CAMPING

YOUR TRAVEL COMPANION

Member of the Isabella Group

UK

A five piece classically styled awning with practical features, The Atlantic is suitable for both permanently pitched and touring caravanners, and available in three acrylic colours, with modern curtain choices. One side panel includes a ventilation window, the sides are interchangeable. All our awnings include FixOns Curtains and bags plus more, as standard. Sewn using superior systems our Atlantic and Pacific awnings are made in the smallest size differentials on the market for the best fit to Europe's caravans. The four slider zip system means that all the panels can be removed completely for ease of assembly and for when the weather permits. An annex can be fitted to either side. The door sections can be rolled back for easy access and a neat entrance, with the zips protected.

Without unpegging the panels they can be folded over for extra ventilation by creating a veranda effect.

We have designed a selection of awnings to match your type of holiday. A caravanning holiday is ideal to recharge your energy, we don't want you to waste time and effort on getting your awning right – we've done the hard work for you!

Ventura awnings are designed in Denmark by specialists with over 50 year's experience. The excellent materials are carefully chosen and tested. The beading to feed through the caravan channel is strong; it also has the durable FixOn profile and an extra tape to ensure that there are no leaks. The hard wearing roof is Ten Cate coated polyester so that this area of the awning can cope with all kinds of weather. The canopy & side walls are made from attractive Polyester or Acrylic from Sattler for good looks and greater comfort. The windows are welded for durability. The zips are spiral tooth for smooth running around the panel corners and the four slider system offers extreme flexibility. The simple frame system, in a choice of Fibremax with a mighty 30.5 mm diameter or the strong Prenox steel includes the screwless FixOn brackets (see page 10).

Your awning could be for touring or permanent pitching, the living room or the dining room, a sleeping place or meeting place - Or if you choose a combination of all of these, this demands reliable quality and utility, two of the things assured in the added value Ventura.

Ask at your retailer for more information or ask us, full details can be found at www.ventura-camping.com

Atlantic Verde

Atlantic Burgundy

Atlantic Marine

Type: Full awning · **Depth:** 250 cm · **Colours:** MARINE/light blue - VERDE/stone - BURGUNDY/stone

Standard: Canopy poles, screwless FixOn brackets, awning/frame/peg bags, curtains, pegs, draught skirt and wheel arch cover · **Optional extra:** Annex can be zipped onto either side of the awning
Sizes available "A"-measurement: Every 25cm between 800-1075 cm

Pacific 300

An excellent choice, with fresh colours. The Pacific is suitable for both permanently pitched and touring caravanners.

This easy-clean five piece polyester awning is available in generous 3 metres depth and also in the regular 2.5 metres depth.

The Pacific models have a ventilation window with a zipped foil cover in one side panel. The side panels are interchangeable.

... and Pacific 250

The frame system used for our Pacific and Atlantic awnings is so very simple. The number of poles is kept to a minimum. Where possible the poles are interchangeable. To ensure that you can achieve the best tension, whatever the ground conditions, every pole is adjustable. The Canopy has a full frame whatever the awning size, and you can choose between Fibremax, (30.5 mm diameter roof poles) or the strong Prenox Steel (22/25 mm diameter).

Pacific 300

Pacific 250

Type: Full awning · **Depth:** 300 cm · **Colour:** Steel blue/Vanilla · **Features include:** The side panel with a ventilation window and zipped outside foil cover. Optional extra: Annex to be zipped onto either side of the awning · **Sizes available "A"-measurement:** Every 25cm between 800-1075 cm

■ Cadet

Whatever the layout of your caravan, the Cadet is the part awning to go well with it.

This improved porch is easy to assemble, and now has a door on the left and right sides, a ventilation side window, a removable front panel and, like all Ventura porches, has a superb seal to the caravan.

Available in three acrylic colour combinations and a choice of frame type this porch is more than a weekender.

Cadet Burgundy

■ Marlin - New edition!

The new blue Marlin, now with ventilation net in the side, is very spacious, with a 340 x 230 cm footprint, it is ideal when you only want to cover part of the caravan. There is an optional Annex available which can be fitted to either side.

Made from a new material the easy clean coated polyester will be a big advantage throughout the season. This stylish part awning with inside mudflaps offers great comfort and looks smart.

□ **Type:** Part awning · **Ground:** 340 x 230 cm
Can be supplied to fit caravan heights: 230-250 cm · **Colours:** BLUE/light blue
Features include: Both sides have sewn-on foam pads to hold the awning close to the caravan side · The front and side panels can be removed or rolled down · Doors on every panel · Front vent under the canopy · **Canvas:** Polyester · **Roof:** Coated polyester · **Choice of frame:** Fibreglass or Steel · **Standard:** Screwless FixOn brackets, awning/frame/peg bags, curtains, pegs, draught skirt and wheel arch cover · **Optional extra:** Annex in coated polyester is available as optional extra. The annex can be zipped into either side of the Marlin

□ **Type:** Part awning · **Ground:** 260 x 200 cm · **Can be supplied to fit caravan heights:** 230-250 cm · **Colours:** MARINE/light blue - BURGUNDY/stone - VERDE/stone · **Features include:** Ventilation net panel in one side panel and both sides have sewn-on foam pads which keep the awning close to the caravan. Front panel can be removed or rolled down · **Canvas:** Heavy fibre-dyed acryl · **Roof:** Coated polyester · **Choice of frame:** Fibreglass or Steel · **Standard:** Screwless FixOn brackets, awning/frame/peg bags, curtains, pegs, draught skirt and wheel arch cover

Cadet Verde

Cadet Marine

■ Universal 320

For use all-year-round thanks to the special winter awning details. Super size porch with sturdy steel frame.

