INSPIRED BY NATURE

The wind gently caresses its flowing forms, while striking details stand out from the crowd like colourful flowers – the exterior design of a Bürstner masters the language of nature.

CREATED FOR THE SENSES

A brilliant design that sparkles like the starry sky, warm wood tones that shimmer in soft light – the interior of a Bürstner will indulge you with a well-balanced mix of fine materials and flowing forms.

YOUR PERSONAL TASTE IS THE DECIDING FACTOR

Whether you decide to travel as a couple or with the entire family – independence becomes sheer enjoyment with a Bürstner motorhome.

Ranging from manoeuvrable motorhomes at affordable prices to elegant luxury suites on wheels and spacious giants with up to six seats – we have vehicles to fulfil your every wish. After all, every Bürstner motorhome offers you the highest level of comfort so that you can enjoy an unlimited sense of comfort and well-being while on holiday.

Well-thought-out design, practical functionality and a harmonious mix of materials are found throughout. You can also choose from many features and colour options to create your very own custom motorhome.

With over 25 years' experience, we have developed a range of recreational vehicles that combine efficiency, user-friendliness and appealing design to bring you carefree enjoyment of your leisure time.

On the Internet you will find the Bürstner vehicle advisor, as well as the vehicle configurator, with which you can browse all the many options, and which will take all your individual preferences into consideration and calculate them accordingly.

SOMETIMES LESS IS MORE

With a Bürstner you can feel free to take along a bit more with you on holiday. Thanks to our certified lightweight construction, our vehicles have loading reserves that are not found in standard motorhomes. Tried and tested materials such as XPS foam significantly reduce the unladen weight of our vehicles, while at the same time guaranteeing high Bürstner quality.

Another advantage is that many of our motorhomes fall within the 3.5 tonne class, which not only leads to lower fuel consumption, but also allows individuals with the new passenger car driving license (class B) to enjoy the benefits of a holiday in a Bürstner motorhome.

High-tech materials also convince with their excellent insulation properties. You won't have to do without anything while on holiday – whether in summer or winter.

COMPACT MODELS

A new spin on mobility: With its compact class Bürstner introduces a new model concept for motorhomes that completely redefines the boundaries between an everyday vehicle and a motorhome.

Compact and agile like a panel van, but with many advantages that vans simply don't offer. The Brevio cleverly combines the virtues of both worlds without giving up the amenities of a semi-integrated motorhome. Starting with the feeling in the living area and complete kitchen features to the spacious compact bathroom and optimum insulation...

BREVIO

THE FIRST SEMI-INTEGRATED MODEL WITH A REAR TAILGATE

The new Brevio can certainly consider itself to be everybody's darling. After all, with this vehicle you can experience everyday life just as perfectly as your holiday. The large rear tailgate with a low loading sill makes it easy to store even bulky cargo.

The dynamic lines from the cappuccino to the beautiful rear give the Brevio its characteristic design. The interior is even larger thanks to the straight side walls manufactured in sandwich construction. The high-quality insulation allows for unlimited travelling pleasure even in the winter.

Brevio – stronger than a panel van

- + Low-frame chassis
- + Loading capacity of over 570 kg
- + Large rear tailgate with low loading sill
- + Straight, insulated side walls
- + Skyroof over the cab
- + Electrically operated step
- + Gas compartment for 2 x 11 kg
- + Spacious living area
- + 1.95 m of headroom
- + Spacious compact bathroom
- + Lots of storage space including a wardrobe
- + Complete kitchen features

As compact as a panel van and as generously-sized as a semi-integrated model

Brevio t 600

1

2

COMPACT IS BIG

The Brevio's impressively compact exterior totally belies its spacious interior. Thanks to the cabin's well-thought-out design, it doesn't matter whether you are in the bathroom, the living area or the cab: it's spacious everywhere. Impressively spacious yet compact.

3

1 Ambience: The increased headroom from the cappuccino roof characterises the open design of the living area. Light from the skyroof brightens up the entire seating area.

2 Twice as good: Instead of the bench, two individual automotive seats are available as an option. The right seat can be slid along its rail system for significantly more elbow room.

3 Well equipped: The kitchen with a two-burner gas hob, a large sink and a 104-litre refrigerator with a freezer compartment leaves nothing to be desired.

1

2

3

4

4

4

1 Good night: The split cold foam mattress on the folding bed in the rear is waiting to carry you off to dreamland in comfort.

2 Everything well stored: There is lots of storage space under the bed so that you won't have to do without anything.

3 A true wonder in terms of space: When the washbasin is swivelled to the side, you can comfortably shower.

4 A good use of storage space: The bottom drawer of the large wardrobe is also a step to climb into bed.

SEMI-INTEGRATED MODELS

Sporty and unstoppable on your way to your holiday destination: Welcome to the class of semi-integrated models. Thanks to their compact dimensions, they master even tight curves and narrow roads, giving you lots of room for spontaneity. On the inside, the well-thought-out floor plans will indulge you with a surprisingly large amount of space. A Bürstner semi-integrated model is the perfect holiday vehicle for enjoying an unlimited sense of comfort and well-being, either as a couple or as a small family.

Two model ranges are available to choose from: the most compact option is the Travel Van, while the larger Nexxo impresses with its excellent performance at an attractive price. A hail-resistant GRP roof is available for all models upon request.

TRAVEL VAN

NEXXO

TRAVEL VAN

THE SMART HOLIDAY RIDE

The Travel Van brings a breath of fresh air to your holiday plans. Its compact dimensions make it sporty and manoeuvrable on the road so that you can reach any destination. Curving coast-roads, tight S-bends, tours through cities with narrow streets – driving will be a sheer delight in the Travel Van.

The sporty exterior design with elegant smooth metal panelling and sweeping lines, the comfortable low-frame chassis – this vehicle offers pure driving dynamics.

Travel Van t 620 G

Live, sleep, cook – all of this is possible in the Travel Van and there is room for everything. There's also plenty of storage space and ample interior headroom.

The sun casts everything in a pleasant light when it shines through the large opening windows. You'll also feel completely comfortable here at night. You'll get a restful night's sleep on the comfortable fixed beds and dream about your next day of holiday.

1 Nice and bright: The large skyroof with integrated pleated blinds and window screens (optional) and the well-thought-out lighting concept with adjustable spotlights ensure the right lighting for any mood.

2 A peaceful oasis: The elevated single beds with comfortable cold foam mattresses can be turned into a double bed in a matter of moments.

3 A true wonder in terms of space: The bathroom in the Travel Van has twice as much to offer. The entire washbasin area including the base cabinet can be simply swivelled to the side to create ample room for pleasurable showers.

NEXXO

A GREAT DEAL OF FREEDOM FOR AT AN AFFORDABLE PRICE

The Nexxo will please everyone – those who are always searching for that new special place and those who have already found it. Thanks to its excellent road performance, every mile of road will be part of your holiday.

Well-thought-out floor plans will pamper you with many attractive and practical details. Its versatility and chic design have made the Nexxo one of the most popular motorhomes in the Bürstner fleet.

Nexxo t 660

Quality for a sense of comfort and well-being can be found everywhere in the Nexxo – in the storage cupboards' two-tone fronts, the carefully-conceived lighting concept and the high-quality upholstery and furniture.

4

1 **For gourmets:** The practical L-shaped kitchen will satisfy the needs of amateur chefs.

2 **Elegant:** The rotating pilot seats for the driver and passenger are upholstered in the same fabric as the living area, thus fitting in perfectly with the ambience of well-being.

3 **Easy access:** The new t 729 has two low single beds in the rear, which make going to bed and waking up especially comfortable.

4 **Clever twist:** In the VarioBad (variable bathroom) the wash-basin and mirror can be swivelled to the side to make room for a separate, splash-proof shower cubicle. The tap turns into a shower-head in moments.

1

2

Climate protection: Ventilated storage cupboards ensure a pleasant climate.

3

1 Hidden clothing: A wardrobe that can be accessed from above and the front is located under the laterally installed double bed in the rear.

2 Whets your appetite: The L-shaped kitchen creates lots of space to cook, while the roller-mounted drawers provide room for dishes and kitchen utensils.

3 Lights with flair: The backlit LED handrail not only looks good, but also provides more safety in the dark.

1 Twice as secure: The premium Hartal door with a window and window screen (optional on some models) keeps away those unwelcome guests. Also with central locking upon request.

