to the type of layout. These two criteria, the wheelbase and the width of the track, combined with independent wheels, provide driving comfort and greater freedom for laying out the interior.

EQUIPMENT AND FURNISHINGS

THE "SUPER COMFORT" CAB SEATS

The seats are upholstered with covers matching the patterns and colours you have chosen for the living area. This top-of-the-range cover provides an additional thickness of foam. The seats are perfectly adjustable (in height, length and inclination of the back and the seat) for driving comfort equivalent to that of a car.

NEW FACE

This year, the front face of the Series 9F and 90dF have a face lift with: heightened side mirrors, ventilation grills in metallic colours and a curved-effect windscreen.

REVERSING CAMERA

The reversing camera provides night vision. It is connected to a motorised 7" colour screen integrated into the dashboard. Manoeuvring has never been so simple!

ELEGANCE FURNITURE

All Serie 90dF models are now equipped with new units in Elegance style. You will appreciate the sophistication of the design and their gentle curving lines.

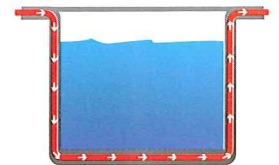

MORE PRACTICAL KITCHEN

The new kitchen provides extremely practical functions: drainer, bin and a second sink. The opening of the hobs can be varied thanks to a double leaf opening system. In addition, its honeycomb covering ensures that it does not lack for charm.

OPTION WITHOUT CAB BED

Available on all the A-Class models (except the 9F), this option enables you, instead of the cab bed, to have many storage cupboards, a built-in space for your TV, electric sun blinds and the possibility of additional sleeping space in the living room.

INSULATED, HEATED WASTEWATER TANK

The tank is protected by an insulated compartment, heated*, which also contains a drain valve.

* as soon as the heating is switched on (TRUMA = pulsed air, ALDE = radiators).

DOUBLE FLOOR WITH SPECIFIC RAPIDO LAYOUT

The Serie 90dF's double floor is of an original design. It provides additional space laid out in the form of compartments in various sizes. These can be accessed from both the outside and indoors. The Serie 90dF's double floor has 2 different storage levels to store away bulky articles such as skis, fishing rods, water bottles... The double floor also fulfils a technical function by housing the water, electricity and gas circuits. It also improves the quality of the heat insulation.

STANDARD ON ALL THE RANGE

AIR BAG

For your safety, the Serie 90dF is fitted with a driver's air bag as standard.

EQUIPMENT AND FURNISHINGS

BACK-LIT BAR

The bar accommodates two rows of glasses* in a sophisticated decor: mirror, wood and glazed door, all back-lit. A little marvel!

* Glasses not supplied.

REVERSING CAMERA

The reversing camera provides night vision. It is connected to a 7" colour screen 2 DIN with CD and DVD integrated into the dashboard. Manoeuvring has never been so simple!

NEW ELEGANCE FURNITURE

The Indian Summer colour of the new Elegance furniture enhances the warmth of your interiors. Their beauty and sophistication will impress your guests.

MORE PRACTICAL KITCHEN

The kitchen provides some extremely practical functions: drainer, bin and a second sink. The opening of the hobs can be varied thanks to a double leaf opening system. Nor does it lack for charm, with its covering in honeycomb stainless steel.

DIAMOND FINISH

Colour and material are 'as one' like mother-of-pearl. That is why the gel coat on the Series 9M is bulk dyed. Two shades of silver grey glide over the bodywork and merge in the equipment: the ventilation grill, the petrol cap, the side mirror, the ladder and the roof rack. Total harmony. The silver grey highlights on the Series 9M have the discreet luxury of universally acclaimed works of art. No, beauty is not a matter of taste; it is universal.

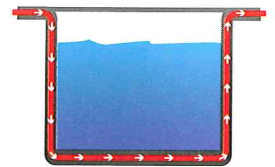

NEW LIVING ROOM DESIGN

RAPIDO introduces for the first time this year a completely new base for the bench seats. Under the cushion, a strip of fabric coordinated with the upholstery increases the living room's feeling of comfort and gives it the true feeling of a traditional living room.

AIR BAG

For your safety, the Serie 9M is fitted with a driver's air bag as standard.

INSULATED, HEATED WASTEWATER TANK

The tank is protected by an insulated compartment, heated by forced air*, which also contains a drain valve.

* As soon as the TRUMA heating is switched on.

