

HYMER Motorhomes

Setting standards: HYMER semi-integrated and integrated motorhomes 2016.

HYMER

Erwin Hymer (* 27 July 1930 † 11 April 2013), a leading figure of the European caravan and motorhome sector.

The Pioneer

Inventor, visionary, entrepreneur – Erwin Hymer wrote camping history by turning his group of companies into the European market leader.

Technical know-how, the pioneering spirit of the entrepreneur and a healthy dose of ambition and hard work – all of these were typical of Erwin Hymer. From small beginnings, the company founder, who passed away in April 2013, created a group of companies which now ranks among the leading motorhome and caravan manufacturers in Europe and is active worldwide.

As a young engineer, Erwin Hymer followed his parents' calling and began working in his father Alfons' repair shop in the southern German town of Bad Waldsee in 1956. Just one year later, he developed the first caravan – the original "Troll" – in collaboration with the engineer Erich Bachem. And thus began a new era! The next decisive step came in 1971 with the launch of the first HYMER motorhome – a key milestone in our long corporate history.

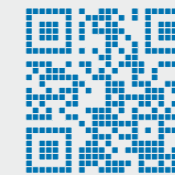

The past 57 years have seen a wide variety of different series, models and layouts. Many of the motorhomes and caravans set standards and ushered in new trends – especially in terms of technology, comfort and design, as well as quality and safety. For our founder Erwin Hymer, incorporating customers' wishes into the development of new and improved vehicles was always a matter of principle.

As a result, the concept of motorhoming has always been inseparably linked with the name HYMER. The passion and professionalism that goes into the development and construction of our vehicles communicates itself to our customers. For decades, Erwin Hymer's inventiveness and ceaseless creativity has shaped the entire industry. His whole life's work provides us with a model for future corporate decisions.

A unique success story

The history of the HYMER motorhome.

The development of the integrated Hymermobil at the beginning of the 70s ushered in a new era in the history of mobile homes. The year 2014 saw the production of the 150,000th HYMER motorhome. From the legendary B-Class or the luxurious S-Class to the lightweights of the Exsis series or the colourful variety of semi-

integrated models – many vehicles from these model series have been crowned with major awards over the years. This chronicle sketches the key stages in the remarkable success story of the Hymermobil.

1923

1957

Alfons Hymer begins production of agricultural vehicles.

1961

Erich Bachem ("ERIBA") and Erwin Hymer build the original "Troll", the first caravan.

1971

The first hand-built HYMER motorhome, the Caravano, makes its debut.

The first Hymermobil is built and presented at the Caravan Salon.

1976

The Hymermobil 521 with pull-down double bed in the cab becomes a bestseller.

1978

The innovative PUAL body shell is developed and proves its stability.

1981

The HYMER B-Class is introduced and develops over the following years into Europe's most popular motorhome.

1986

HYMER becomes the first manufacturer to grant a 6-year water ingress warranty on its motorhomes.

1995

HYMER presents the new S-Class and becomes the first company in the industry to be certified according to ISO 9001 on the strength of its high product quality.

2004

In October, the 100,000th HYMER motorhome rolls off the production line in Bad Waldsee.

2007

HYMER's 50th anniversary is honoured with an anniversary edition of the B-Class SL in gold.

2011

Opening of the Erwin Hymer Museum opposite the company headquarters in Bad Waldsee.

2012

Lightweight design from Bad Waldsee – HYMER puts its stamp on the 3-ton class and sets new standards within the industry.

2014

Europe's leading manufacturer produces the 150,000th HYMER motorhome.

2015

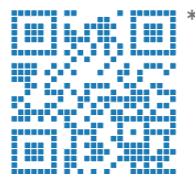

A new milestone: the Hymermobil ML-I – an integrated motorhome on a Mercedes-Benz chassis weighing less than 3.5 tons.

Unique to HYMER:
the symbol for top quality
you can see and feel in every
HYMER motorhome.

Why HYMER?

The name HYMER is synonymous with motorhoming.

*www.hymer.com

There are many important criteria to consider when buying a motorhome. After all, it's an investment you expect to benefit from for years or even decades to come, enhancing your leisure time and holidays and bringing you freedom and independence. So who better to turn to for information than a renowned supplier and European market leader with a wide selection of vehicle types? All our products are developed on the principle that HYMER customers are entitled to expect a high-quality vehicle with supe-

rior comfort, and one which represents a worthwhile economic investment. In addition, HYMER motorhomes are equipped with extensive safety features as standard. We are constantly striving to set new standards in all areas, especially in terms of weight or PUAL design. What's more, our customers can access a comprehensive range of services at all times. So when it comes to choosing a motorhome, you need look no further than the premium manufacturer HYMER!

Passion and conviction: HYMER motorhomes embody a whole way of life.

Winter resistance

For carefree travel even in cold and snowy conditions.

All our motorhomes are factory-fitted with winter-proof features, making them suitable for year-round use. Clever winter-proof control solutions such as the insulated service installations and tanks, the sophisticated heating and ventilation system and

HYMER's unique bonding technology make them fit for all weathers. That way you stay warm as toast even when it's icy outside. Thanks to the winterproofing features, your pipes and tanks can't freeze – and you save gas thanks to perfect heat insulation.

Winterproofing as standard

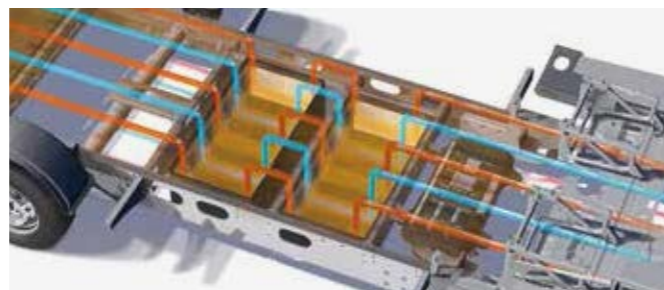

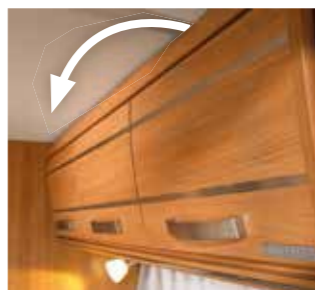

All HYMER motorhomes come ready-winterproofed, making them ideal for winter camping too. Thanks to the integral insulation concept, the sophisticated heating and ventilation system and the special HYMER bonding technology used in the bodywork, our vehicles are fit for all weathers and suitable for year-round use.

Truma heater

The integrated 6,000 W Truma Combi 6 heater effortlessly maintains a cosy temperature throughout the interior even when it's freezing outside (depending on model).

Central heating

The system's central location under the seating area allows optimal heat distribution throughout the vehicle. Numerous heating outlets ensure a pleasant temperature throughout the living area (depending on model).

Winter ventilation

Winter air vents are provided in the windows and seating areas and in the kitchen. These ensure efficient air circulation and an optimal climate inside the vehicle.

Rear ventilation

All overhead storage cupboards have a void at the back through which warm air can circulate freely, thus avoiding unwanted condensation.

The vehicle for winter sports fans

Our motorhomes offer a hassle-free all-round package for winter sports enthusiasts: insulated service installations and tanks, heated dashboard and exterior locker compartments, winter air vents in the windows and seating areas and a warm air supply under the cab seats. As for the exterior, the GRP floor provides effective protection against grit and salt (depending on model).

Innovation

Every HYMER is a masterpiece of engineering.

As a pioneer of the motorhome industry, HYMER has come up with many trend-setting innovations over decades, helping to shape the image of motorhoming for generations. The crank skylight, the wheel arch refrigerator, a specially developed HYMER headlight and the fold-down bed are just a few examples. Besides

their safety features and high level of travelling comfort, our motorhomes have a key advantage that makes for excellent value retention: their durable high-tech bodywork with the patented full-foam PUAL walls and heated GRP double floor.

30 × promobil
Motorhome of the Year 1987 – present

Top marks

Each HYMER motorhome is subjected to various endurance tests, e.g. extreme cold. It then undergoes further detailed testing by our staff.

Double glazing

The inclusion of high-quality framed windows with acrylic double glazing as standard is a further HYMER milestone.

Magic weight

This is standard with the "inventor of the 3-ton class": the Exsis-t, T-CL, ML-T, Exsis-i and ML-I all weigh in below the magic limit of 3.5 tons for example, even with a large payload. Not only does this save fuel: in some countries, it also avoids higher toll fees. Another plus is that vehicles of this weight can also be driven with a category B driving licence.

Spacious interior

HYMER is the inventor of the fold-down bed in the semi-integrated motorhome. The sleeping area in the roof takes nothing away from the living area and leaves scope for a creative layout.

Robust coating

Corrosion, cold and material fatigue don't stand a chance in our motorhomes thanks to the GRP roof coating, floor and other components. Protection against grit and salt is likewise guaranteed (depending on model).

Made by HYMER

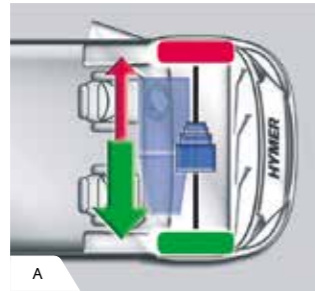

High-quality furniture design is a HYMER tradition. 90 % of all furniture parts are made in our own factory – with modern technology and materials. The fittings are household standard.

Maximum safety

Prepared for all eventualities.

Driving safety and comfort have reached an extremely high standard in the automotive sector. That same standard is applied to each and every HYMER motorhome. Top safety standards are defined at the development stage and successfully implemented – from the vehicle body to the intelligent electronic safety systems.

These serve to assist driving and acceleration, e.g. on difficult terrain, and to ensure better roadholding. The safety systems prevent the vehicle from skidding or swerving and the wheels from jamming in critical situations. They also assist driving and manoeuvring in mountainous areas, on uphill and downhill stretches.

Standard driving safety

The excellent driving comfort of HYMER motorhomes is complemented by an extremely comprehensive standard safety package, featuring driver and passenger airbags, ABS, TCS and ESC incl. Traction+ (A). Added safety and convenience is provided by electrically adjustable and heated wing mirrors, a daytime running light and hill holder and hill descent assist facilities.

A great outlook

The high panoramic windscreen, extra-large side windows, triple windscreen wipers and standard daytime running light ensure excellent all-round vision in all weathers (depending on model).

Excellent roadholding thanks to AL-KO frame

The AL-KO lightweight technology cuts down on weight without compromising on stability. That way motorhomes on a Fiat chassis can have a larger payload. The lower centre of gravity improves driving stability and the broad-gauge chassis ensures better roadholding, while the torsion bar suspension and high-performance wheel shock absorbers guarantee you a smooth ride equal to that of a car.

Every modern convenience

What more could you wish for?

High standards have always been associated with HYMER and its customers. So it's no wonder that even the standard equipment of our vehicles includes a number of high-end comfort features – not to mention the wide choice of high-quality extras. But comfort isn't just about equipment. Whether or not you feel

at home in a motorhome is determined by fundamental factors such as spatial effect and proportions, freedom of movement and the user-friendliness and functionality of the individual elements. HYMER scores on all these fronts – you can just feel the quality.

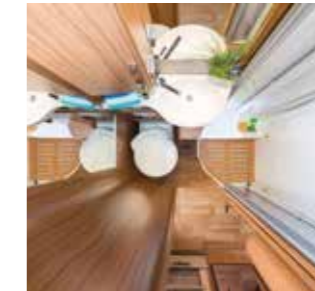

Upholstery & fabrics

Only textiles from renowned manufacturers are used in our sewing workshop. All fabrics are stain-protected and meet the relevant standards for UV stability, colour and hot lightfastness.