2 Rear storage: Those who enjoy being athletic while on holiday will find plenty of secure space for their bikes in models with a rear garage.

3 Nice and easy: The electrically operated extending step makes it easier to get in and out of the vehicle.

IXEO CLASS

Flowing lines and a design that looks as if it were cast from a single mould – with the Ixeo series Bürstner invented the class of semi-integrated models with a fold-down bed and set new standards. Never before could up to six people enjoy an unlimited sense of comfort and well-being while holidaying in a compact motorhome.

With **three model series** and a total of **18 floor plans**, in this class Bürstner offers the most diverse range available on the market. Both couples and families will find exactly what they are looking for.

The Ixeo time is the affordable entry-level model, scoring points with its price and its versatility. The Ixeo heralded in the era of this new class of motorhomes and is continuing to set standards for this class. The Ixeo plus lives up to its name: Its added furnishings and extras will satisfy even the most sophisticated connoisseurs.

IXEO TIME

IXEO

IXEO PLUS

THE IXEO PRINCIPLE

1st PLACE: Bürstner IXEO

European Innovation Award for introducing the fold-down bed into semi-integrated models.

Motorhome of the Year 2012

The readers of Promobil, the leading specialist magazine in Germany, chose Bürstner's Ixeo plus as the winner of Motorhome of the Year 2012.

IT'S EASY TO ACHIEVE A SENSE OF COMFORT AND WELL-BEING

So as not to exceed the 3.5 tonne total weight limit in the semi-integrated class (except for: it 875 G), yet still be able to offer various floor plans, we use various optimised chassis de-

signs. Their lightweight or special construction saves a considerable amount of weight, thus allowing for an additional loading capacity of up to 120 kg compared to a standard chas-

sis. This means that you can play it safe when packing and loading and feel free to take along a bit more.

SAFETY IS ON BOARD

In a Bürstner you should be able to feel safe and enjoy a sense of unlimited comfort and well-being. For this reason, both the AL-KO AMC low-frame chassis as well as the Fiat Ducato low-frame chassis are equipped with a wide-track rear axle. Both variations noticeably improve road handling. The lower centre

of gravity allows the vehicle to stay firmly on the road, while vehicle rocking is minimised in tight curves and when changing direction. The AL-KO chassis can be optionally combined with a full air suspension system, which further improves driving comfort.

AL-KO chassis

BED-MAKING MADE EASY

Unlike integrated motorhomes that have a fold-down bed above the cab, the fold-down bed in the Ixeo class is located above the seating area. In just a few manual steps or electrically as an optional extra (depending on the model), the ceiling is lowered,

giving way to two full-size berths. After waking up the ceiling can be easily raised, thus making the entire living area available once again. The bedding and pillows simply disappear under the vehicle's slightly curved roof.

SLEEK AND EFFICIENT ON THE ROAD

The comparably low total height of only 2.75 m (2.85 m in the Ixeo plus) as well as its flowing, aerodynamic design give the Ixeo class top marks when it comes to wind resistance. Not only is the engine power used more efficiently, thus lowering fuel consumption, but sensitivity to lateral wind and wind noise are also reduced. These are the basic prerequisites for a pleasant holiday journey – even over long distances.

2.75 m height: Ixeo time, Ixeo

2.85 m height: Ixeo plus

IXEO TIME

INGENIOUSLY SIMPLE – AND SIMPLY INGENIOUS

Do you enjoy the simple things in life, like the view of the ocean? Then you are sure to like the Ixeo time. Purists enjoy both its clear exterior design and straightforward floor plans. Focussing on the essential has another advantage in the shape of the affordable price.

Ixeo time it 745

Thanks to its fold-down bed, the Ixeo time it 745 has as many as six comfortable berths. Whether you travel as a couple, as a family or with friends, our diverse range of floor plans is certain to have just the right one for your sheer holiday enjoyment.

1 Ixeo time it 695

1 Kitchen helpers: Covers for the sink and hob provide extra work surface area in the practical L-shaped kitchen.

2 Free choice of sides: The double bed not only indulges you with free access from both sides, but also has lots of additional storage space.

3 Plenty of room to make yourself at home: Inside the Ixeo time it 590 you can sit together in a large group since the combination of the L-shaped seating area, the side bench and the rotating driver and passenger seats provide plenty of room around the large single column table.

2

3 Ixeo time it 590

THE ORIGINAL – IN A CLASS OF ITS OWN

The Ixeo set new standards as the first motorhome with a fold-down bed over the seating area and has maintained its leading position in this class ever since. With the gently sweeping silhouette of the cappuccino, the Ixeo is also ahead of the game when it comes to aerodynamics.

And the details keep improving. The Ixeo now has a comfortable cut-away entry, which makes it easier to get in and out of the vehicle. A total of six floor plans meet the various requirements for a successful holiday.

Ixeo it 735

The Ixeo's interior design attests to its claim of being a leader in its class. Its well-thought-out floor plans and numerous attractive details combine contemporary elegance with a high degree of functionality.

When you look inside, these subtleties immediately become apparent – from the sweeping lines of the furniture to the high-quality workmanship of the upholstery and textile applications.

Here both guests and hosts alike will always enjoy a sense of comfort and well-being.

1 Ixeo it 700

2

Ixeo it 740

3 Ixeo it 740

1 Sociable: The Ixeo is perfect for anyone who enjoys relaxing together in a large group. The combination of the L-shaped seating area, side bench and pilot seats offers plenty of space. When the table isn't needed, one half can be folded down to provide even more space to move around.

2 Cleverly designed: The bathroom in the rear covers nearly the entire width of the vehicle and has enough room for a separate shower.

3 Rounded off: The overhead kitchen cupboards with gently rounded edges can now hold even more.

IXEO PLUS

ADDED EXTRAS FOR A SENSE OF COMFORT AND WELL-BEING

Those who enjoy treating themselves to an extra bit of luxury will delight in the Ixeo plus with its upscale furnishings.

The cappuccino and the attractive roof rails are real eye-catchers. It also sets itself apart with its standard aluminium frame windows, premium doors with windows and window screens as well as black polish alloy rims. The Ixeo plus is also good on the road, since all models feature a low-frame chassis with the best road performance.

Ixeo plus it 726 G

The floor plan of the it 726 G is perfectly designed for creating maximum comfort inside the Ixeo plus. A space-saving semi-dinette is installed in the living area; if needed the tabletop can be simply pulled out.

The elegant rounded edges in the interior support the pleasant sense of spaciousness with no harsh edges disrupting the harmonious overall image.

Merano walnut

Noisette

1 Well-thought-out: The living area features some indirect lighting and the electrically operated fold-down bed – everywhere you look there are extras for added living comfort. A large skyroof and the exceptional headroom allow you to enjoy the special ambiance of well-being to the full.

2 Full coverage: In the functional L-shaped kitchen the hob and sink can be covered to allow for more work surface area.

3 For clever heads: The comfortable single beds with storage space beneath invite you to read to your heart's content. The headboards can also be individually adjusted, while reading spotlights provide perfect lighting.

1 Ixeo plus

2 Ixeo plus

3 Ixeo plus

1 **Neat and tidy:** Coat rack in the same design as the living area with pull-down coat hooks.

2 **Nicely separated:** Shower on the left, toilet on the right: there's room for everything. The bathroom area can also be separated with a room partition.

3 **Heavenly:** The integrated lighting under the fold-down bed and the large skyroof provide as much light as you want.

1 Ixeo plus

2

3

- 1 **Open sesame:** Premium doors with central locking come standard in the Ixeo plus.
- 2 **Extremely accessible:** The extra storage compartment in the rear can be easily accessed from both inside and out (Ixeo time it 590).
- 3 **Extra room:** The storage compartment under the seating area can also be easily loaded and unloaded from outside.

All images dependant on the floor plan.

INTEGRATED MODELS

You'll experience great things in a Bürstner integrated model. After all, its special advantage is its unrivalled spaciousness, which is made possible through the seamless transition between the cab and the living area.

An elegant ambiance, the highest quality furnishings and the latest technology await you. These models fully deserve the title „elite class“ and make exclusive travelling the standard.

Three model series complete the luxury. The Viseo is the entry-level model in the integrated class, the Aviano will indulge you with upscale furnishings and in the Elegance all that counts is the very finest for an ambiance of well-being.

