

← 5.65 m →
Small:

also with
single beds.

Like the Van S 500, the Van S 520 also unites state of the art safety standards, compact dimensions and maximum comfort to form an impressive overall package. On a base which is negligibly longer at 6.36m, the Van S 520 also provides a huge garage and single beds. This is a small sensation for all those searching for the ultimate sleeping comfort.

HYMER

with long beds and full-sized bathroom.

Thanks to its clever spatial concept, the Van S 500 provides sufficient room for a comfortable transverse bed within a length of only 5.65 m. For those who prefer to sleep separately, the somewhat longer 6.36m van S 520 with single beds is just the thing. Whatever you decide: after a good night's sleep, you can start the day afresh in the full-sized bathroom.

with rear-wheel drive and safety package.

The Mercedes-Benz Sprinter with rear-wheel drive impresses customers with up to 190hp and has an up to 2-ton towing capacity. For maximum safety, the Van S 500 features the assistance systems TCS, ESP, EBD, BAS, ABS and HSA as well as electrical and heatable wing mirrors, daytime running light and driver and passenger airbags.

HYMER

with rear garage and small turning radius.

The 121 cm loading dimension of the Van S 520 and the 100 cm loading dimension of the Van S 500 and 350 kg garage loading capacity provides plenty of storage space at the rear garage. With a length of only 5.65 m, the Van S 500 is still more manoeuvrable and flexible than any other motorhome in its class.

HYMER

with Sprinter engine and 7G-Tronic.

The Mercedes-Benz Sprinter engine featuring 7G-Tronic convinces drivers in any speed range and ensures gentle, consumption-optimised driving.