Power saving

HYMER living areas are notable for their warm atmosphere. Pleasant illumination is ensured by the large windows in the daytime, and by the standard integrated LED lighting system in the evening.

Adaptable bathrooms

Whether you opt for the variable bathroom, variable premium bathroom or open bathroom with separate shower: all offer remarkable freedom of movement.

Culinary pleasures

No culinary wishes go unfulfilled in a HYMER kitchen thanks to top-quality fittings, an ergonomically designed workspace and plenty of storage for provisions and cooking utensils.

Healthy sleep

A good bed is the foundation of healthy, restorative sleep. That's why every HYMER motorhome comes with modern multi-zone cold-foam mattresses in the sleeping area.

Stowage space galore

The stowage facilities offer a unique combination of quantity and quality. From the extra-large garages to the many storage compartments and overhead storage cupboards – not an inch of space is wasted.

Secure storage

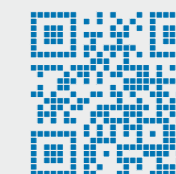

All kitchen drawers are equipped with ball bearings for a smooth action and feature a Servo soft-touch closing mechanism and fastenings to prevent them from coming open accidentally and rattling while the vehicle is in motion.

Handles & fastenings

The easy-grip, ergonomic real metal handles are extremely durable. The HYMER closure system guarantees secure locking of every cupboard door.

HYMER Van

The semi-integrated motorhome that makes an ideal second car.

HYMER is credited within the motorhome industry with the invention of the panel van. The new HYMER Van answers the increased demand for an ultra-compact semi-integrated vehicle which can fulfil the dual function of motorhome and second car. With an overall length of 5.45 metres, it is light and very agile, making it easy to manoeuvre in traffic. What's more, you can park it virtually anywhere. But compactness doesn't mean compromising on familiar comforts: indeed, the HYMER Van comes optimally equipped with bathroom, shower, bed and garage.

Technical data

Large garage with 100 cm internal loading height

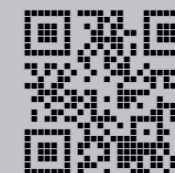

All tanks and service installations insulated and heated

AL-KO

AL-KO lightweight frame with independent wheel suspension

Further series highlights: left- and right-opening garage, Truma-CP-plus control panel, cab seats upholstered to match living area, 130-litre fresh water and 90-litre waste water tank, powerful LED awning light with rain shield

More information on the HYMER Van can be found online at: www.hymer.com/van

Illustrations for example purposes only.

Ideal undercarriage

The specially developed AL-KO lightweight frame with independent suspension forms the perfect basis for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Good ventilation

The living area is equipped with a Midi lift/tilt rooflight as standard. A steplessly adjustable opening angle ensures effective ventilation at all times. A double roller blind is integrated in the rooflight frame for darkening and insect prevention purposes.

Protection from below

The indestructible GRP underbody gives the vehicles perfect protection against weather damage. Stone damage, grit and dirt are likewise kept at bay – a solid and lasting foundation for the entire service life of your motorhome.

Cosy warmth

Installed as standard, the 4,000 W Truma Combi 4 heater effortlessly generates enough warmth to ensure a cosy temperature throughout the interior even when it's well below freezing outside.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

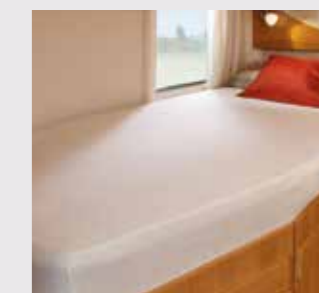

No thermal bridges

The high-quality Seitz S7 framed windows are fitted with acrylic double glazing for optimal thermal insulation. The powder-coated aluminium frame is particularly lightweight and sturdy and is also equipped with an insulating layer to protect against thermal bridging.

Easy loading

The HYMER Van is also optionally available with an extremely handy tailgate. This allows through-loading and hence much easier storage of long and bulky items such as skis.

Sleeping comfort

All beds are equipped with high-quality multi-zone cold foam mattresses that provide the right support for all areas of the body. Breathable mattress toppers in the rear section ensure good ventilation.

Living and kitchen comfort

Functional interior concepts for your dream trip.

Cosy living area

The Van interior is upholstered in the Castello fabric design as standard. Also pictured here is the optionally available furniture finish Palatino Apple Cream.

Well-equipped compact kitchen

The modern kitchen in the HYMER Van 314 is highly compact and comes with a 2-burner hob and a practical sink combo.

Plenty of space for cookware

Thanks to the large drawer and pull-out cabinet including cutlery compartment, you can organise all your utensils so your kitchen is always tidy.

Ample storage space

Installed below the seating area – pictured here in the standard Trentino Pear Wood finish and Santorin fabric design – is an extremely spacious storage drawer.

Sleeping and bathroom comfort

A perfect interior ambience with a touch of class.

Sleeping space for two

With a width of up to 145 cm, the rear bed comfortably accommodates two people. The handy ladder provides easier access.

Under-bed wardrobe

Integrated under the folding bed is a wardrobe which can also be accessed from the garage. In combination with the optional tailgate, this provides a handy through-loading facility when required.

Compact daylight bathroom

The Van's compact bathroom comes with a standard mirror cabinet with plenty of storage space, and has a skylight to let in fresh air and daylight.

Stylish, space-saving fittings

The compact bathroom is equipped with a superior-quality, sturdy folding washbasin in solid surface material. A space-saving tambour door slides open leaving the gangway clear.

HYMER Exsis-t

Carefree travel – wherever you're heading.

The Exsis-t is the next episode in the success story of our lightweight motorhomes. With a laden mass of less than 2,700 kilos, this model range is a perfect combination of lightweight construction and comfort. Specially developed materials, GRP lightweight floors, AL-KO lightweight frames and the brand-specific PUAL body shell achieve a dramatic weight reduction without compromising on the equipment features: interior LED lighting, garage doors on both sides and multi-zone cold foam mattresses come as standard along with the comprehensive safety package.

HYMER Exsis-t highlights

A vision becomes reality.

More information on the HYMER Exsis-t can be found at: www.hymer.com/exsis-t

Illustrations for example purposes only.

Exterior lighting

The high-power LED awning light with rain deflector is also part of the standard package. It lights up a wide area outside the entrance door so you can enter the vehicle safely in the dark.

More headroom

Mosquito nets and blackout blinds are fully integrated into the frame of the large clear glass skylight (40 x 40 cm) above the rear beds. That way the skylight barely encroaches on the interior, thus giving you full standing room.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

Large garage doors

The garage comes as standard with full-height doors on both sides of the rear section. That way it can be easily loaded from both sides and luggage remains accessible from the outside at all times. And you can't grumble at the storage capacity – a full 350 kilos!

Sleeping comfort

All beds are equipped with high-quality multi-zone cold foam mattresses that provide the right support for all areas of the body. Breathable mattress toppers in the rear section ensure good ventilation.

Plenty of sockets

Four 230V and two 12V sockets provide plenty of power for your appliances. The seating area, bathroom and kitchen have points for 230V appliances, while 12V appliances can be plugged in at the TV point and dashboard.

High-tech in the kitchen

The Thetford hob and oven combination offers home-from-home cooking convenience (optional extras on request). Thanks to a versatile range of functions, you can bake, grill and boil to your heart's content.

Long floor bridge

The floor echoes the smooth transition between the cab and the body of the vehicle. The floor space between the driver and front passenger seats is equipped with a sturdy, reinforced bridge allowing easy movement from the living area to the cab.

Further highlights: frost-protected undercarriage, electric step to living area entrance, LED awning light, Truma-CP-plus control panel, kitchen drawers with Servo soft-touch closing mechanisms, swivelling and height-adjustable driver and passenger seats

Living and kitchen comfort

Ample space, light and quality of life.

Home from home

The standard L-shaped seating area in the Exsis-t 474 lends a cosy, even homely look to the whole interior thanks to the new Pico fabric design.

Generous kitchen area

A large side kitchen is a standard feature of the Exsis-t models 414, 474 and 588. The readily accessible overhead lockers and large, flexibly partitioned drawers are a boon when pottering in the kitchen.

Optimally equipped

The large kitchen unit in the Exsis-t 598 with low-level worktop, wide-opening drawers, Servo soft-touch closing mechanisms and large Smart-Tower refrigerator opposite.

Top-class seating

The cab is perfectly integrated into the living area for a real home-from-home feeling, as pictured here in the Exsis-t 588 with the warm Trentino Pear Wood furniture finish and Castello fabric design. The B-pillars are additionally upholstered and the overhead lockers extend over the driver and passenger doors.

Sleeping and bathroom comfort

The rest and wellness area invite you to linger.

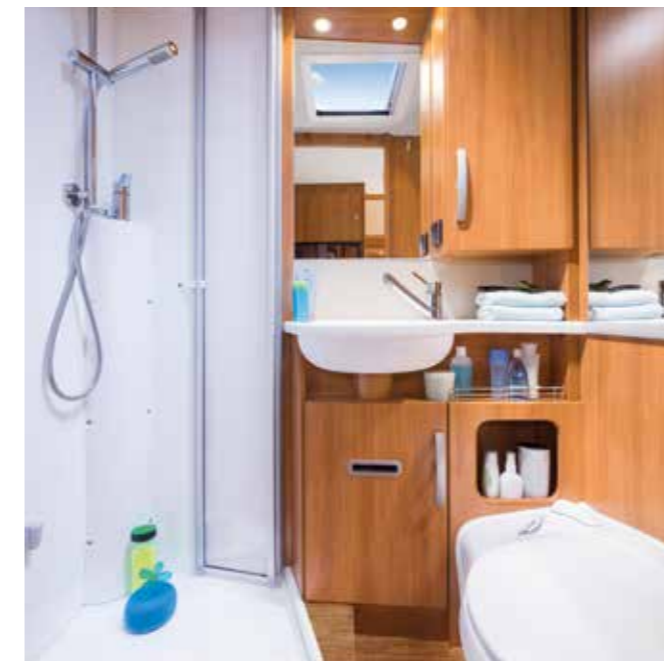

Sweet dreams

The single beds in the Exsis-t come with a connecting cushion between the mattresses as standard. This model can also be supplied with low-level single beds on request.

It takes two

Measuring 200 × 148 cm, the generous transverse double bed at the rear of the Exsis-t 564 offers plenty of scope for romantic moments.

Ample space

The extremely roomy comfort bathroom not only boasts a separate shower with fixed walls but also allows plenty of standing space in front of the washbasin.

Exquisite bathroom

The fold-away washbasin and swivel toilet seat leave room for a spacious shower. The Exsis-t comes with a high-quality Cool Glass washbasin as standard.

HYMER T-Class CL

Simply spacious.

The HYMER T-Class CL sets new standards in its class. The 2.12 metre headroom alone exceeds the usual standard by far. As a result, the interior design concepts are exceptionally generous – despite a laden mass of less than 3.5 tons. No other semi-integrated model comes as close to the high comfort standard found in integrated motorhomes. The overhead lockers and living room floor extend right to the front. The HYMER T-Class CL can be supplied with or without a fold-down bed. Virtually all beds have a spacious garage beneath, yet there is still plenty of headroom above the rear beds.

HYMER T-Class CL highlights

Optimal standard features.