VISEO

AVIANO

ELEGANCE

Viseo i 707 P

FOR A FIRST-CLASS HOLIDAY

In the Viseo you will enjoy the prospect of an unforgettable holiday as the landscape passes by through the large front and side windows. Its unmistakable exterior in bright white makes it clear from the first glance: Here comes a Bürstner integrated model.

And thanks to its wide-track chassis, its road performance is also impressive. The Viseo also impresses with solid basic furnishings without expensive extras – making it an especially attractive offer in the elite class.

In the Viseo i 707 P you'll enjoy playing host. After all, thanks to the large L-shaped seating area, the three comfortable pilot seats and the round, fold-down table, getting together in a group is extremely enjoyable. The large windows create a sunny atmosphere during the day, and at night adjustable spotlights cast everything in the right light.

Merano walnut

Amaranth

Viseo i 726

3

1 **Sociable:** Turning around the pilot seats transforms the interior into a harmonious living area – with lots of room for friends and family.

2 **Highly comfortable:** The single beds with high-quality cold foam mattresses can be easily accessed with steps. Two single beds can also be transformed into a spacious berth (optional).

3 **Culinary delights:** There's plenty of room in the practical L-shaped kitchen. Large drawers and overhead cupboards are perfect for arranging pots, pans and dishes. The visual highlight is the display cabinet with glass holders.

AVIANO

WILL MAKE YOU WANT MORE

With its striking front and new LED daytime running lights, the Aviano is classy – clearly part of the elite class. Its chic exterior design will turn heads wherever it goes. This won't only make you especially confident while on the road, but also especially safe thanks to the wide-track chassis.

Both on the inside and outside the Aviano scores points thanks to its comprehensive furnishings, which are sure to satisfy sophisticated demands. If you expect more from an integrated model, you should step inside the Aviano.

Aviano i 870 G, Noisette finish (option)

The Aviano makes it easy for you to enjoy an unlimited sense of comfort and well-being. Its interior impresses with a warm and modern charisma that will delight connoisseurs of all ages.

From the chrome handles and moulding to the leather (option) seating area and lighting concept, an up-market ambiance is apparent here down to the very last detail.

You'll also like the fact that you can choose from two furniture finishes.

Merano walnut

Noisette

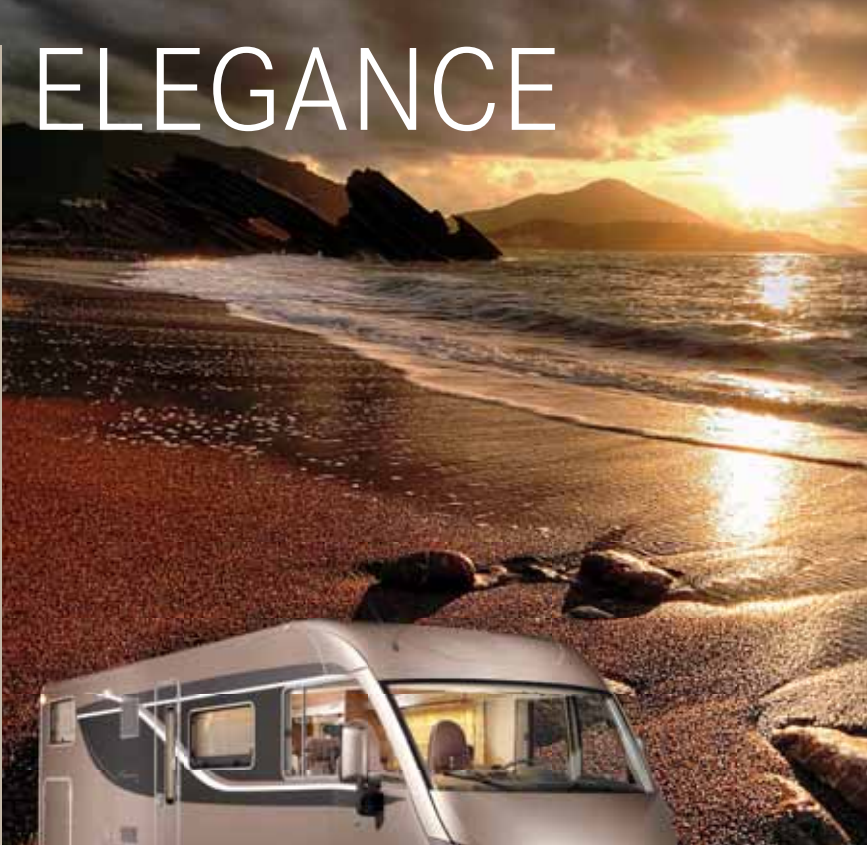

1 A strong character: Those who love the finest leather (option) will enjoy heavenly comfort in the living area. The special material is not only pleasing to touch and look at, but it is also particularly easy to care for.

2 For a wonderful night's sleep: There's extra storage space under the comfortable single beds that can be easily accessed with steps.

3 Kitchen magic: Bright, spacious and lots of room to make magical creations – here everyone will acquire a taste for cooking.

4 Bathroom landscape: In the RaumBad (spacious bathroom) the shower and bathroom are across from each other – thus giving you more freedom to move around. The cleverly installed door also allows the living area to be separated from the bathroom area.

ELEGANCE

ROYAL TRAVELLING PLEASURE

Travelling in the Elegance means enjoying a luxurious holiday as if you were in a 5-star hotel. At first glance, its timelessly attractive lines and stylish colour options show that this model lives up to its name.

With its masterful appearance in an exclusive design, the use of the finest materials and a variety of functional details, the Elegance has found many fans in the elite class.

With its avant-garde design, the interior of the Elegance will indulge even the most sophisticated connoisseurs. No matter where you look, harmonious and luxurious ambiance is found everywhere. Exquisite materials and the best workmanship are used here. Everything has been designed with the sole purpose of providing you with an unlimited sense of comfort and well-being.

Bog oak

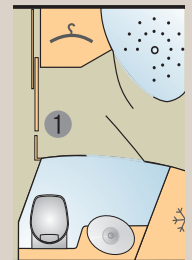

Magnolia

1 **Pure luxury:** Handles, fittings, taps – every detail has been lovingly designed and harmoniously coordinated. The rear features a large king-size bed, which can be accessed from both sides.

2 **Electric trick:** The comfortable fold-down bed above the cab can be electrically lowered and has its own roof window and lighting.

3 **Luxury spa:** A separate shower with a transparent door gives you room to move around. The bathroom surprises with an illuminated mirror, practical towel holder and lots of shelves for hygiene articles and cosmetics. A large wardrobe stores your clothing. A sliding door ① can be used to separate the entire area from the bedroom.

1 Mood setters: Modern BUS system technology makes it possible to control the individual light modules via a switch so that you can create the right mood lighting at the touch of a button.

2 Reclining couch: The Reliner bench indulges with exclusive comfort and functionality.

3 Cellar: Extra storage compartments are located inside the double floor, which can be conveniently accessed from the inside.

4 A feast for the eyes: Design also has a high priority in the kitchen with work surface areas at two levels. Modern LED applications under the edges of the furniture and in the light arch provide indirect lighting to create a stylish ambience.

- 1 **Private party:** The pleated cab blinds protect you from the sun and curious glances.
- 2 **A feast for the eyes:** The front isn't all that impresses. The elegant rear section also attracts glances.
- 3 **Nice views:** The separate driver's door provides quick access to the cockpit (standard on the Elegance). The cab and cabin doors are integrated into the vehicle's central locking system as a standard feature (Elegance).
- 4 **Nice idea:** A third brake light is installed on the dynamically designed rear.

GRAND PANORAMA

Mountain peaks rise up majestically before you and the sky is close enough to touch. You begin to feel as though you are completely connected with nature. Set off on a journey of discovery like you have never experienced before. You'll enjoy unforgettable moments – in the new Grand Panorama.

DISCOVER...

A composite image showing a car's interior from the back seat, looking out over a vast mountain valley. A double rainbow arches across the sky above the mountains. The foreground shows the back of two cream-colored seats and the car's dashboard. The landscape is a wide valley with a river winding through it, surrounded by rugged, green and brown mountains under a blue sky with light clouds.

...COMPLETELY NEW HORIZONS.