EXCEPTIONAL ENGINE SYSTEMS

You have the choice of two Mercedes New Generation engines. The first is a four-cylinder 150 hp engine with improved torque of 330 Nm at 1200 rpm. The second is a 6-cylinder engine serenely producing an output of 184 hp, with a torque of 400 Nm at 1600 rpm. Both comply with the Euro IV anti-pollution standard.

OPTION WITHOUT CAB BED

Available on all the A-Class models (except the 9F), this option enables you, instead of the cab bed, to have many storage cupboards, a built-in space for your TV, electric sun blinds and the possibility of additional sleeping space in the living room.

STANDARD ON ALL THE RANGE

STANDARD

« HEAVY VEHICLE » EQUIPMENT 992MH / 966 MH / 996 MH

With its « H » (Heavy) motor homes, RAPIDO provides specific standard equipment especially for heavy vehicles:

- Fuel cell
- 190-litre fresh water tank (except 996MH: 90 l)
- Second living area battery

Shortened version list: for the complete list of standard equipment, please refer to the technical guide at the back of the catalogue.

Despite the great care taken in the design of the parts and their colours, some differences in hues may appear depending on changes in materials or lighting.

Express your motor home's personality

When considering purchasing a motor home, choosing the textile is an important moment. Its pattern, feel and colour will provide the interior design with its own soul and personality, which you will then make unique with your own decorative touches. The textiles on the armchairs; seats and couches have all been chosen for their strength and their soft feel. Their patterns and colours outlast fashions without losing any of their charm; they are easy to maintain, removable and easy on the eye.

This year, a new fabric make sits appearance,

Toulouse. Leather is an option on every Series, with two possible colours: beige (Boston trim) or brown (Chicago trim).

Leather that ages well, for a timeless motor-home

LEATHER IS A GOOD CHOICE FOR A MOTOR-HOME'S SEATS AND BENCH SEATS:

it is easy to maintain and ages well provided that some precautions are taken for its care.

- Leather's number 1 enemy is tiny: grains of dust damage the surfaces and the seams through their abrasive action. It must therefore be wiped down regularly with a slightly damp cloth.
- Your motor-home has been designed to allow as much light as possible to enter through the bays, the opening roof, etc. Nevertheless, take care because, under prolonged exposure to sunlight the leather may discolour slightly. We therefore recommend that you draw the curtains in the height of summer if you are not parked in the shade.
- Be careful with damp dark-coloured clothing: If the dye is poor quality, the colours may run.
- To clean the leather, do not use strong detergents, turpentine, stain removers, petrol, solvents or wax polish; instead, regularly apply a UV protection, waterproofing cream: this feeds the leather and protects it from discolouration.
- Coloured protective creams enable you to refresh the colours and alleviate any discolouration. Warning: you must allow the product to dry for at least two hours.
- Every 2 to 3 months, treat the leather with a gentle cleaning agent.

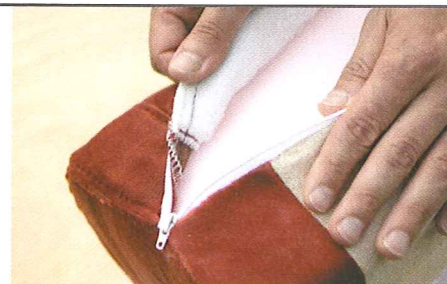

THE COMFORT OF RAPIDO UPHOLSTERY

RAPIDO pays particular attention to the quality of the upholstery. Conscious of the fact that a lot of time is spent sitting in a motor home, RAPIDO designs high-quality upholstery. The choice of the foams and textiles determines the level of comfort; both are rigorously selected and tested. In your motor home, hours pass but comfort remains.

SEATING COMFORT

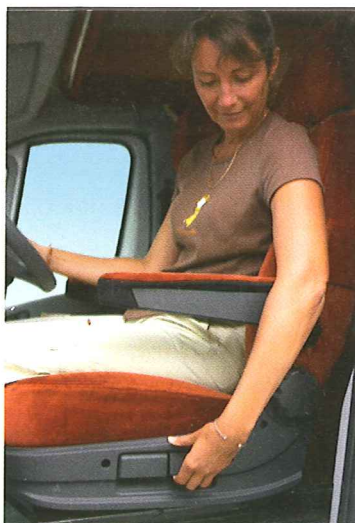

The living room upholstery covers are lined with a padded material that improves seating comfort.

HARMONY

The original seats are fitted with covers in the same patterns and colours as the living room.

DRIVING COMFORT

All the Fiat models are fitted with special motor home seats. In addition to their great comfort, they also adopt the ideal position (adjustable height and inclination for the back and the seat).