Huge garage with a loading height of up to 114 cm

Seitz S7 framed windows

Available with or without fold-down bed

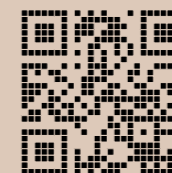

All tanks and service installations insulated and heated

GRP lightweight floor with styrofoam insulation

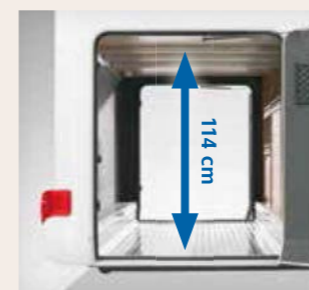

AL-KO lightweight frame with independent wheel suspension

Further series highlights: Truma-CP-plus control panel, frost-protected undercarriage, kitchen drawers with Servo soft-touch closing mechanisms, flat screen bracket, multi-zone cold foam mattresses

More information on the HYMER Tramp CL can be found at: www.hymer.com/t-cl

Illustrations for example purposes only.

Large garage doors

The capacious and – thanks to large doors – easily accessible garage accommodates a payload of up to 450 kilos. What's more, there's still plenty of space above for the rear beds so you needn't worry about bumping your head.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

Flexible table top

At the centre of the seating area is a sturdy table with a large top. A pull-out extension allows convenient access from the front passenger seat and the opposite bench seat too when required.

Practical surface

No space is wasted in the well-designed kitchen. The fitted sink cover converts the sink at a stroke into a handy chopping board for your freshly washed vegetables.

Plenty of sockets

Four 230V and two 12V sockets provide plenty of power for your appliances. The seating area, bathroom and kitchen have points for 230V appliances, while 12V appliances can be plugged in at the TV point and dashboard.

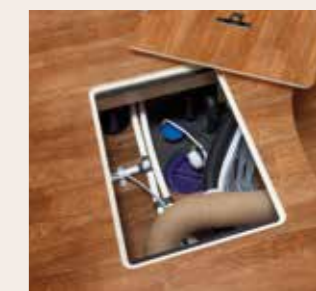

Radio and TV

Loudspeakers in the sleeping and living area, wiring and sockets and a radio and DVB-T aerial are factory-fitted in every vehicle. All you need to do is plug in and play!

Long floor bridge

The floor echoes the smooth transition between the cab and the body of the vehicle. The floor space between the driver and front passenger seats is equipped with a sturdy, reinforced bridge allowing easy movement from the living area to the cab.

More independence

The large water tanks mean you can go further before you have to fill up again, giving you more freedom and spontaneity. The fresh water tank holds 155 litres and the waste water tank 100 litres.

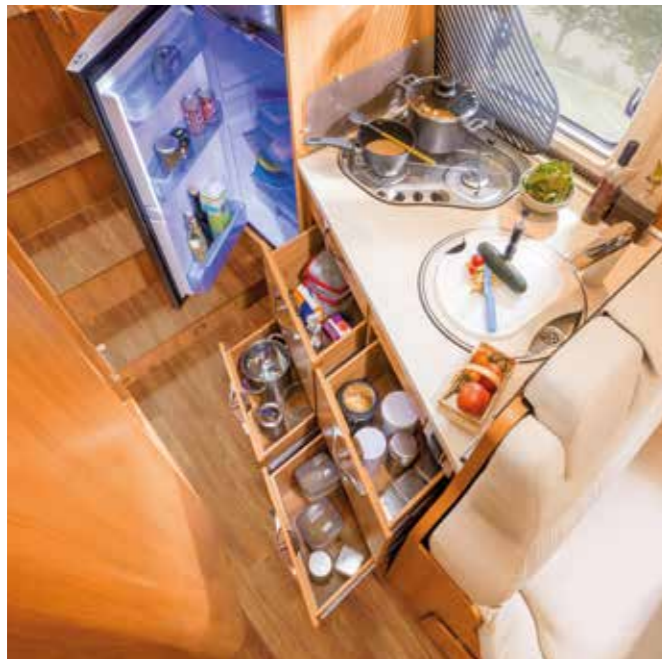

Living and kitchen comfort

Elegant solutions for an inspiring interior ambience.

Cosy living space

The interior of the T 588 CL is equipped as standard with a warm Trentino Pear Wood furniture finish and Castello fabric design.

Cooking has never been so much fun!

The T 588 CL has a well-planned and spacious kitchen unit with a low-level worktop and pull-out drawers with Servo soft-touch closing mechanisms. A large jumbo refrigerator is optionally available.

Excellent storage

The small storage compartment in the side seat by the entrance to the T 588 CL is a highly practical feature which keeps shoes and other items tidy and readily accessible.

Comfy seating

The T 678 CL boasts an optionally available L-shaped seating area in the new fabric combination Millau. Access to the seating is improved enormously by the 360-degree rotating table.

Sleeping and bathroom comfort

Appealing and functional – wherever you're bound.

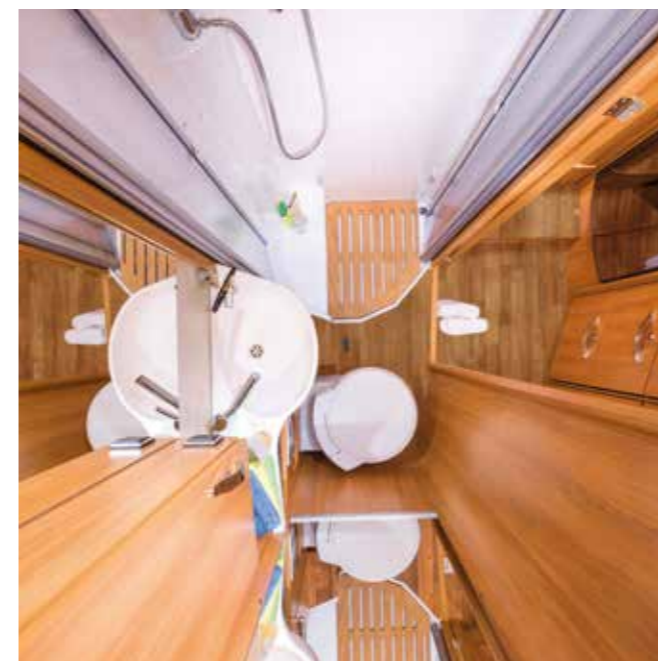

Aesthetic and practical

The built-in extending ladder can be used to support an extra cushion between the single beds in the rear of the T 588 CL, pictured here in the Trentino Pear Wood furniture finish.

Plenty of space for your holiday wear

The full-length wardrobe in the T 588 CL is extremely spacious – just the thing for keeping all your holiday clothes neatly organised.

Clean and dry

The comfort bathroom in the T-Class CL has a shower cubicle which can be closed off to provide an additional clean, dry standing area in front of the washbasin.

Clear organisation

The bathroom in the T 678 CL is clearly structured with a separate shower, a separate bathroom and toilet area and a dressing room in between.

HYMER T-Class SL

The top of the semi-integrated range.

The new semi-integrated HYMER T-Class SL boasts a standard of comfort approaching that of a fully integrated motorhome – and all with a laden mass of well below 3.5 tons. Featuring innovative layout concepts, it builds on the CL sister model but with the addition of a double floor containing the plumbing/wiring and cellar compartments plus a level living area floor. Highlights of the HYMER T-Class SL are its abundant headroom and freedom to move, not to mention its first-class inventory. What better travelling companion could you wish for?

HYMER T-Class SL highlights

All-round excellence from bodywork to inventory.

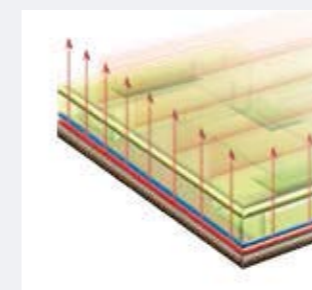

Further series highlights: Truma-CP-plus control panel, GRP underbody, 142-litre Smart-Tower refrigerator, kitchen drawers with Servo soft-touch closing mechanisms, swivelling and height-adjustable driver and passenger seats

More information on the HYMER Tramp SL can be found at: www.hymer.com/t-sl

Illustrations for example purposes only.

Double floor

Underfloor heating, a frost-protected service cavity and an additional heated storage compartment are all-inclusive thanks to the proven, 12.5 cm thick multi-purpose double floor with hot-air nozzles between the upper floor surface (3 cm) and underfloor (3.5 cm).

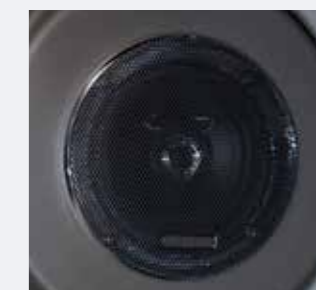

Natural light

The large crank skylight in the living area lets in plenty of direct daylight to create a pleasant, natural ambience in the interior of the vehicle. When it gets dark, uniform lighting is provided by the integrated LED spotlights.

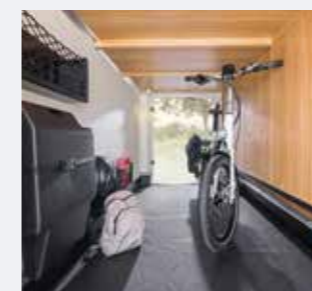

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

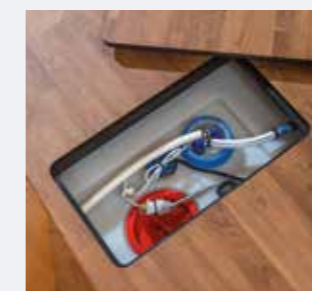

Radio and TV

Loudspeakers in the sleeping and living area, wiring and sockets and a radio and DVB-T aerial are factory-fitted in every vehicle. All you need to do is plug in and play!

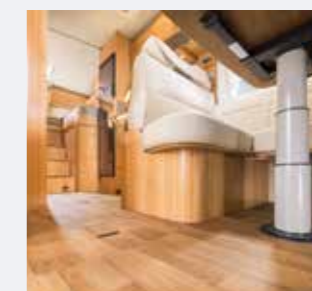

Large garage doors

The capacious and – thanks to large doors – easily accessible garage accommodates a payload of up to 350 kilos. What's more, there's still plenty of space above for the rear beds so you needn't worry about bumping your head.

More independence

The large water tanks mean you can go further before you have to fill up again, giving you more freedom and spontaneity. The fresh water tank in the double floor holds 160 litres, the waste water tank 140 litres.

Level living area

All layouts have a level floor throughout the living area, unimpeded by raised sections. That way none of the headroom is lost and there are no obstacles to trip over, especially in the dark.

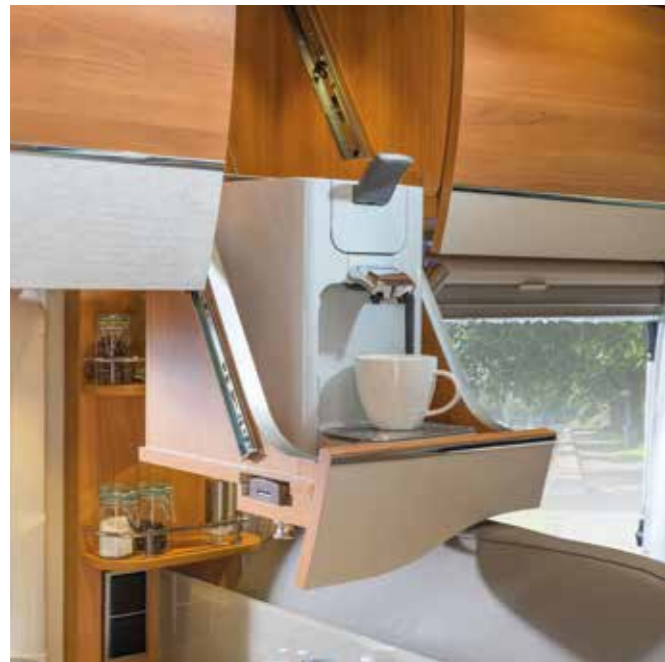

Plenty of sockets

Five 230V and three 12V sockets provide plenty of power for your appliances. The seating area, bathroom and kitchen have points for 230V appliances, while 12V appliances can be plugged in at the TV point and dashboard.