GRAND PANORAMA

The new Grand Panorama redefines spaciousness and comfort in the premium class of integrated motorhomes. Everything is bigger, more comfortable and more luxurious. The gigantic panoramic windscreen impresses with breathtaking views.

Grand Panorama i 920 G, Finish: Sienna Nero, Upholstery: Ferra (leather)

A LUXURY SUITE WITH A BETTER VIEW

Attractive furniture with an elegant finish wherever you look. Only the best is good enough for the interior of the Grand Panorama. It's a grand feeling to know that you don't have to do without anything. This is seduction at the highest level, which you will enjoy with all of your senses. An electric blackout blind system meets the need for privacy and protection from the sun.

PERFECTED LUXURY

The fascination of the Grand Panorama can only be experienced. What makes it special can be seen – and felt – throughout. The loving attention to detail makes all the difference: whether it's the lighting applications, which are even integrated into the edge of the table, the gloss furniture finishes or the exclusive leather – everything around you contributes to an ambience of comfort and well-being that's in a class of its own. For a completely new type of travelling experience.

ENJOYMENT COMES FROM ENJOYING

Anyone travelling in a Grand Panorama is searching for something special. In the kitchen, high-quality materials, stylish forms and first-class functions satisfy sophisticated demands. Every corner of the Grand Panorama shines with elegant applications. An indescribable experience of complete harmony with the highest degree of comfort.

Relax like a king: everything is of the highest standard! Sleep the way you travel – exquisitely. Perfect for ending an eventful day.

You'll feel like royalty in your own wellness area. You'll be sure to begin – and end – the day refreshed and in a good mood.

ALCOVE MODELS

Do you want to go on holiday with the entire family and have ample space to enjoy a sense of comfort and well-being without leaving items of luggage and sporting equipment behind? Then an alcove model is perfect for you. Bürstner's spacious giants indulge you with family-friendly floor plans with up to seven berths, offering lots of room for everything and everyone thanks to the large alcove above the cab. The Argos A 747-2 G also has a heated double floor, which protects the technology and luggage from frost and also allows for cosy winter camping.

Two models series are available to choose from: The Argos time convinces with high performance at an affordable price. With two axles, its big brother, the Argos, is the jumbo motorhome.

ARGOS TIME

ARGOS

ARGOS TIME

FAMILY HOLIDAYS, HERE WE COME

Those travelling on holiday with children should be prepared for anything. The Argos time is ready. Well-thought-out family floor plans are hidden behind its attractive frame. There's also a lot of storage space so that both adults and children can pack everything they need to feel right at home.

At the same time, the Argos time surprises with its good weight balance and affordable price, allowing you to make lots of plans on your holiday – and take a lot with you.

Argos time A 650

The interior design in the Argos time scores points thanks to its high degree of functionality and atmosphere of comfort and well-being. The same is true in the A 650: The cosy double dinette invites you to eat meals and play games together. The attractively designed overhead cupboards offer plenty of storage. The shelves above also provide additional storage space all the way up to the ceiling.

1 Argos time A 660

2

1 Wonderful holidays: In the Argos time A 660 the functional kitchen will make it quick and easy to prepare delicious meals, which can be served up in the seating area with a double dinette. The 104-litre refrigerator keeps drinks and groceries fresh.

2 Functional: Whether for parents or as a bunk bed for children, the spacious alcove bed will always have its fans.

3 Pretty clever: Bunk beds are a hit with children. If the bottom bed isn't needed, simply fold it up to create a large garage.

4 A clever solution: When the washbasin is swivelled to the side, you can comfortably shower. A partition protects the rest of the bathroom from getting wet.

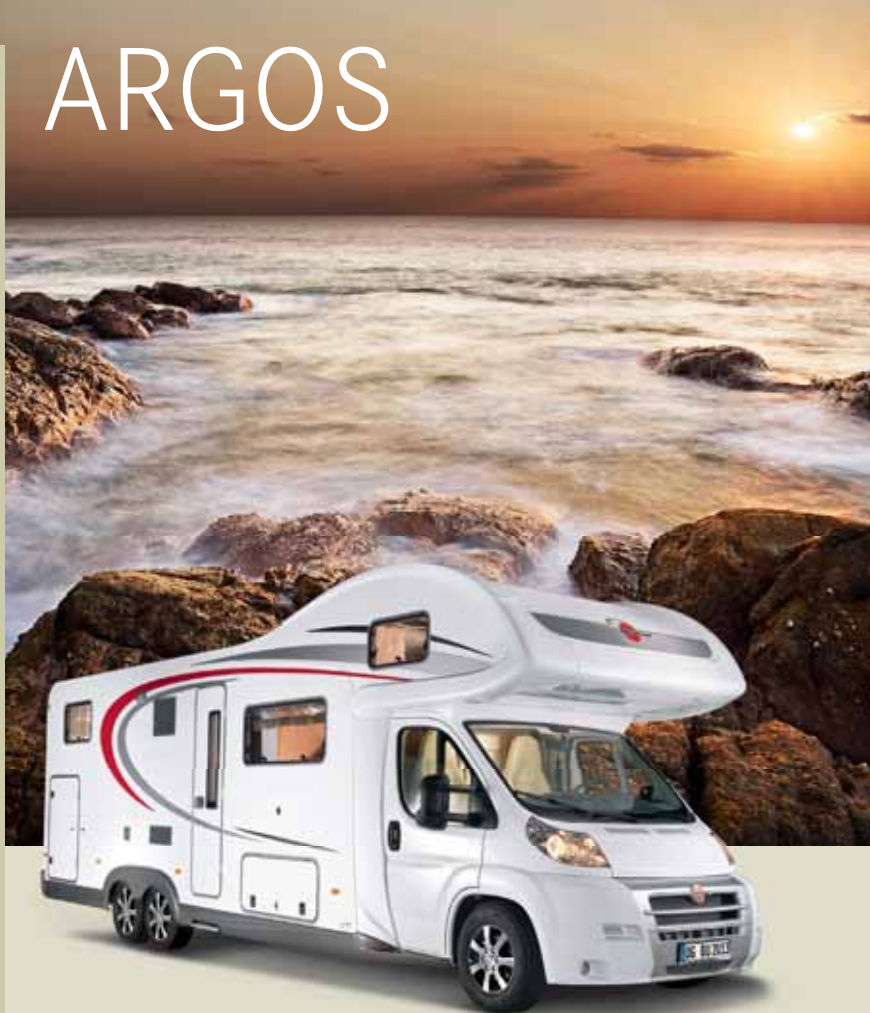

3 Argos time A 660

4

ARGOS

MAJOR RELAXATION ON SIX WHEELS

In the Argos you can set off on a major holiday tour in any season. Thanks to its impressive length of nearly 9 m, it offers a spacious interior and a great deal of storage space with underfloor double flooring. The floor can also be heated so that you can relax and enjoy your freedom in the winter.

The Argos also impresses with its comprehensive standard furnishings, which will allow you to enjoy an unlimited sense of comfort and well-being both during the ride as well as at your holiday destination.

Reliner

Argos A-747-2 G

Nova Quality

The comprehensive, high-quality interior design will give your holiday in the Argos a special touch of luxury. No matter where you look: loving attention to detail can be seen everywhere. Integrated spotlights above the storage cupboards emphasise the tasteful furniture finish. Perfectly finished genuine wood edges give the interior its final touch. A large double bed awaits in the rear to finish off the cosy feel.

1 A great sense of spaciousness: The cosy double dinette is perfect for enjoying delicious meals, while the comfortable Reliner® sofa invites you to relax to your heart's content.

2 Gourmet kitchen: This kitchen offers everything that cooks love. With four gas burners and an oven, you can even prepare multi-course meals. The elevated sink means that you can work without straining your back.

3 Winter festival: A wooden sliding door not only visually separates the cab from the living area; it separates it thermally as well. That way it will always be comfortable inside, even in the winter.

- 1 **Just like at home:** A large wardrobe with room for your favourite clothes.
- 2 **Vis-à-vis:** Since the bathroom and shower are located across from each other, there's more room to move around in both.
- 3 **Mirror, mirror:** With this attractive interior with numerous shelves and a heater, no one will be surprised if it takes you a little longer to get ready.

1 A garage: The spacious rear garage provides room for a bicycle or scooter, which can be secured with straps and rails in the Argos. There are also many practical shelves for sporting equipment and toys.