□ **Type:** Part awning · **Ground:** 340 x 230 cm · **Can be supplied to fit caravan heights:** 230-250 cm · **Use:** All-year-round · **Colour:** Dark blue/light blue · **Features include:** Special roof construction preventing snow build up · Removable front panel · Flexible pegging · Extra wide outside mudflap · **Canvas:** Heavy duty fibre-dyed acryl · **Roof:** Polyester/PVC · **Frame:** Steel frame · **Standard:** Screwless FixOn brackets, awning/frame/peg bags, curtains, pegs, draught skirt and wheel arch cover, foam pads and support poles to hold the awning close to the caravan side · Wintersecuring and inner roof are available as optional extras (see page 9)

Freestander - New edition!

The new Blue Freestander comes with a choice of Steel or Fibreglass frame, and removable side panels for annex option. One side panel has a ventilation net window. This model comes in two height sizes: Low with a footprint 305 x 252 cm and High with a footprint 312 x 256 cm. The front and side panels are removable for easy assembly. Made from a new material, the easy clean polyester will be a big advantage as you travel around. There is an optional Annex available which can be fitted to either side. There are three alternatives for fitting the Freestander to your motor vehicle, full details on the website.

Sahara

Take the sunshine when you go, with this attractive sun canopy in summer colours.

The canvas attaches to the full frame with regulator tabs (page 10) and pockets for added security and reduced noise from the breeze. The curved side panels can be zipped out on balmy days.

Type: Sun canopy · Depth: 240 cm
 Colour: Dark blue/Sand · Material: Side panels made from coloured coated polyester · Roof: Coated polyester · Features include: Pockets in the roof for ridge poles and in the front for leg support poles · Zip-out curved side panels · Choice of frame: Fibreglass or steel · Standard: Screwless FixOn brackets, awning/frame/peg bags, pegs
 Sizes available "A"-measurement: Every 25cm 850-1075 cm

Freestander Low

Now also available with FIBREGLASS FRAME!

Type: Annex for Motorhomes · Ground: approx. 308 x 254 cm (depending on height adjustment on frame) · Heights: Low model for access between 170 and 250 cm, or high model for access between 240 and 270 cm · Folded up size: Canvas approx. 95x45x25 cm - Frame approx. 120x20x25 cm · Colour: BLUE/light blue · Features include: Back Panel with two vertical zips for easy access from the vehicle · The front and the side panels can be removed or rolled down · Protected access via the flexible tunnel · Door in both sides · Mosquito net window with foil cover in the right hand side · Canvas: Polyester · Roof: Coated polyester · Choice of frame: Fibreglass or Steel · Standard: Storage bags: Canvas bag 1m long, Frame bag 1.2 m long, curtains and a bag with pegs · Optional extra: Annex in coated polyester is available as optional extra. The annex can be zipped into either side of the Freestander

Annex available (optional extra)

Freestander High

Winter

The winter time can also be used for caravanning - especially with the right part awning...

Type: Winter awning · Ground: 220 x 180 cm · Can be supplied to fit caravan heights: 230-250 cm · Use: All-year-round · Colour: Blue/grey/burgundy · Features include: Special roof construction preventing snow build up · Flexible pegging · Extra wide outside mudflap · Canvas/Roof: Polyester/PVC · Frame: Steel frame · Standard: Screwless FixOn brackets, awning/frame/peg bags, curtains, pegs, draught skirt and wheel arch cover, foam pads and support poles to hold the awning close to the caravan side · Wintersecuring and inner roof are recommended for use in the winter time (optional extras)

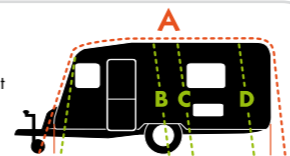

- 1. FIBREGLASS FRAME** Light-weight and corrosion resistant frame. The fibreglass frames for full awnings have Fibremax rafter poles with a mighty 30.5 mm diameter.
- 2. STEEL FRAME** The external zinc coating of the steel frame is 50% thicker than traditional surfaces, for extra long life.
- 3. SCREWLESS FIXON BRACKETS** For optimum positioning of rafter poles and better tensioning. Quick and easy positioning with total flexibility for top performances on varying ground conditions. All this without permanent fixing to the caravan. FixOns slide onto durable profile.
- 4. SUPERIOR FIT** to the caravan The roof panels are contoured to give a better fit to the shape of your caravan. Optimum placing of the roof poles and with FixOn I brackets your roof is tensioned perfectly.
- 5. ZIPS** All models are made with substantial, long life zips. These zips are all protected from rain and the sun with a material cover for better looks and performance.
- 6. CURTAINS/CURTAIN SYSTEM** All models are supplied with curtains for all the windows panels. Curtain poles make the curtains easy to hang.
- 7. HEAVY DUTY MATERIALS** Only heavy duty materials from the leading manufacturers in Europe are used. Continuous quality control and skilled workers ensure high quality products.
- 8. REGULATOR TABS** Regulator tabs and spiked shoes ensure uniform tensioning. By locking the canvas and frame together these help to hold the canvas in place even before the awning has been fully pegged.

THE CORRECT SIZE

To ascertain the correct size, you need to know: Caravan make, model, year, and "A" measurement as follows: Place the caravan on even ground. Measure from ground level at most forward point of channel to most rearward point of awning channel, and straight down to the ground. B shows Winter distance between rafters 203 cm. C shows Cadet distance between rafters 226 cm. D shows Marlin distance 313 cm & Universal 320 distance 310 cm between rafter poles.