Living and kitchen comfort

Quality modern interiors for the discerning customer.

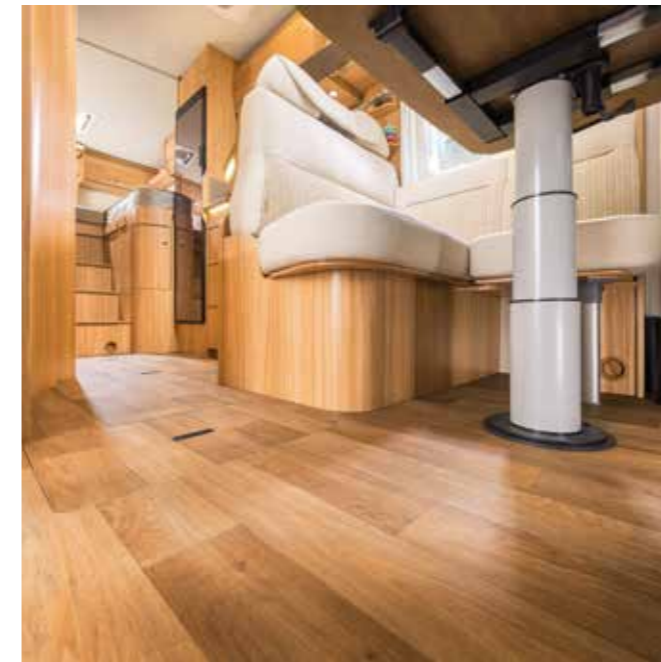

More space for kitchen appliances

The pull-down storage compartment over the kitchen sink in the T 588 SL is not only highly practical but also ideal for housing additional kitchen appliances.

Optimally equipped

The kitchen in the T 568 SL – pictured here in the Legno Lombardo furniture design – boasts a Smart-Tower refrigerator (142-litre) as standard and offers plenty of storage space for cooking utensils and groceries.

No trip hazards

The living area is level throughout, from the cab to the rear. At the same time, the 198 cm headroom in the interior is immense, allowing ample freedom of movement.

Bright and cosy

The optional L-shaped seating area with swivel table in the T 708 SL radiates an atmosphere of cosiness thanks to the standard Trentino Pear Wood furniture finish and bright Cremissimo fabric design.

Sleeping and bathroom comfort

Ideally equipped for holiday comfort and convenience.

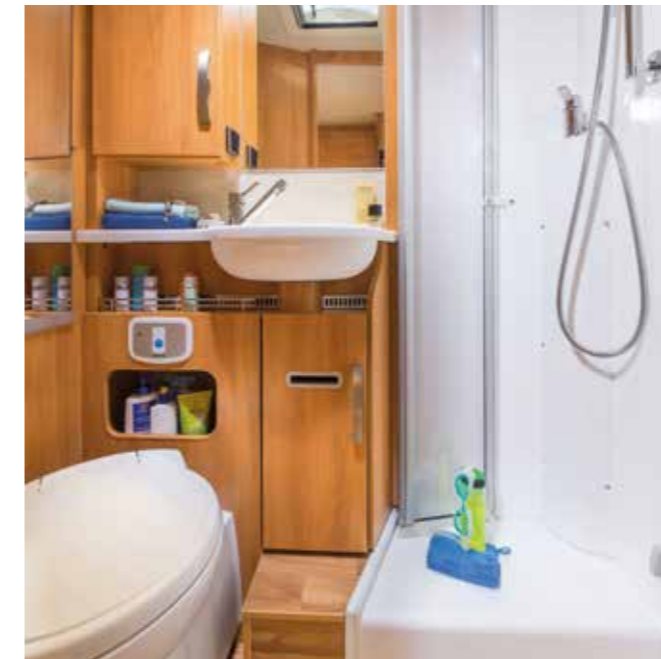

Cosy and welcoming

The comfy single beds in the rear of the T 568 SL always look fresh and inviting with their Legno Lombardo furniture finish (optional extra).

Comfortable queen-size bed

The exquisite queen-size bed – in the stylish Trentino Pear Wood finish – is shown here adjusted to the reading position with angled head end and rear wall neck supports.

Plenty of space for personal care

The roomy comfort bathroom has a separate shower cubicle with fixed walls and an additional large standing area in front of the washbasin.

Clear organisation

The bathroom in the T 708 SL is clearly structured with a separate shower, a separate bathroom and toilet area and a dressing room in between.

HYMER ML-T

Premium semi-integrated model on Mercedes base.

The new HYMER ML-T unites state-of-the-art drive technology and innovative lightweight construction with optimal comfort in an agile semi-integrated vehicle. The level living area floor, large seating area and standard extending table contribute to the high level of comfort and convenience. Despite weighing less than 3.5 tons, this semi-integrated model gives you complete comfort coupled with an extensive safety package. What's more, it boasts a range of standard features and additional comfort which are unrivalled in this class.

Technical data

HYMER ML-T highlights

A perfect combination.

Huge garage with a loading height of up to 121 cm

Seitz S7 framed windows

Light, slender and manoeuvrable thanks to an outside width of 2.22 m

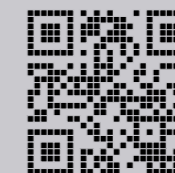

All tanks and service installations insulated and heated

Single-level living area floor

GFK
GRP lightweight floor with styrofoam insulation

Further series highlights: Truma-CP-plus control panel, comfort safety suspension, frost-protected undercarriage, kitchen drawers with Servo soft-touch closing mechanisms, multi-zone cold foam mattresses, left- and right-opening garage doors, flat screen bracket

More information on the HYMER ML-T can be found at: www.hymer.com/ml-t

Illustrations for example purposes only.

Rear-wheel drive

The rear-wheel drive of the HYMER ML-T has an impressive two-ton towing capacity. That means you can rely on smooth, superior handling in all traffic situations – and an extremely comfortable drive into the bargain.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

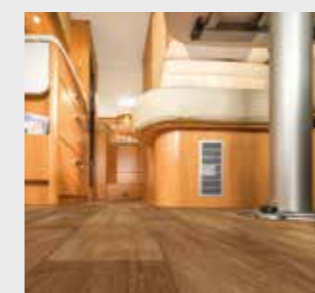

Exterior lighting

The high-power LED awning light with rain deflector is also part of the standard package. It lights up a wide area outside the entrance door so you can enter the vehicle safely in the dark.

Driver assist package

Now you can travel even more safely with the optional driver assistance package: the Collision Prevention Assist emits a signal if you get too close to the vehicle in front, the lane departure warning system warns you if you drift off course, and the automatic High Beam Assist ensures optimal night vision.

Level living area

All layouts of the HYMER ML-T have a level floor throughout the living area, unimpeded by raised sections. That way none of the headroom is lost and there are no obstacles to trip over, especially in the dark.

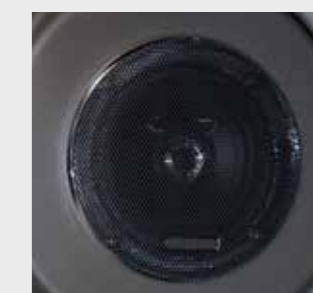

Smart refrigerator

Despite its narrow design, the Smart-Tower refrigerator with its clearly organised interior has an impressive capacity of 142 litres, plus a 15-litre freezer compartment, and is fitted as standard.

Sleeping comfort

All beds are equipped with high-quality multi-zone cold foam mattresses that provide the right support for all areas of the body. Breathable mattress toppers in the rear section ensure good ventilation.

Radio and TV

Loudspeakers in the sleeping and living area, wiring and sockets and a radio and DVB-T aerial are factory-fitted in every vehicle. All you need to do is plug in and play!

Living and kitchen comfort

Individual ideas for stylish living and cooking.

Snug living area

Civilised living in the HYMER ML-T 580 with its stylishly designed seating area in Trentino Pear Wood furniture finish and the new Cremissimo imitation leather combination.

Generous side kitchen

The flexibly partitioned kitchen drawers in various sizes and readily accessible overhead lockers are highlights of the large, well-planned side kitchen.

Modern corner kitchen

A Smart-Tower refrigerator (142-litre), the floor-to-ceiling larder unit and an optional oven are all accommodated in the generous corner kitchen, pictured here in the optional furniture finish Palatino Apple Cream.

Ample seating

Up to four people can be accommodated in the smart, optional L-shaped seating area of the ML-T 540 with its large, 360-degree rotatable table and swivel extension.

Sleeping and bathroom comfort

Oases of relaxation for all your needs.

High or low

The single beds in the ML-T 580 and 620 are exceptionally comfortable, and are available in a high or low version as required.

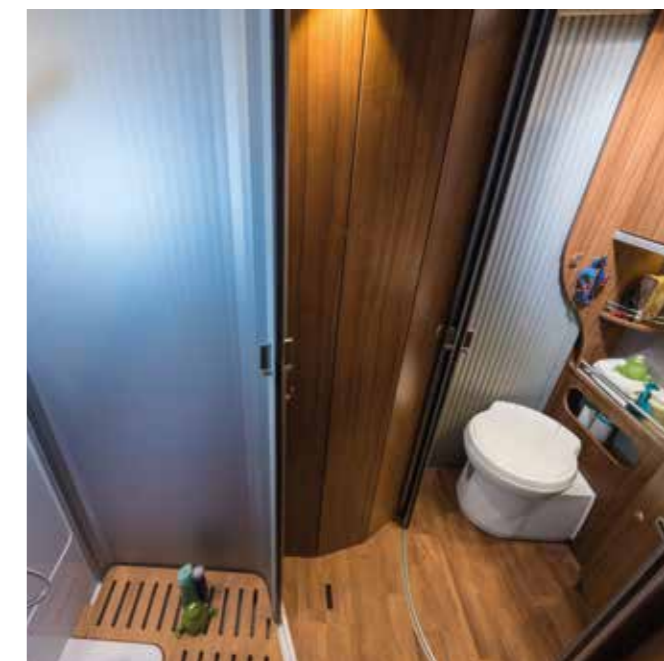

Space for holiday wear

The ML-T 580 and 620 offer plenty of space for your holiday clothes thanks to the wardrobes under both single beds plus the additional full-length wardrobe.

Spacious and modern

The comfort bathroom in the ML-T 560 and 580 boasts a separate, spacious shower cubicle with full-size tray, a modern bench toilet and an additional standing area in front of the washbasin.

Separate areas

The bathroom in the ML-T 620 can be closed off completely from the living area. The bathroom/toilet and shower areas can also be separated off from each other.

Hymermobil Exsis-i

The new lightness.

Maximum flexibility and supreme comfort are the ideals to which every motorhome aspires. The Hymermobil Exsis-i combines both in elegant style. This slimline vehicle remains below the 3.5 ton limit even with a full complement of passengers and a hefty payload. The Exsis-i is regarded as a pioneer among integrated motorhomes in terms of lightweight construction. The model's generous layout and 1.98 metre interior headroom are belied by its compact exterior. Such compactness, together with an optimally positioned wheelbase, makes for excellent manoeuvrability.

Hymermobil Exsis-i highlights

Flexibility and comfort made easy.