2 Sleek: The aerodynamic design of the tinted windows with flush fitting aluminium frames minimises wind resistance and wind noise in the Argos.

3 Frost-free: The heated double floor provides lots of storage space for bulky luggage and protects it from the cold in minus temperatures.

YOUR COMFORT TAKES PRECEDENCE

In a Bürstner everything has been designed to give you an unlimited sense of comfort and well-being. A sophisticated interior, tasteful design and quality down to the very last detail create a pleasant living ambiance where you can enjoy your holiday – as a couple, with family and friends or comfortably on your own.

Our architects, designers and engineers work closely together to perfectly harmonise the sense of space, furniture design and functionality. In doing so, they incorporate their many years of experience as well as requests from customers with the clear goal of indulging you with maximum living comfort.

1 Mood setters: Modern lighting systems create the ambience you want, when you want it.

2 Illuminated beauty: Elegant ceiling lights show how attractively form and function can harmonise.

3 Your taste is the deciding factor: In many models you have the option to choose between two furniture finishes and from 13 upholstery designs.

YOU'LL SLEEP JUST RIGHT HERE

An unlimited sense of comfort and well-being also includes a restful night's sleep. In a Bürstner you'll enjoy the relaxation you need after an eventful day on holiday so that you can recharge for your next adventure. Is there anything better than waking up refreshed and then perhaps staying in bed for just a little while longer.

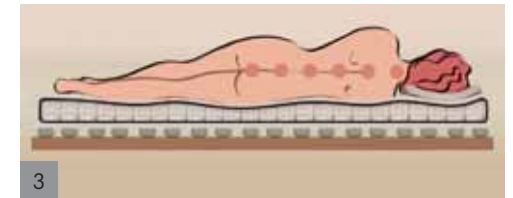

From a free-standing double bed to separate single beds and a bunk bed – we have the right solution for every preference. Stable slatted frames and high-quality mattresses guarantee complete relaxation. We've also added clever comfort ideas to make sleeping really comfortable in any position. Sleep well – and sweet dreams!

1

2

3

3

3

4

1 Adjustable: With Easy-Flex each headboard can be individually adjusted and brought into a reclining, lounging or reading position as desired.

2 Organisers: Practical wall pockets keep things organised and make sure that your bedtime reading is always within reach.

3 Best position: Cold foam mattresses with a washable, anti-allergenic cover adjust to the shape of your spine to provide optimum support for your back in combination with rubber-supported slatted frames (standard except in bunk beds).

4 More space: Additional storage space is located under the double bed and is easily accessible behind the sliding pleated doors.

All images are examples and depend on the model and floor plan.

THE RECIPE FOR PLEASURABLE TRAVELS

Fresh fish straight from the sea. Fruits straight from the tree. Crisp vegetables from the market – with a Bürstner motorhome you'll be on the spot for making delicious meals from fresh ingredients. And a kitchen awaits you that will fully satisfy the needs of both amateur cooks and gourmets.

Ultra-modern gas hobs meet professional demands, and, when not in use, the glass cover turns this space into a storage or work surface area. There's plenty of room to store all utensils – everything from plates to pots will find a space. Even with all this functionality, there's also plenty to look at in a Bürstner kitchen – clever and attractive design ideas will make you hungry for more.

1 Elegance

2

3 Ixco time

- 1 Nice and practical:** A glass cover allows the sink and draining board to be turned into a work surface area.
- 2 Hot options:** An oven provides the cooking comfort of home.
- 3 Handy:** Everything will find a permanent home in the kitchen cabinets with deep, roller-mounted drawers.

All images are examples and depend on the model and floor plan.

FRESH IDEAS FOR THE BODY AND SOUL

What's better than being able to enjoy a relaxing shower after a long drive, a day on the beach or after exercising? The morning also gets off to a much better start when you can indulge in your bathroom ritual with all your senses.

No matter whether you prefer things more spacious or space saving, Bürstner has the right solution to suit every wish. High-quality fittings, light and friendly finishes, room to store bathroom and hygiene articles – in a Bürstner bathroom we've thought of everything so that you can enjoy an unlimited sense of comfort and well-being.

1

2

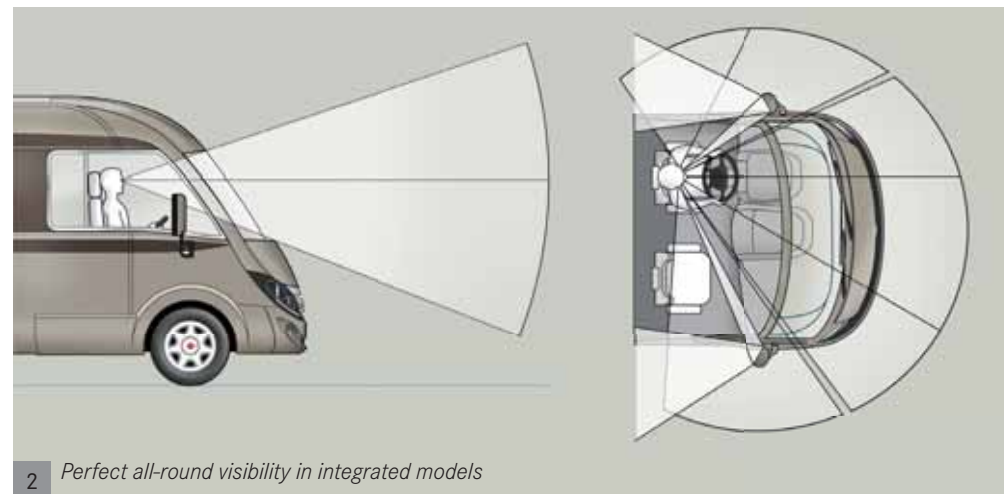

Ixeo plus

RaumBad

- 1 **A true wonder in terms of space:** The entire washbasin area including the base cabinet can be simply swivelled to the side to create ample room for pleasurable showers.
- 2 **More room to move around:** In the RaumBad (spacious bathroom) the shower and bathroom with toilet are separate and across from each other.

1

2 Perfect all-round visibility in integrated models

3

4

Reversing sensors

SAFETY IS ALWAYS ON BOARD

On holiday, relaxation and well-being are the top priority. This also includes a good feeling of safety. A holiday in a Bürstner motorhome starts with the very first kilometre. After all, our technicians and engineers have developed a variety of safety solutions so that you can enjoy a carefree journey.

1 LED daytime running lights

You're safer on the road when other road users can see you in good time. In order to be more visible to everyone even during the day, all Bürstner models have energy-efficient LED daytime running lights (optional on some models).

2 All-round visibility in integrated models

A safe ride means having the best view of everything happening on the road. The integrated models convince with an optimised field of vision as a result of the lower windscreen. The combination of large side mirrors and windows means that you won't have any blind spots when you look behind you.

3 Reverse driving camera

The reverse driving camera makes it easy to see even low obstacles when manoeuvring the vehicle (optional on some models).

4 Reversing sensors

As an alternative to the camera, you can also select low sensors on the rear as a manoeuvring aid. Visual and acoustic signals will warn you of obstacles when reversing.

Driver's airbag (optionally also available for the passenger)

5

6

Toptron Crash Protection Unit

Control unit

On/off switch

7

8

5 Airbags

The safety technology will protect you in the event of an accident. A driver's airbag comes standard on all models (except the Viseo), while a passenger's airbag is also available as an option on many models.

ABS

The anti-lock brake system is a matter of course in passenger vehicles. This is the same at Bürstner: all models have ABS as a standard feature.

6 Entry step

The electrically operated extending steps make it easy to get in and out of your Bürstner motorhome.

7 Toptron CPU

The optionally available Toptron CPU (Crash Protection Unit) seals off the gas supply and turns off all gas-consuming devices in the event of a crash (or if the vehicle is dangerously tilted at a sharp angle). When the risk is gone, the gas supply in the vehicle will commence again by simply operating the switch. Thanks to Toptron you can safely use gas appliances even while on the road (optional on some models).

8 Premium door with central locking

The premium door's double locking system (optional on some models) provides additional security. In the Elegance, Grand Panorama, Ixeo Plus and Argos it is integrated into the central locking system as a standard feature, which enhances overall comfort.

Fiat Chassis

Spaciousness

The cab offers a lot of freedom to move around and comfortable access to the living area.

