

SunnCamp

2015

Here at SunnCamp, we believe our awnings and tents offer more than just temporary living space, they offer a temporary home with comfort and security.

We've dedicated ourselves to producing the best range of meticulously designed, brilliantly well-made and fantastic value awnings, tents and motor awnings.

Whatever your style we've got an awning or tent for you, and what's more we've got fantastic products at affordable prices.

Finally, as a long established company, SunnCamp can draw on the expertise developed supplying products for more than 30 years.

As an independent organization, we are free to focus on products that will give you the best outdoor experience.

We are very proud to be the Winner of the much acclaimed award from **Practical Caravan Magazine:**

Tourer of the Year Awards 2014 : Winner Awnings.

SunnCamp's Defences Against the Elements

MAXIMUM PROTECTION

See individual entry for details

75D Polyester Flysheet

A quality fabric providing a standard level of protection from all weather conditions and ultra violet light. Fabric complies with latest British Standard Flame Retardant Regulations.

150D Oxford Polyester Flysheet/Roof

A high quality extra strong fabric (twice as thick as most flysheets) providing improved protection from the weather and UV light. Fabric complies with latest British Standard Flame Retardant Regulations.

150D Oxford Ripstop Flysheet

A high quality extra strong fabric (which is twice as thick as most flysheets) woven using a special reinforcing technique where reinforcement threads are woven at regular intervals in a crosshatch pattern making this fabric resistant to tearing and ripping as well as offering increased protection from the weather and UV light. Fabric complies with latest British Standard Flame Retardant Regulations.

300D Oxford Ripstop Flysheet/Roof

A high quality extra special fabric (which is four times as thick and strong as most flysheets) woven using a special reinforcing technique where reinforcement threads are woven at regular intervals in a crosshatch pattern making this fabric resistant to tearing and ripping as well as offering increased protection from the weather and UV light. Fabric complies with the latest British Standard Flame Retardant Regulations. This heavier weight fabric provides a greater barrier to UV.

300D Oxford Polyester Roof

A high quality extra strong fabric (which is four times as thick and strong as most fabrics) used on the roof of certain products to give extra protection from the Weather and UV light.

Acrylic Flysheet

A heavy duty hard wearing 280gm/m² polyester fabric with an acrylic coating.

Hydrostatic Head

Indicates the level of waterproof coating applied to our fabric to ensure your tent or awning is waterproof. The British Standard for fabric to be classified as Waterproof is 1500mm.

Taped Seams

Seams have been heat sealed with a polyurethane tape to give extra waterproof protection.

Storm Buckles and Storm Straps

Storm buckles and storm straps are provided as standard on all Air Volution products. Storm Buckles are provided with some larger awnings and are compatible with SunnCamp's Awning Tie Down Set (Code DT0051).

Storm Pole Pocket

Certain 2015 SunnCamp Air Volution awnings and tents have an integral storm pole pocket and when used in conjunction with our optional upright poles (DT0052) can be used in certain conditions to aid stability and help water dispersal.

Attention to Detail – Ultimate Comfort, Enjoyment and Peace of Mind

Materials used for manufacture comply with latest British Standard Regulations for Tents and Awnings

Heavy Duty Zips

Heavy duty SunnCamp zips are used throughout our range of products.

Quick Lock Brackets

Our Quick Lock Brackets make pole adjustment quick and effortless and are used on many of our products. Simply release the locking lever and adjust the pole to the correct height or length and lock the lever downwards.

Airflow Doorway

A separate ventilated mesh panel incorporated behind a door panel. This can be rolled back or zipped in place to aid airflow and reduce condensation whilst keeping bugs out.

Cable Entry Point and Tidy System

A zipped entrance allowing a mains lead to run safely into your tent. The cable tidy system which consists of velcro fastening points allows the cable from a mains powered light to be stored safely. Included in all SunnCamp tents.

Daylight Panel

Where necessary products have been designed with a Daylight Panel (light colour fabric over the living area) enhancing light access.

Hi Visibility Guylines

High visibility SunnCamp guylines are used throughout our range of products. Guylines are pre-attached for convenience.

Draught Skirt

PVC or PE draught skirts (varies) are included as standard with all Porch Awnings (not included on Swift Canopy).

Sewn in Groundsheet

SunnCamp tents and some motor awnings come with a sewn in groundsheet system offering protection from insects, dust, the elements etc.

Dual Beading

Our Strand range of Porch and Motor Awnings are supplied with two diameter beading (6mm & 4mm) for awning channel or wind out canopies.

Rear Weather Pads and Poles

SunnCamp porch awnings come as standard with Rear Weather Pads (not included on Swift Canopy). Rear Weather Pad Poles come as standard with most 2015 awnings and can be bought as an optional extra where they do not. Check catalogue entry for details.

Colour Coded Poles and Sleeves

Where a product has different length poles, to aid set up, our poles and sleeves are colour coded.

Veranda Option

Certain 2015 awnings come with a veranda option which allows you to fold the panel of your awning over a veranda pole to give a veranda effect. Simply locate the veranda pole provided in the pockets in the relevant panel. Additional veranda poles can be purchased from your stockist (DT0091).

Black Out Inner Tent

With the exception of the front panel, the inner tents have been manufactured in a special blackout fabric to ensure you get a great nights sleep.

Curtains / Deluxe Traditional Curtains

All awnings and tents come as standard with Velcro fastening or zipped curtains. In some models we have Deluxe Traditional Style curtains which come with top and bottom attachments.

Air volution

POLE FREE INFLATABLE PITCHING

SunnCamp's Inflatable System for Awnings and Tents that provides effortless comfort and quality.....

In place of conventional poles, SunnCamp's Air Volution products are pre-fitted with durable air tubes. An Air Volution Inflator Pump is provided as standard with all Air Volution Tents and Awnings. By simply attaching the Inflator Pump to the air tubes and with a few pumps to the correct pressure (5psi) your awning or tent is ready for use.

Air Volution Advantages

- Quick, simple and effortless pitching and take down
- Robust maintenance free inflatable tubes replace conventional poles
- Products can in most cases easily be erected by one person
- In the event of accidents or if replacement parts are required due to wear and tear, Air Volution components such as tubes and valves can be easily replaced
- Free Air Volution Inflator Pump with Gauge and Safety Dump Valve included with all Tents and Awnings