Large garage doors on right and left in direction of travel

Seitz S7 framed windows

Light, slender and manoeuvrable thanks to an outside width of 2.22 m

All tanks and service installations insulated and heated

AL-KO

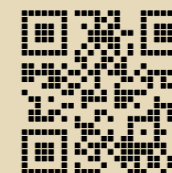

AL-KO lightweight frame with independent wheel suspension

GFK

GRP lightweight floor with styrofoam insulation

Further series highlights: powerful LED awning light with rain shield, Truma-CP-plus control panel, kitchen drawers with Servo soft-touch closing mechanisms, four 230V and two 12V sockets, fold-down bed over cab

More information on the Hymermobil Exsis-i can be found at: www.hymer.com/exsis-i

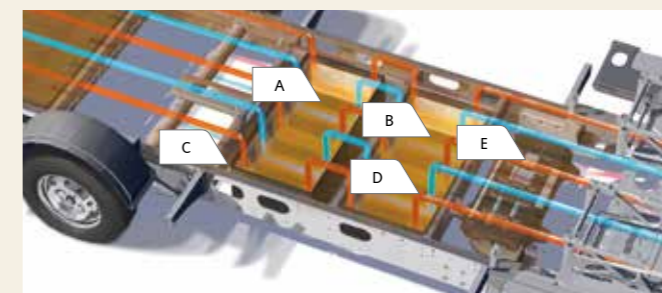

Illustrations for example purposes only.

Ideal undercarriage

The specially developed AL-KO lightweight frame with independent suspension forms the perfect basis for construction for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Frost-protected undercarriage

The floor conceals the fresh water (A) and waste water tank (B) in insulated trays (C) which have hot air flowing through them (D). All the plumbing and wiring (E) is accommodated in the heated living space, safe from frost. The numerous, optimally distributed hot air outlets guarantee perfect climate control throughout the whole vehicle.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

Thermal protection

Like the living area, the front of the vehicle is optimally insulated. The double-skin GRP nose section with intermediate PU foam insulation keeps the cold out in the cab area too.

Natural light

The large crank skylight in the living area lets in plenty of direct daylight to create a pleasant, natural ambience in the interior of the vehicle. When it gets dark, uniform lighting is provided by the integrated LED spotlights.

Sleeping comfort

All beds are equipped with high-quality multi-zone cold foam mattresses that provide the right support for all areas of the body. Breathable mattress toppers in the rear section ensure good ventilation.

Radio and TV

Loudspeakers in the sleeping and living area, wiring and sockets and a radio and DVB-T aerial are factory-fitted in every vehicle. All you need to do is plug in and play!

Living and kitchen comfort

Striking design combined with a cosy, relaxed ambience.

Perfect seating combo

The Exsis-i 588 has an exquisite interior you can feel at home in thanks to its lounge seating area – pictured here in the stylish Etna imitation leather design – and the moveable, large-topped table.

Ideal space allocation

The Exsis-i 678 boasts a generous side kitchen with flexible drawer partitions and extendible worktop. The furniture has a warm Trentino Pear Wood finish.

Large worktop

The kitchen unit in the Exsis-i 598 has a low-level worktop and wide-opening drawers with Servo soft-touch closing mechanisms.

Warm ambience

The interior design of the Exsis-i 414 is similarly appealing, with an L-shaped bench seat in the Castello fabric design and warm Trentino Pear Wood furniture finish.

Sleeping and bathroom comfort

Discover your personal comfort zone.

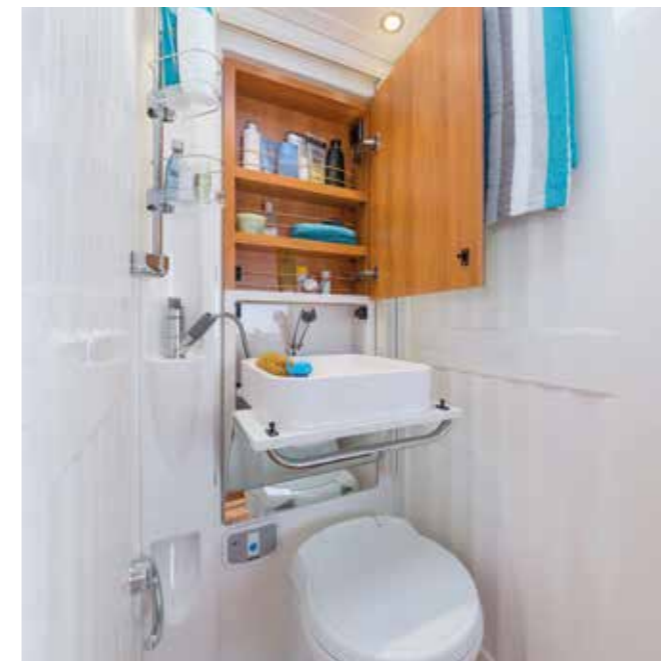

Choice of bed options

A range of bed types are possible in the Exsis-i according to customer preferences, from rear transverse single to rear transverse double or separate rear longitudinal beds.

A bed for day and night-time use

The queen-sized bed in the Exsis-i 598 is pushed up close to the wall and good for reading as well as sleeping thanks to the upright head end.

Ideally equipped

The compact bathroom in the Exsis-i 414 and 474 has a pull-out Cool Glass washbasin and a bathroom cabinet neatly concealed behind the mirror.

Well organised

The Exsis-i 504 has a Vario-Premium bathroom in the form of an open bathroom/toilet combo. The practical shelf over the bench toilet provides additional space for bathroom accessories.

Hymermobil B-Class

The benchmark for mobile travel.

With more than 55,000 vehicles sold, the Hymermobil B-Class has been setting standards in all categories for over 30 years. It belongs justifiably to the premier class of motorhome construction and is regarded as the absolute benchmark for integrated motorhomes. The core concept of the B-Class is based on the patented HYMER PUAL body shell, which ensures a solid construction and perfect heat insulation. The Hymermobil B-Class stands for a harmonious, exclusive design and well above average standard equipment. Discover Europe's number 1 motorhome!

Illustrations for example purposes only.

Ideal undercarriage

The specially developed AL-KO lightweight frame with independent suspension forms the perfect basis for construction for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Double floor

Underfloor heating, a frost-protected service cavity and an additional heated storage compartment are all-inclusive thanks to the proven, 12.5 cm thick multi-purpose double floor with hot-air nozzles between the upper floor surface (3 cm) and under-floor (3.5 cm).

Natural light

The large crank skylight in the living area lets in plenty of direct daylight to create a pleasant, natural ambience in the interior of the vehicle. When it gets dark, uniform lighting is provided by the integrated LED spotlights.

Energy-saving LEDs

The interior lighting throughout the vehicle features LED technology as standard. This cuts energy consumption by 3/4 and gives you hours of extra battery life. Since LEDs don't get hot, this also improves fire and accident safety.

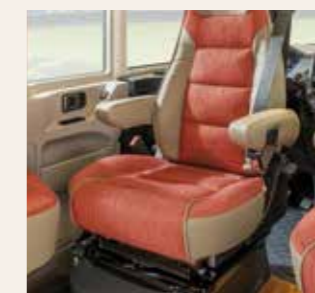

No thermal bridges

The high-quality Seitz S7 framed windows are fitted with acrylic double glazing for optimal thermal insulation. The powder-coated aluminium frame is particularly lightweight and sturdy and is also equipped with an insulating layer to protect against thermal bridging.

Flexible position

The luxury table with real wood frame can be adjusted vertically and horizontally and can also be rotated 360 degrees about its own axis. This makes it optimally accessible from any seat in any situation – and it's never in the way.

Handy multi-taskers

The swivelling and height-adjustable lounge seats in the cab are fully upholstered in the same fabric as the living area. Their exceptional seating comfort and large, tiltable arm rests are ideal for settling down to watch TV and for relaxed driving.

Restful sleep

The HYMER comfort sleeping system with high-quality disk-spring bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep. (depending on model)

Living and kitchen comfort

Tasteful and multifaceted interior concepts.

Cooking has never been so much fun!

The modern kitchen in the B 678 boasts an elegant curved kitchen unit with a generous worktop and extra-deep drawers.

Practical cover

The large sink has a stylish cover which is highly attractive as well as practical. It also makes a perfect chopping board thanks to the integrated drainer.

A home for your shoes

In the B 678, a small, highly practical storage compartment is integrated under the comfy opposite bench seat – just the thing for keeping shoes and other items tidy and readily accessible.

Swivel pilot seats

The B 678 has a real home-from-home atmosphere, thanks to the attractive lounge seating area with L-shaped bench seat and swivel pilot seats, pictured here in the Etna fabric design. The overhead lockers and illuminated ceiling-height glass cabinet offer plenty of space for kitchen utensils.

Sleeping and bathroom comfort

Ideally equipped for holiday comfort and convenience.

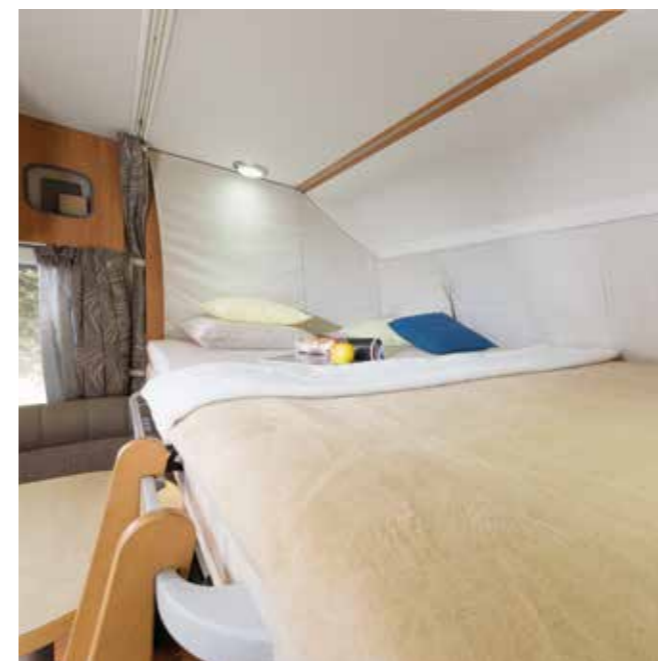

Room at the top

The numerous overhead lockers and shrewdly positioned single beds in the B 678 ensure optimal use of the space right up to the roof.

Ideal for reading

The elegant queen-size bed of the B 698 is great for daytime use too, being ideal for reading thanks to the angled head end and rear wall neck rests.

Easy access

The fold-down bed with 150 cm-wide surface can be lowered right down, allowing much easier access and providing maximum freedom of movement and headroom.

Versatile bathroom

The flexible bathroom in the Hyermobil B-Class can be separated off completely from the living area. The bathroom/toilet and shower area can also be used separately thanks to sliding doors.

Hymermobil B-Class PremiumLine

A technical masterpiece.

Since 1981 we have been winning the hearts of motorhome fans with our Hymermobil B-Class models. Here we can speak without exaggeration of a premium product which truly deserves the name PremiumLine. With innovative layout concepts, an elegant interior, smart exterior and numerous standard highlights such as Goldschmitt coil springs, this model is indeed exclusive. Synonymous with top quality, optimal driving comfort and value retention, it more than does justice to the tradition of the HYMER brand.

Hymermobil B-Class PL highlights

Smarter than ever before – inside and out.

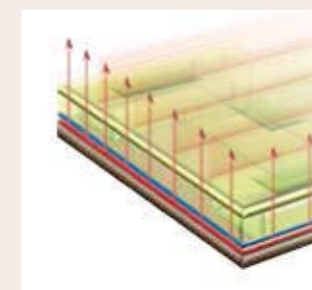

Further series highlights: HYMER sleeping comfort system, multi-zone cold foam mattresses, AL-KO lightweight frames, Goldschmitt coil springs for front axle, Seitz S7 framed windows, left- and right-opening garage doors

More information on the Hymermobil B-Class PL can be found at: www.hymer.com/b-pl

Illustrations for example purposes only.