Seats with armrests on both sides

The seats offer an ideal seating position thanks to the turntables originally supplied by Fiat.

Wide-track rear axle

Greater driving stability and spaciousness are ensured thanks to the widely spaced wheel arches.

Special low-frame chassis

A patent from Fiat that makes the vehicle lighter, yet still stable. It increases the loading capacity and lowers the centre of gravity.

GUARANTEES FOR A GOOD RIDE

In a Bürstner you can also expect only the best when it comes to chassis and drive technology. After all, our partners have the same standard of perfection as we do.

All Bürstner models are based on the Fiat Ducato, which is characterised by its reliability and rich variety and is one of the best-selling base vehicles for motorhomes. In this cooperative partnership, the established manufacturer contributes its many years of experience and expertise and incorporates our requirements as a motorhome producer even during vehicle development.

This results in chassis that set standards in terms of functionality and safety. Many model series use a low-frame chassis with a wide-track rear axle, which improves driving comfort and road handling as well as allowing for new floor plans with a lower vehicle height. The engines have also been further developed. The Ducato has modern, efficient Euro 5 diesel engines with particle filters, convincing with good power, low fuel consumption and fewer CO₂ emissions.

The strengths of the Fiat Ducato

- ⊕ The latest generation of chassis and engines for safety, functionality and driving comfort
- ⊕ High torque in the low RPM range for better acceleration
- ⊕ Reduction of fuel consumption and CO₂ emissions
- ⊕ Euro 5 turbo diesel engines with 16 valves and the new Multijet 2 common rail direct injection
- ⊕ Many engine options are available in combination with the latest automatic transmissions

Multijet 2 engine technology

The engines transfer their power via a 5 or 6-speed gearbox, which is specially adapted to the requirements of motorhomes.

The best values to satisfy everyone

When wondering what the best height is for the cabin of a motorhome, it is always necessary to consider whether you want maximum interior headroom or optimum aerodynamics. With empirical values from 25 years of building motorhomes, we have found the best compromise.

Advantages of optimised exterior height

- + Comfortable headroom when standing inside creates a pleasant sense of space
- + Good aerodynamics enable more efficient engine power with less fuel consumption
- + Less wind noise and sensitivity to lateral wind for greater driving comfort and safety

AL-KO AMC chassis

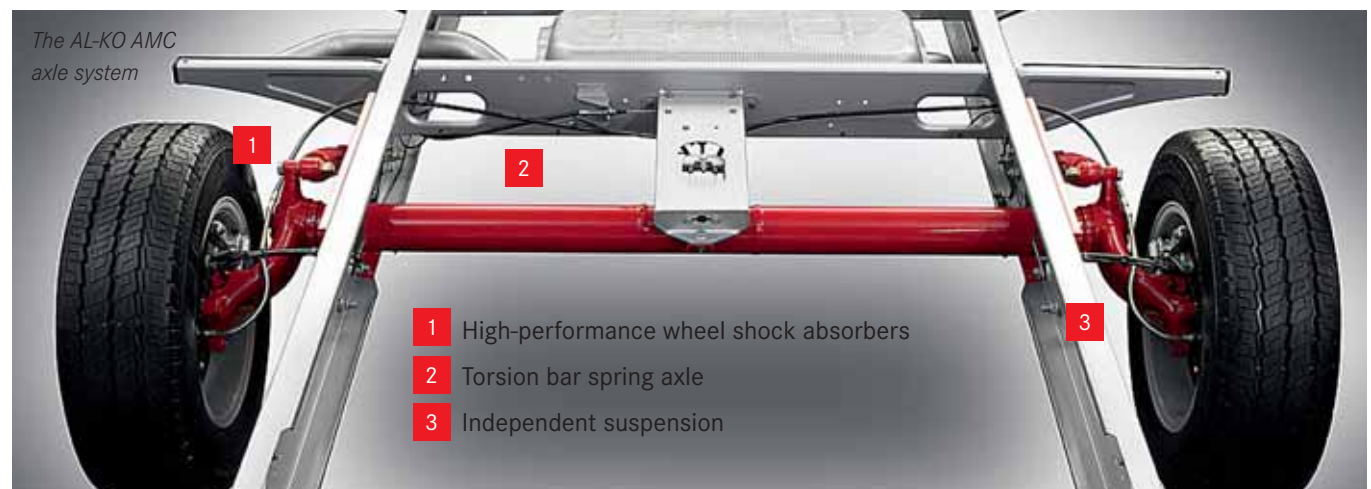

For the 2013 model year, Bürstner is equipping numerous model series with the low or high-frame AL-KO AMC chassis in a slimmed-down lightweight construction. An important argument in favour of the AL-KO AMC chassis is that, thanks to the weight saved by using this chassis, higher loading capacities can be realised. At the same time, the maximum permissible weight class of up to 3.5 tonnes is observed. The axle track width is wider than in the original chassis. This increases driving comfort and offers the best possible safety on the road.

3,5t

Many of our motorhomes fall within the 3.5 tonne limit. For you this means more loading reserves, lower fuel consumption and no additional requirements to comply with road traffic regulations.