Double floor

Underfloor heating, a frost-protected service cavity and an additional heated storage compartment are all-inclusive thanks to the proven, 12.5 cm thick multi-purpose double floor with hot-air nozzles between the upper floor surface (3 cm) and underfloor (3.5 cm).

Chassis highlight

With its low average consumption, the 96 kW / 130 hp Fiat Multijet II engine is the epitome of sustained, fuel-efficient driving pleasure. The nippy and robust 4-cylinder turbo-diesel engine complies with the Euro 5+ and EEV exhaust emissions standards. A further highlight is the automatic front air conditioning system with pollen filter in the central console of the dashboard, which maintains a pleasant temperature while driving. And the onboard cruise control ensures a comfortable and safe drive at a steady, controlled speed.

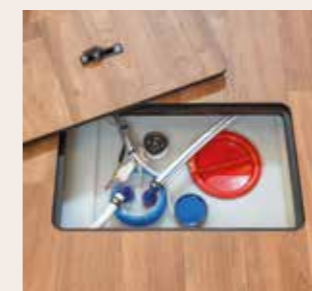

Central control

The digital Truma-CP-plus control panel allows central control of the Truma-Combi heating system and air conditioning systems – complete with booster function for hot water and space heating when you need it.

Handy multi-taskers

The height and angle-adjustable swivel lounge seats in the cab are upholstered in the same fabric as the living area. The high seating comfort of the Aguti Ergoflex pilot seats is ideal for settling down to watch TV and for relaxed driving.

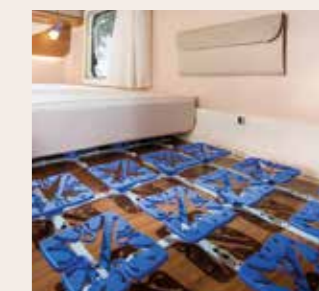

High capacity

The fresh water capacity has been increased to an impressive 160 litres, and the grey water tank holds 140 litres – that means more convenience and more self-sufficiency. The electric grey water tank emptying system is also very practical.

Gourmet kitchen

The kitchen of the B-Class Premium Line is luxuriously equipped, with a sink and draining board in superior solid-surface material, pull-out shelf for kitchen appliances and window covering. It offers plenty of storage space thanks to a new corner kitchen design with six drawers and additional kitchen shelving.

Restful sleep

The HYMER comfort sleeping system with high-quality disk-spring bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep (except in the B 598 PL and B 708 PL).

Living and kitchen comfort

Exclusive inventory for a unique holiday experience.

Ample space for cooking

The corner design allows plenty of space for pottering in the kitchen, and cooking is a whole lot easier thanks to the superior solid surface worktop and six practical drawers.

Just like home

The living area in the B 588 PremiumLine is very generously dimensioned and radiates an air of exclusivity thanks to the Palatino apple furniture finish and Messina fabric design.

Practical shoe compartment

Those who appreciate a well-kept household will be delighted with the comfortable single bench seat in the B 598 PremiumLine which features a handy shoe compartment in the entrance area.

Exclusive style collections

On request, the Hymermobil B-Class PremiumLine is now available with furniture flaps in high-gloss, two-tone beige as well as the bi-coloured version. In addition, the wall unit in the kitchen is available in a choice of wood or textured effect.

Sleeping and bathroom comfort

The comforts of a world-class hotel.

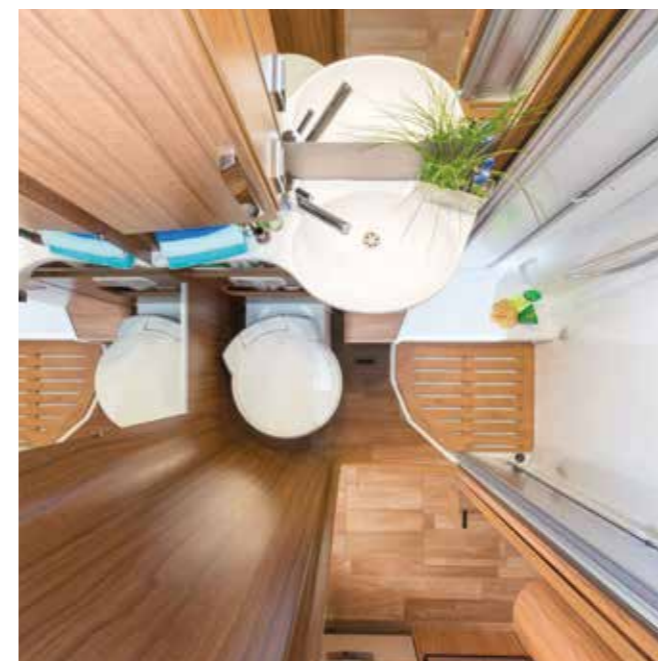

Ample headroom

The two single beds in the B 678 PremiumLine are arranged so as to allow plenty of headroom. You can even sit upright comfortably without bumping your head, and access is nice and easy.

Snug as a bug

The queen-size bed in the rear of the B 598 PremiumLine is wonderfully spacious. And it's even snuggler with the optional luxury bedding package with bedspread and cushions.

Cool glass

The comfort bathroom in the B 588 PremiumLine is aptly named, thanks to a separable shower and practical swivel toilet, plus a washbasin in high-quality Cool Glass.

Dual function

The bathroom of the B 678 PremiumLine features a separate shower and wash area. Thanks to a fixed door, the area in between can also be used as a dressing room.

Hymermobil B-SL

Uncompromising comfort.

Welcome to the elite of modern motorhoming – with the exclusive Hymermobil B-Class SL. With a length of up to 8.86 metres and technical equipment to match, it offers the independence, comfort and look of a Liner – at the price of a conventional integrated model. Notable among the many special features of this model range are its spacious interior, excellent ease of movement and standard top-class 148 hp engine on a Fiat-Ducato-Maxi chassis complete with large rear garage. With the Hymermobil B-Class SL, you can enjoy comfort and self-sufficiency in equal measure!

Hymermobil B-Class SL highlights

Superlative comfort

Further series highlights: Alde hot-water heating system, GRP roof coating, GRP underbody, lounge seats in cab, crank skylight, LED interior lighting, low-level night lighting

More information on the Hymermobil B-Class SL can be found at: www.hymer.com/b-sl

Illustrations for example purposes only.

Ideal undercarriage

The specially developed AL-KO lightweight frame with independent suspension forms the perfect basis for construction for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

For bulky luggage

The huge rear garage easily accommodates several bikes side-by-side. It also provides optimal storage for scooters or heavy, bulky items of luggage – up to an impressive 450-kilo laden weight.

Central locking system

The driver's door, entry door and both garage doors can be conveniently opened and closed via the remote control key fob. The central locking system also ensures that none of the doors are left accidentally unlocked.

Chassis highlight

The automatic front air conditioning system in the centre console of the dashboard maintains a pleasant interior climate while driving. And the onboard cruise control ensures a comfortable and safe drive at a steady, controlled speed.

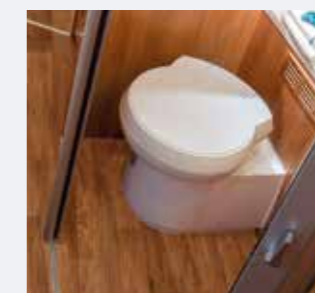

TV on the move

The modern, optional LED television set with 22-inch screen is optimally configured for motorhome requirements. Flat and lightweight, bright and energy-saving, anti-glare and anti-reflective, it provides great entertainment in the living area.

Water heating

The Alde hot water heating system supplies a very pleasant warmth and is equipped with convectors at various points including the dashboard. The system is also equipped as standard with an energy-saving heat exchanger.

Ceramic mod cons

All bathrooms are equipped with high-quality ceramic toilets – just like at home. Rollable for convenient transportation, the cassette tank is also readily accessible for easy removal and emptying – also available with optional pump-out system.

Restful sleep

The HYMER comfort sleeping system with high-quality disk-spring bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep.

Living and kitchen comfort

A perfect marriage of functionality and design.

Comfortable seating

The seating in the B 778 SL is upholstered in the Paradiso fabric design. The Hyermobil can be optionally supplied with front cupboards instead of the fold-down bed, or with an attractive sideboard in place of the right bench seat.

Intelligent storage

The B 778 SL is equipped with a floor-to-ceiling kitchen cabinet with larder unit which makes an excellent storage facility for provisions and kitchen utensils.

Handy pull-out shelf

Above the sink is an extremely handy electrically controlled and illuminated pull-out shelf for kitchen appliances, equipped with its own 230V socket.

Long bench seats

The comfort seating area in the B 778 SL comprises a 165 cm-long L-shaped bench seat with an extra-wide bench seat opposite – also optionally available in the Pebble leather fabric design.

Sleeping and bathroom comfort

Tailor-made for every aspiration.

Adjustable head end

The two generously dimensioned single beds in the rear of the B 778 SL are each equipped with an electrically controlled height-adjustable head end.

Variable reading position

The 150 cm-wide queen-size bed – in the stylish Trentino Pear Wood finish – is shown here in the reading position with angled head end and rear wall neck supports.

Tasteful down to the last detail

A wealth of attractive and practical details lend the bathroom of the B 778 SL a pleasant, welcoming atmosphere. Among these are the high-quality washbasin in luxurious Cool Glass.

Separable areas

The bathroom boasts a large standing area and ceramic toilet. A practical sliding door separates the bathroom from the living area.

HYMER DuoMobil

Made for two.

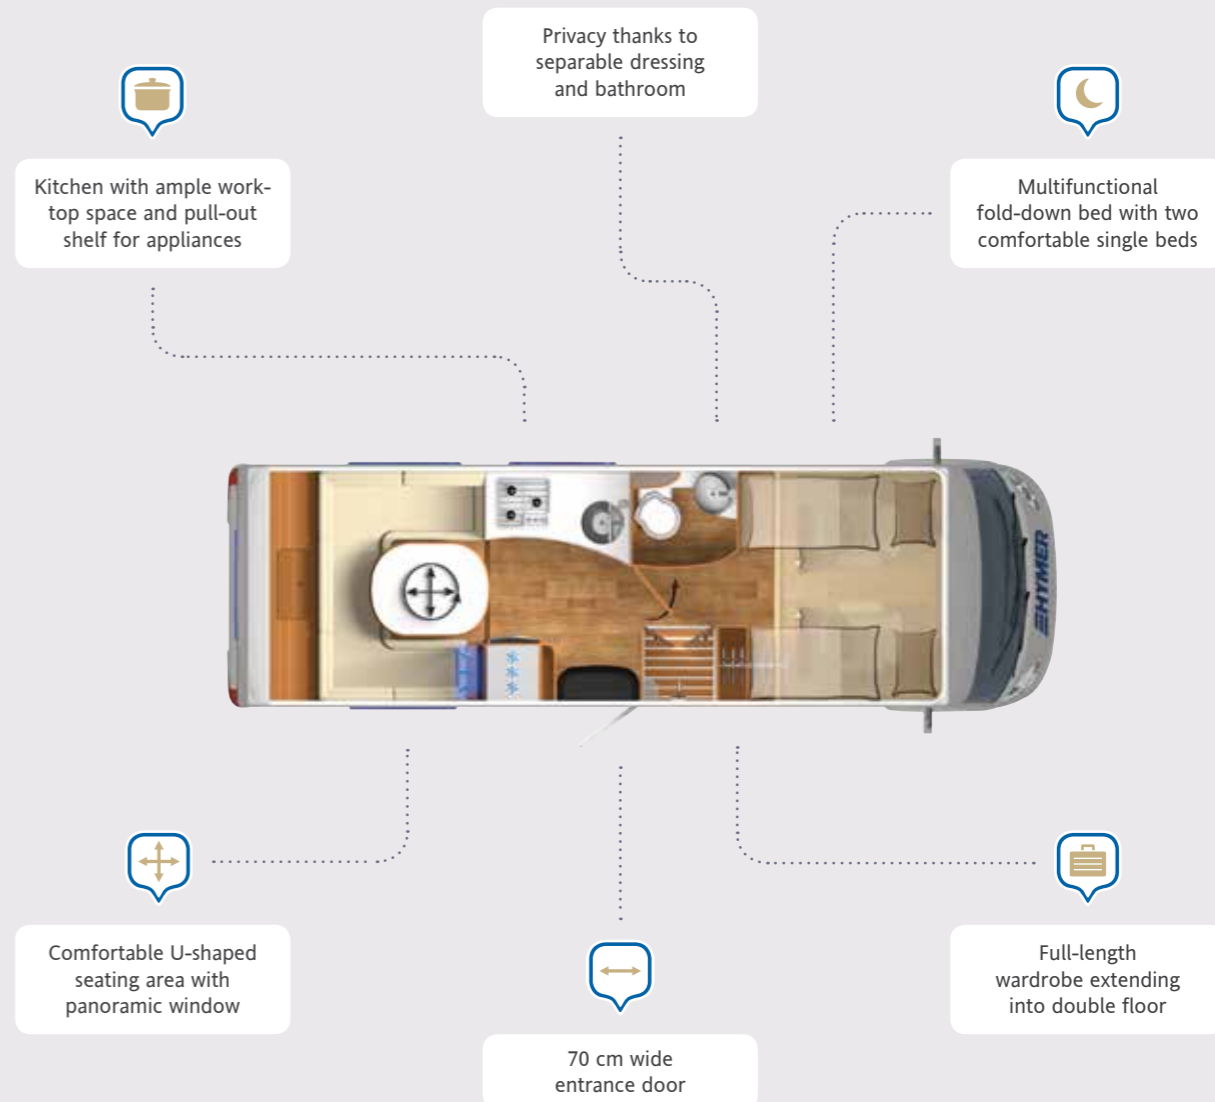

Developed in collaboration with the Schleinkofers, the HYMER DuoMobil offers a range of equipment features and functions which make it the ideal vehicle for a holiday for two. The new motorhome is based on the concept of a Hymermobil B-Class SL and thus comes with all its standard mod cons and key safety components. These include a multifunctional fold-down bed comprising two comfy singles, practical fittings in the kitchen, living and sleeping areas, and a separable dressing room and bathroom.

Technical data

The HYMER DuoMobil.

DuoMobil

Illustrations for example purposes only.

Ideal undercarriage

The specially developed AL-KO lightweight frame with independent suspension forms the perfect basis for construction for the motorhome body. Its optimally positioned wheelbase ensures equal weight distribution, even when the vehicle is fully loaded.

Improved visibility

Fog lights are fitted as standard to help you see more clearly in rough weather conditions with poor visibility due to rain, snow or fog. A warning light in the dashboard tells you when the fog lights are on.

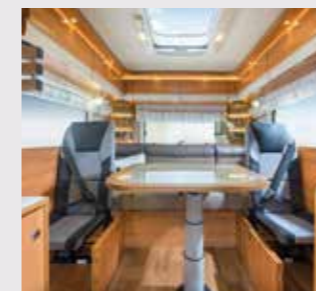

Protection from below

The indestructible GRP underbody gives the vehicles perfect protection against weather damage. Stone damage, grit and dirt are likewise kept at bay – a solid and lasting foundation for the entire service life of your motorhome.

Chassis highlight

The automatic front air conditioning system in the centre console of the dashboard maintains a pleasant interior climate while driving. And the onboard cruise control ensures a comfortable and safe drive at a steady, controlled speed.

More seating

The vehicle comes with provision for a third and fourth seat. That means two additional full-size seats can be added later on if required, turning the duo into a cosy quartett.

Natural light

The large crank skylight in the living area lets in plenty of direct daylight to create a pleasant, natural ambience in the interior of the vehicle. When it gets dark, uniform lighting is provided by the integrated LED spotlights.

Cleverly concealed

Integrated in the rear shelf behind the seating area is a laptop compartment with USB, 230V and 12V sockets. The compartment is large enough to accommodate electronic devices such as laptops, tablets, mobiles and cameras with chargers.

Restful sleep

The HYMER comfort sleeping system with high-quality disk-spring bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep.

Further series highlights: multifunctional fold-down bed with two single beds, 148 hp Fiat-Ducato-Maxi engine, floor-to-ceiling wardrobe, 70 cm wide entry door, 121 cm-high garage, GRP underbody, LED interior lighting, flat screen bracket

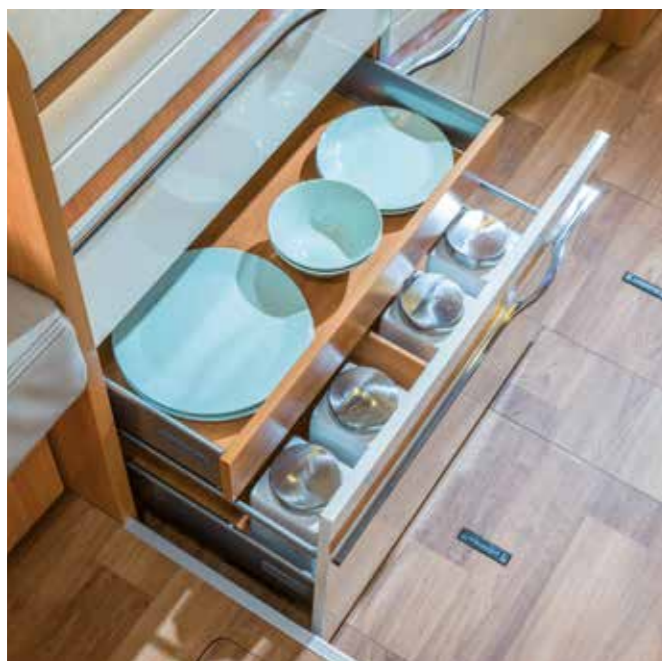

Living and kitchen comfort

Exclusive interior concepts and kitchen trends for two.

Large U-shaped seating group

The cosy U-shaped seating group in the rear offers plenty of space to relax, as shown here in the optionally available version with rounded corner cushions in Pebble leather decor (neck cushions also supplied on request). The large panoramic windows provide a great all-round view.

Intelligent drawers

The kitchen is equipped with extra-large, easy-to-load drawers. An electric locking mechanism prevents them from sliding open accidentally while on the move.

Plenty of cooking space

The practical arrangement of the cooking area (shown here with the optional hybrid hob) and sink unit leaves room for a large work surface in between.

Adjustable table

The large table can be rotated and adjusted as required for easier access to the seating. The tabletop can also be lowered to provide an optional guest bed.

Sleeping and bathroom comfort

For unique motorhoming holidays.

Restful sleep

In the front is a fold-down bed which can also be converted into two 206 and 199-metre-long single beds in a jiffy thanks to extending footrests. A clear glass roof vent ensures a constant supply of fresh air and natural light.

Premium bathroom

A ceramic Thetford toilet and the large washbasin in luxurious Cool Glass from the Hymermobil B-Class SL turn the bathroom into a high-class wellness suite.

Multiple rooms

A separate shower provides plenty of freedom of movement and comes as standard. A fixed door with a full-length mirror separates the wet room and sleeping area from the living area.

Easy access

An extending double step with hidden storage space inside provides easy access to the bed which, at just 97 cm high, leaves you plenty of headroom.

Hymermobil ML-I

Milestones of innovation.

The new Hymermobil ML-I is a classically stylish and agile integrated model in the 3.5-ton class with a Mercedes-Benz chassis, based on the lightweight design concept of the semi-integrated HYMER ML-T. Among its high points are the extensive standard safety package with state-of-the-art electronic stability control, sports-style safety chassis and optionally available 7G-Tronic automatic transmission. The living area is level throughout, from the cab to the rear. The handy 142-litre capacity Smart-Tower refrigerator is available as standard.

Light, slender and manoeuvrable thanks to an outside width of 2.22 m

All tanks and service installations insulated and heated

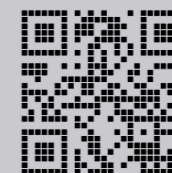

Single-level living area floor

GFK

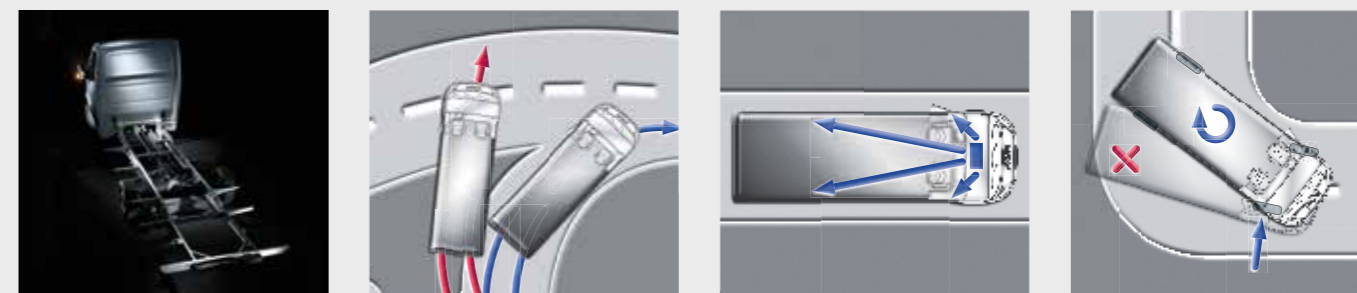

GRP lightweight floor with styrofoam insulation

Further series highlights: ambient lighting, fold-down bed over cab, Thetford hob and oven combination, GRP roof coating, LED awning light, LED interior lighting, Truma-CP-plus control panel, HYMER sleeping comfort system, multi-zone cold foam mattresses

More information on the Hymermobil ML-I can be found at: www.hymer.com/ml-i

Illustrations for example purposes only.

State-of-the-art electronic stability control

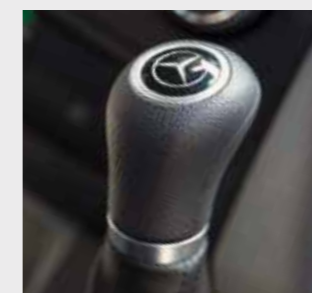

The Mercedes-Benz Sprinter based ML-I comes with an extensive safety package as standard. The electronic stability control system includes an anti-lock braking system (ABS), traction control system (TCS), electronic brake force distribution (EBD) and hydraulic brake assist system (BAS). Also included are the latest generation of the adaptive electronic stabil-

ity program (ESP), load adaptive control (LACS), roll-over mitigation and roll movement intervention (ROM/RMI), enhanced understeering control (EUC) and trailer stability assist (TSA). Even greater driving safety in wet and rainy conditions is ensured by the automatic brake disc wiping and electronic brake prefill systems.

Handy multi-taskers

The height and angle-adjustable swivel lounge seats in the cab are upholstered in the same fabric as the living area. The high seating comfort of the Aguti Ergoflex pilot seats is ideal for settling down to watch TV and for relaxed driving.