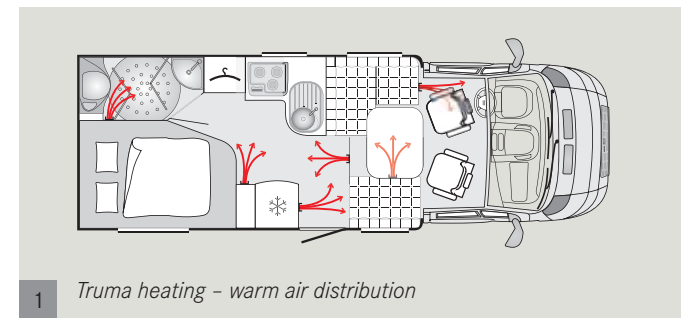

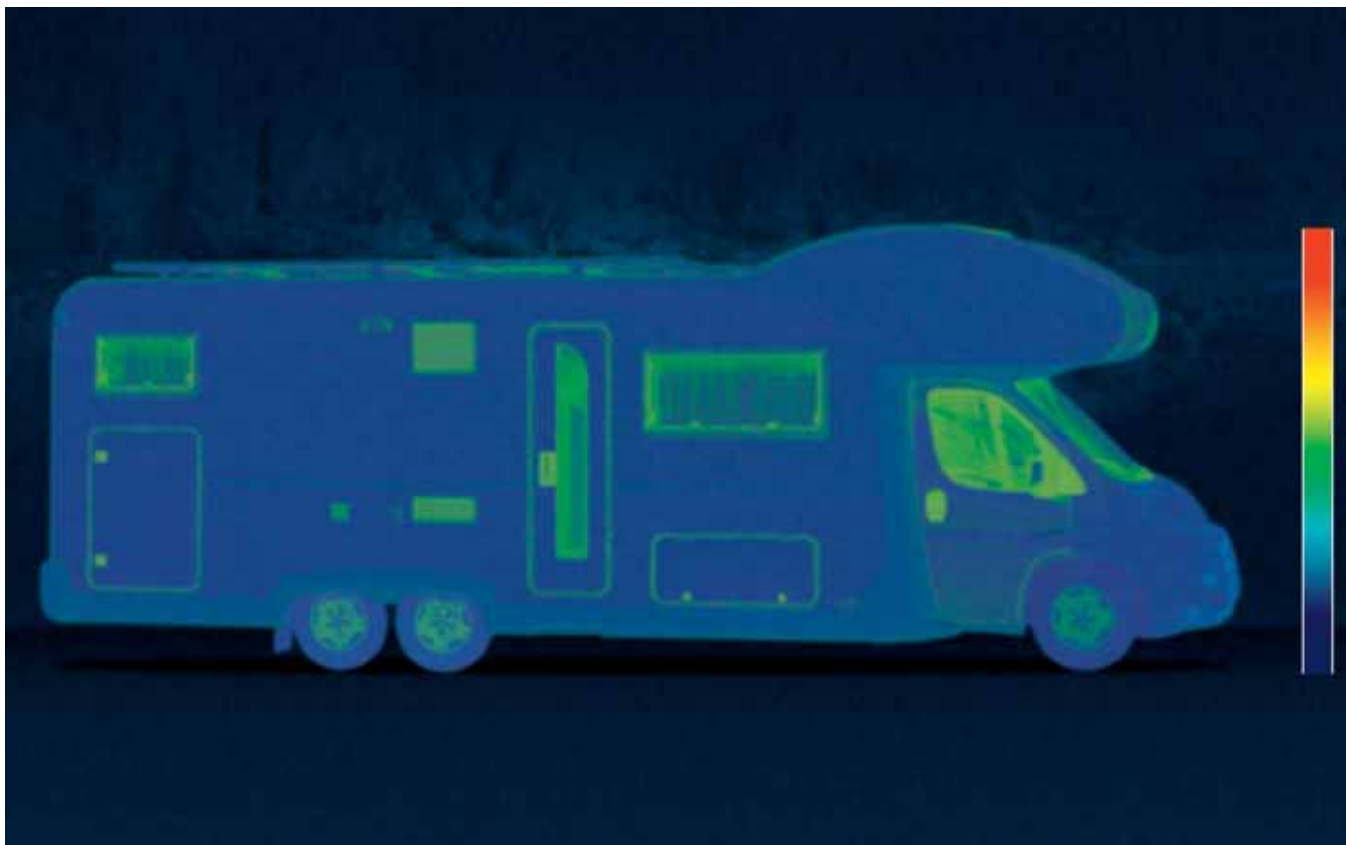

Advantages of the AL-KO AMC chassis

- + Lower unladen weight compared to the original frame, thus more loading capacity
- + Allows for customised floor plan layouts thanks to individual wheelbase and overhang variations
- + Low overall vehicle height thanks to the low-frame chassis with frame lowering of up to 220 mm
- + Optimised rolling stability and increased driving safety thanks to low centre of gravity and a wide-track chassis
- + Car-like suspension comfort
- + Optimum corrosion protection thanks to hot-dip galvanised frame components
- + Comprehensive, tested accessories that have been specially tailored to the AL-KO AMC chassis
- + The highest safety standard thanks to permanent quality controls on one of the most modern test tracks in Europe (certified according to DIN ISO 9001)

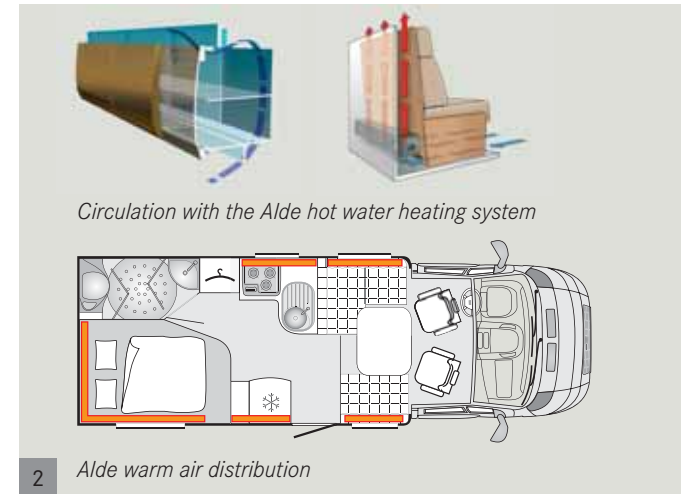

The AL-KO AMC axle system

- 1 High-performance wheel shock absorbers
- 2 Torsion bar spring axle
- 3 Independent suspension

1 Truma heating – warm air distribution

2 Alde warm air distribution

A CLIMATE OF COMFORT AND WELL-BEING IN ANY SEASON

With a Bürstner motorhome you'll not only be able to decide where, but also when to go on holiday. After all, thanks to the perfectly combined insulation, ventilation and heating, you can enjoy an unlimited sense of comfort and well-being in any weather.

Insulation: Drafts and dampness don't stand a chance
Optimal insulation is the basis for a healthy indoor climate and efficient heating. Like in a Bürstner: Heat stays outside

in the summer and inside in the winter. Outstanding sealing makes this possible. Neither drafts nor dampness can get in so that everything inside will stay dry, even in heavy rain. The critical areas under the rooflight and around the doors and side hatches have been sealed carefully. We not only give you our word for this, but also a five-year guarantee.

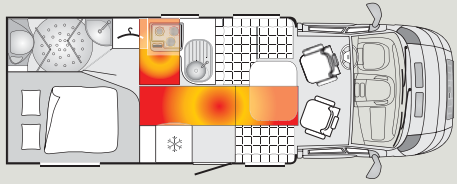

1 Truma heater: Warms things up on cold days

Thanks to its quiet and powerful operation as well as the well thought-out arrangement of the warm air nozzles, the Truma heater provides optimum interior warm air distribution. The devices' high level of effectiveness of up to 97% also ensures low energy consumption. This is good for both the indoor and outdoor climate.

2 Alde central heating: Heat for every nook and cranny

The Alde hot water heating system will indulge you with balanced heat distribution, low energy consumption and extremely quiet operation. A mixture of water and glycol is heated and circulates through the convectors, which are placed on the exterior walls and heat both the air as well as the walls and furniture. An air seal forms as the warm air rises, thus keeping the cold away from the windows. Ventilated storage cupboards also support the optimum flow of air up to the ceiling. When it arrives there, the warm air circulates back down where the convectors reheat it. This creates air circulation that provides cosy warmth throughout the interior, even in the lowest outside temperatures.

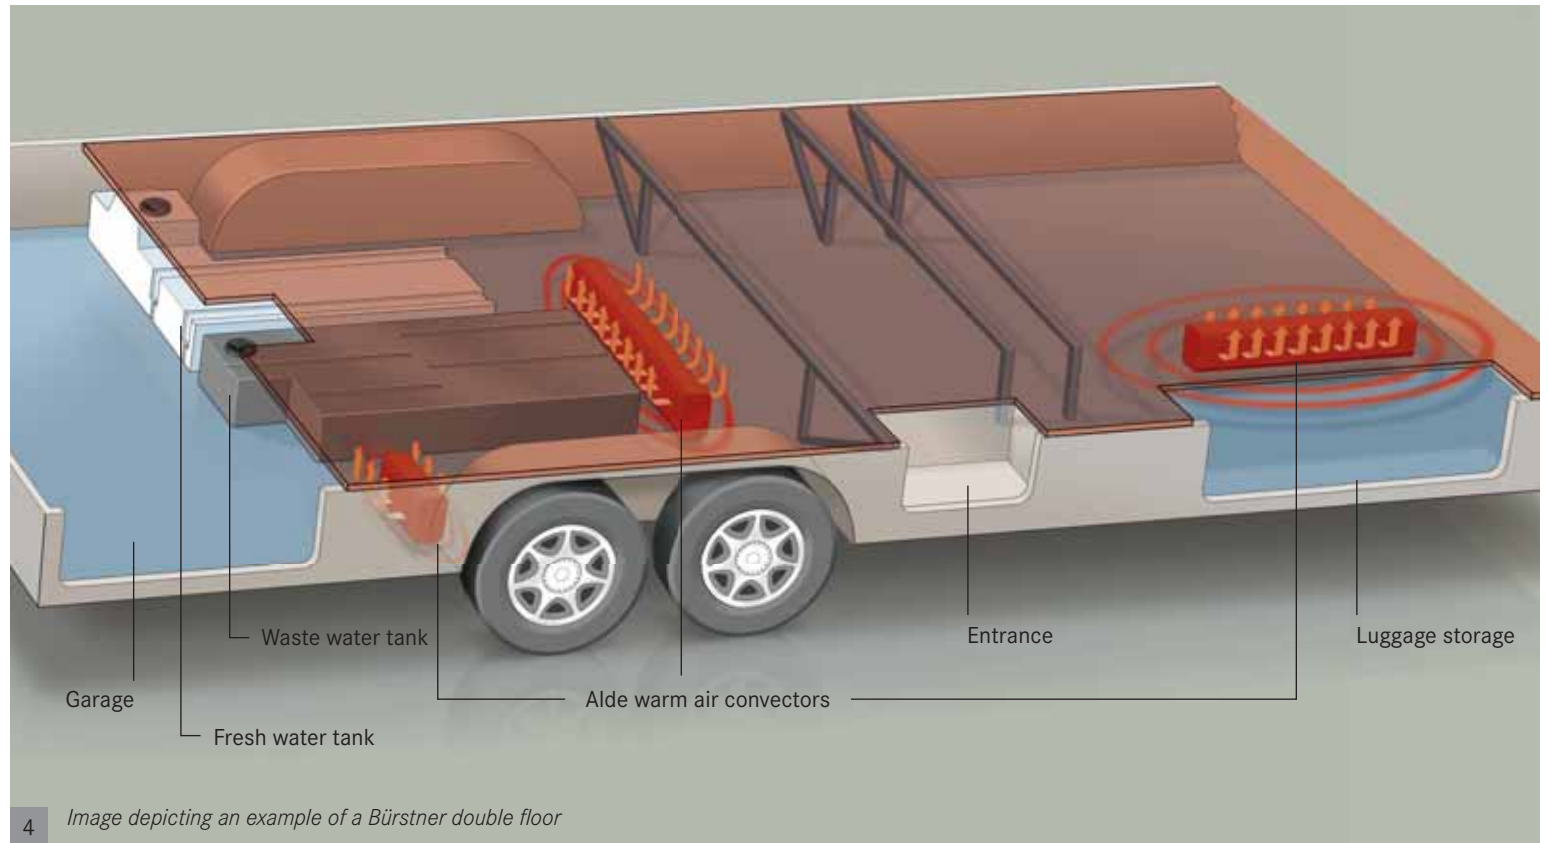

3 Depiction of areas with floor heating

GRP roof

The Elegance, Grand Panorama and Argos model ranges come standard with a glass fibre reinforced plastic roof (GRP) to protect your vehicle from severe weather even better.

The hail-resistant roof is an available option on all model ranges.

4 Image depicting an example of a Bürstner double floor

3 Floor heating? You have a choice!

Do you love the feeling of a warm floor? You can also have this in a Bürstner (optional, depending on the floor plan and model). Foils placed under the floor are electrically heated and warm the floor where it makes the most sense – namely in the living area.

A warm spot for the ride

In all Bürstner motorhomes the comfortable pilot seats can be optionally equipped with three-level seat heating, which pleasantly warms the back and seat cushions on cold days.

4 Enjoy the winter

Those who like to travel in their motorhomes in the winter don't have to worry about frozen pipes or water tanks with the optional winter package. Models with the heated double floor ensure carefree enjoyment even in the lowest of temperatures. Heating convectors and ideally insulated storage hatches ensure that the on-board utilities as well as your luggage are stored in a frost-free space.

Further information on the winter packages (optional) can be found in the "Pricelist".

Ready, set, shower!

The water supply is also perfectly regulated. The water tank can be used variably: the volume can be limited to 60 litres when you are travelling alone or with just one other person, thus saving on weight. If you are travelling with your family or friends, the volume can be expanded to 120 litres. This means that several people can enjoy long showers without the water running low. The large waste water tank with a volume of at least 90 litres ensures that you can take your time with waste disposal.

Information on the litre specifications of the water tank can be found on the detailed pages for each model.

Pioneer navgate

Radio with CD player or the most modern multimedia systems with integrated navigation system for more comfort and convenience.

YOUR SATISFACTION DRIVES US

Bürstner is one of the leading manufacturers of caravans and motorhomes. And that is not without good reason. The history of the company spans more than 50 years and has been characterised by a passion for unmistakable design, by the desire for practical innovation and by the willingness to provide unique service. In short, by the clear aim that anyone who is out and about with a Bürstner should experience an unlimited sense of comfort and well-being.

All ideas, concepts and implementations in all model ranges are focused on this requirement. The Bürstner company's roots go back to 1924, when Jakob Bürstner founded a large carpenter's and joiner's workshop in Kehl-Neumühl in Baden (Germany). The transition to today's successful company began in the late 1950s with the construction of the first caravan.

As one of the first companies to do so, Bürstner ventured into France in the mid-1970s. The company took over a furniture factory in the Alsatian town of Wissembourg, which is now one of the most modern production plants in the industry. Bürstner is also considered a pioneer when it comes to motorhome production. For 25 years, motorhomes have been a permanent feature in the company's range of products.

Bürstner has also set new standards in customer service. In 2004, the nearly 16,000 m² Customer Service Centre was inaugurated. From here, the supply of replacement parts is organised for the whole of Europe. It is here that all those interested in caravans and motorhomes can get an overview of many Bürstner innovations. Everything technically and humanly possible is done to make sure that your free time spent in a Bürstner is an unforgettable experience.

Alcove model, 1986

T 550, 1988

I Class, 1997

Ixeo plus, 2012

„26 years of Bürstner motorhomes“ is a story full of innovation, which began in 1986 with the first Bürstner alcove model. As one of the first manufacturers of semi-

integrated models, in 1988 Bürstner was considered the pioneer in this class and has set many trends ever since. With the Ixeo, the first semi-integrated model with a fold-down bed

above the seating area, Bürstner invented a new class of vehicles that revolutionised holidaying in a motorhome. At Bürstner you can rest assured that our wheels will keep turning

in the future: We will continue to use our high quality demands, our reliability and our innovative power to give you an unlimited sense of comfort and well-being.

QUALITY YOU CAN COUNT ON

For the best holiday mood, everything has to be right. For this reason, quality is the top priority in a Bürstner. It is the result of a highly modern production process – and the people who put a great deal of care and attention to detail into this process.

At Bürstner modern computer technology is combined with 25 years of experience in motorhome construction. Each model is first realised virtually down to the very last detail. A closely networked production process connects all areas from development to manufacturing and sales, and is certified according to the strict ISO 9001 specifications. This results in quality

that allows you to enjoy an unlimited sense of comfort and well-being.

Perfection in person

200 employees are exclusively devoted to producing furniture for caravans and motorhomes. Each and every one of them pays attention to precise manufacturing and a perfect finish. Above all, quality is evident in the details. Select materials, solidly glued furniture elements as well as robust locks and hinges convey a good feeling of quality and security.

Development, production and sales are certified according to the international standard ISO 9001:2000.

Bürstner fulfils the DIN 2001-2 drinking water standard in all vehicles.

Mass quality

Up to 60,000 furniture parts are produced per week, and each and every one of them must meet our and your high standards. Strict quality assurance ensures that you'll still really want to go on holiday in your Bürstner, even after you've travelled many kilometres in it.

Our machines and systems are always up to date – just like the specialists who operate them. After all, we invest in the training and continuing education of our employees.

Always a length ahead

Because only the best is good enough for a Bürstner, our engineers are always on the lookout for optimum solutions. We set standards, but are never fully satisfied with them. After all, we want to make sure that we remain a leading producer of motorhomes in the future as well – and that we continue to surprise you with innovative ideas.

Each Bürstner motorhome is covered by a comprehensive warranty for 2 years from the date of purchase.

Five-year water ingress warranty, subject to annual inspection (to be paid for by the customer).

THE STUFF THAT HOLIDAY DREAMS ARE MADE OF

In a Bürstner you can let your tastes decide on your preferred décor. The wide selection of high-quality materials and the outstanding manufacturing leave nothing to be desired. Be inspired – and enjoy the sense of comfort and well-being that you are used to at home.

Easy to clean.
Agreeable to the skin.
Long-lasting.

Nova Quality is a revolutionary synthetic fibre that is extremely durable and completely resistant to dirt. If you happen to spill something, you just need a cloth and some fresh water to get rid of any trace.

At the same time, this breathable upholstery feels wonderfully warm and soft – and great on the skin. You'll also like the fact that Nova Quality is available as an option in all models.

Standard features in this model series

Subject to differences in texture and colour in relation to the illustrated fixtures and fittings, insofar as they are in the nature of the materials used and are customary. The same applies to technical modifications to the vehicle, provided that the product quality overall remains equal or is improved, and use is not impaired. Note: Special driving licences may be required to drive a motorhome!

This brochure does not constitute an offer by Bürstner GmbH. Bürstner reserves the right to alter specifications and prices at any time as materials and conditions demand. Distributors and dealers sell Bürstner products on their own account and not as agents for Bürstner. Accordingly they have no authority to bind Bürstner or to make and representation or undertaking whatsoever on behalf of Bürstner.

All props are for photographic purposes only and are not included in the vehicle specifications.

All Bürstner motorhomes are manufactured to European Whole Vehicle Type Approval (EWVTA). This is your assurance that our vehicles meet all relevant European standards of safety and manufacturing.