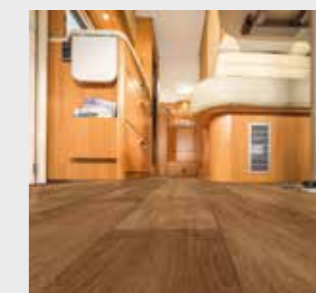

7-speed transmission

The optionally available 7G-Tronic automatic transmission guarantees a smooth drive. The seven forward gears prevent abrupt speed changes when shifting up and down to keep the engine within a fuel-efficient rpm range.

Power package

The Hymermobil ML-I can be optionally equipped with a highly efficient power package comprising two additional, easily accessible batteries including an extra charger in the exterior locker door.

Level living area

All Hymermobil ML-I layouts have a level floor throughout the living area, unimpeded by raised sections. That way none of the headroom is lost and there are no obstacles to trip over, especially in the dark.

Living and kitchen comfort

A perfectly coordinated living space.

ROHLEDER
DIE HITEX MANUFAKTUR

Snug living area

The stylish seating area in the ML-I 620 is available in the Palatino cream furniture finish and Aureus fabric combination, and is pictured here in the optional L-shaped version.

A superior combination: the Aureus style collection has recently seen the addition of the fabric brand Q2 from the textile manufacturer ROHLEDER, whose upholstery and curtain fabrics are made exclusively in Germany. Q2 is made from Hitex® yarns specially developed for ROHLEDER, making it easy to clean, extremely durable and highly light-resistant. Q2 fabrics are also skin-friendly and suitable for allergy sufferers.

Extendible work surface

The modern kitchen is equipped with large drawers and numerous overhead lockers. The worktop can be readily extended to give you extra space.

Modern corner kitchen

A Smart-Tower refrigerator (142-litre), the floor-to-ceiling larder unit and an optional oven are all accommodated in the generous corner kitchen of the ML-I 620, shown here in the optional Palatino apple cream furniture finish.

Ample seating

The semi-dinette of the ML-I 580 seats up to four people thanks to a table with swivel extension, and is shown here in the Trentino Pear Wood furniture finish plus Santorin fabric design.

Sleeping and bathroom comfort

A linear aesthetic coupled with modern charm.

Comfortable sleeping oasis

The comfortable single beds in the ML-I 580 and 620 also come in a low-level version for easier access. On request, the single beds can be converted to a giant sleeping oasis via an additional cushion.

Comfortable fold-down bed

The ML-I has a highly comfortable and convenient 150 cm-wide fold-down bed above the cab which lowers right down and is firmly supported. A sturdy stepladder allows easier access to the bed area.

Versatile bathroom

The attractive bathroom in the ML-I 620 can be separated off completely from the living area. Both the bathroom/toilet and shower area can also be used separately.

No more wet feet!

The separate shower screen in the ML-I 560 has multiple advantages: you can open it for more freedom of movement in the comfort bathroom or close it to keep things dry outside.

Hymermobil StarLine S

The star among motorhomes.

The Hymermobil B-Class Mercedes justifiably bears the name StarLine. The exclusive motorhome scores with its comprehensive standard equipment and well-planned spatial designs and meets the highest motorhoming standards. The combination of Mercedes-Benz chassis and engine power and the typical HYMER high-tech body in PUAL design plus GRP roof and floor gives this model a distinctive edge. And not only that: when it comes to roadholding, flexibility and range, interior ambience, winter-resistance and heating comfort, the Hymermobil StarLine S definitely gets an extra star.

Hymermobil StarLine S highlights

Premium integrated model with exclusive comfort.

1 ton payload

19-inch LED flat-screen incl. DVD drive

Electric roller blinds on front windscreen

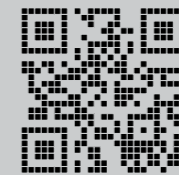

Mercedes-Benz rear-wheel drive

Mercedes-Benz 7-speed automatic transmission

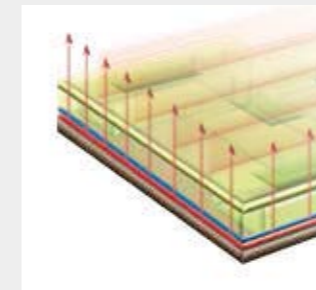

Mercedes Benz 190 HP 6-cylinder diesel engine

Further series highlights: GRP roof coating, GRP underbody, double-glazed windows in driver and passenger doors, low-level night lighting, electric roller blind on front windscreen

More information on the Hymermobil StarLine S can be found at: www.hymer.com/starline

Illustrations for example purposes only.

Double floor

Underfloor heating, a frost-protected service cavity and an additional heated storage compartment are all-inclusive thanks to the proven, 12.5 cm thick multipurpose double floor with hot-air nozzles between the upper floor surface (3 cm) and underfloor (3.5 cm).

Chassis highlight

The onboard cruise control system ensures a comfortable and safe drive at a steady, consistent speed. If the set speed is exceeded, the driver is alerted by the integrated Speedtronic device. And a pleasant climate is ensured by the Tempmatik front air conditioning system.

Five passengers

The additional bench seat next to the entrance door in the StarLine S is available in a special version on request. It can be easily converted into a fifth seat with an integrated three-point seatbelt.

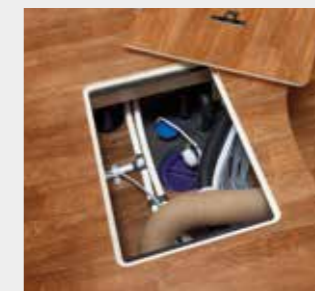

Onboard power supply

The Waeco sine wave inverter provides a reliable continuous output of 1,800 watts for the 230V on-board mains supply. By giving priority to external power supplies where available and switching to sleep mode when consumers are not in use, it saves energy and relieves the on-board battery.

Water heating

The Alde hot water heating system supplies a very pleasant warmth and is equipped with convectors at various points including the dashboard. The system is also equipped as standard with an energy-saving heat exchanger.

More independence

The large water tanks mean you can go further before you have to fill up again, giving you more freedom and spontaneity. The fresh water tank in the double floor holds 170 litres, the grey water tank 140 litres.

Chilling space

The jumbo refrigerator is part of the standard kitchen equipment. With a capacity of 160 litres and a separate freezer compartment, it can be relied on to keep even large quantities of groceries fresh.

Living and kitchen comfort

Quality to indulge all your senses.

Stylish leather design

The seating combo of the StarLine 680 S is presented here in the exquisite Pebble leather decor, coordinating perfectly with the stylish, high-gloss furniture flaps. The versatile luxury table with real wood frame can be rotated through 360 degrees, adjusted vertically or horizontally and readily extended.

Fresh provisions guaranteed

The 160-litre Jumbo refrigerator with separate freezer compartment offers plenty of space for food supplies, while the corner kitchen impresses with its extra-deep drawers.

Elegant down to the last detail

The elegant kitchen unit in the StarLine 680 S boasts a large, low-level work surface, semi-circular ceiling-height glass cabinet and easy-care solid surface worktop.

A taste of paradise

The living area in the StarLine 680 S – shown here in the Paradiso fabric design – is a highlight in visual terms alone, and comes with optional all-round, high-capacity overhead lockers at the front.

Sleeping and bathroom comfort

Timeless modern design for uncompromising travelling comfort.

Comfortable sleeping quarters

The sleeping area in the rear of the StarLine 680 S is equipped with two comfortable single beds and all-round overhead lockers. Fixed steps with an extra-large tread allow safe and convenient access.

Ample headroom

The 150 cm-wide, fully usable surface of the lowered fold-down bed allows a good metre of headroom.

Stylish glass design

The high-quality washbasin in superior Cool Glass is attractive, extremely robust, durable and easy to clean, with a porcelain-like look and feel.

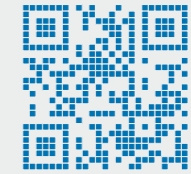

Separable areas

The bathroom in the StarLine S can be separated off completely from the living area, and the bathroom/toilet and shower are also separable. The ceramic toilet is top-class.

HYMER Original Parts & Accessories

A perfect match.

You can find the full range of HYMER original parts & accessories on the internet at: www.hymer-original-parts.com

Discover the wide range of innovative solutions available in the categories interior, exterior, chassis system, travel and transportation. With HYMER original accessories, you can rest assured you've made the right choice: a perfect fit, impeccable workmanship and original quality. HYMER original parts and accessories are not available direct from the factory, but are ordered and retrofitted exclusively via your HYMER dealer.

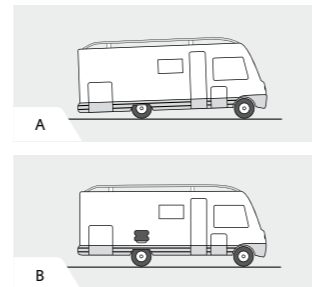

Don't forget your bike!

Exclusive bicycle rack system for the HYMER rear garage. Takes just seconds to install. Probably the smallest and lightest model bike rack in the motorhome sector, it offers the same security as conventional models without needing a support rail.

The HYMER e-bike

The 20-inch HYMER e-bike is supplied fully equipped. Included in the price are e.g. a large battery (BOSCH GEN 2 Active Line 400 Wh), sprung seat post, Ortlieb bag in HYMER design with Quick Snap fastening and ABUS combination lock. Besides a dead weight of just 21 kilos, the HYMER e-bike boasts ergonomic grips, wide tyres, folding pedals, folding handlebars and a battery range of up to 105 km plus LED lights, making it a genuine premium product.

A level position

(A) If your HYMER motorhome is exposed to too much strain, e.g. due to heavy loads, this can lead to the situation pictured here. (B) The additional Goldschmitt air springs raise the rear of the vehicle to ensure adequate suspension travel.

A perfect fit

Cut-to-fit, high-quality front seat floor mat made from polypropylene tufted velour with nubuck edging. Stamped with the Original HYMER branding.

An individual touch

With their simple elegance and huge load-bearing capacity, HYMER aluminium rims made by Goldschmitt not only enhance the appearance of your motorhome, but are also ideal for increasing the weight rating.

Windscreen cover

Cover in ultra-light, weather-resistant PVC-coated mesh fabric for sun protection and privacy. Fits perfectly and looks great.

Winterproof

The three or four-part interior insulation for the cab consists of an 8 mm thick insulating foam mat which seals tight to the contours of the window. The mats have rubber suction pads for quick assembly and removal.

All on board

The flexible storage space system developed exclusively for HYMER keeps the garage well organised and saves you the hassle of climbing inside for loading and unloading.

Rear vision

The new reversing camera is elegantly integrated into the third brake light and painted in the same colour as the bodywork. It provides optimal visibility even at night, thanks to infrared sensors (single or dual camera available).

Great entertainment

The exclusive HYMER Blaupunkt-Bodensee is a fully equipped multimedia device whose standard features include DAB+, the latest navigation software, promobil Parking Finder and much more.

Well covered

You can tell an original HYMER seat cover from its optimal fit. The covers are machine-washable with a pocket at the back, and are available in beige and graphite.

For young sleepyheads

Measuring 150 x 70 cm, the new HYMER child's bunk provides an extra berth and can be easily fitted in the Fiat cab.

Like sleeping on air

The new Visco-Elastic foam specially developed for the HYMER mattress topper is air-permeable and reacts to even the lightest weight, moulding perfectly to your body.

Made to measure

You can tell an original HYMER fitted sheet from its optimal fit. Available for all bed versions, the sheet is pleasantly soft to the touch and is washable at 60 degrees and dryer-safe.

Sleep in style

The new HYMER bed linen by ESTELLA consists of top-quality Egyptian cotton (non-iron interlock jersey). It is available in a choice of two designs to match the colour scheme of the HYMER interior.
