

2014 Collection. 100% new interiors.

RAPIDO 

Turn your dreams of travel into the journeys of your dreams!

From the delicacy of Brittany's hidden nooks to the Norwegian fjords and the natural splendours of lands even further afield... our dreams of travel remain eagerly full of anticipation of the unexpected and new discoveries. These dreams sleep within us, prisoners to the thought of « perhaps, one day? ».

So let yourself be carried away; dare... Because, after all, « a journey of a thousand miles always starts with a first step » (Lao-Tseu*). There are also more and more people who dare, dare to leave their native land or set aside their daily lives. A whimsical voyage for some, a carefully planned route for others... No matter, the aim is the same: to turn your childhood dream, your lifetime's dream, your innermost dream, into a realisable adventure. And then you are really bitten, because, once you have tasted the delight of succumbing to your dreams, you can no longer live without it.

Paris-Beijing-Istanbul participants embarked on an amazing journey across Mongolia, Siberia, Turkey, Uzbekistan, and beyond 100 days, 30,000km and 12 countries: an amazing trip encompassing half the world, and a dream come true.

RAPIDO was part of this amazing adventure, it has been the Official Motorhome Partner for each race: Paris-Beijing-Paris in 2010, Paris-Beijing-Istanbul in 2012 and 2014.

And as for Stéphane Peterhansel, winner of Dakar 2013, he too has adventure-tested RAPIDO by sleeping in an 883M every night. He welcomed the unrivalled comfort and beneficial rest it offered during a merciless 8,000km rally across South American deserts.

Turn your dreams of travel into the voyages of your dreams. This is the vision through which RAPIDO motorhomes regale us with what makes them unique: a warm ambience, the highest level of standard equipment in its category, technical expertise in construction and high quality of manufacture. To cross countries and continents with peace of mind, you would do well to choose a motorhome that is reliable and top-of-the-range from among the eight series in the 2014 Collection. The collection shares a common DNA: the elegance of solid wood, the splendour of LED-lit spaces, and the comfort of well insulated, spacious interiors. This new generation of interiors once again hints at the dream journeys of tomorrow.

Excellent trips!

*Chinese philosopher (6th – 5th century BC)

RAPIDO, more
than ever
THE brand

At a time when distinguishing marks are being erased on a blossoming motorhome market, RAPIDO presents, more than ever, the virtues of a reliable, wellknown brand, engaged in a continuous quality improvement process.

Our customers are loyal, and many are on to their second or third RAPIDO. The brand also stands out in the second-hand market as its resale value is higher than that of many other models.

A warm ambience, attention to detail: our values have not changed. This year, they have transcended elegant interior guidelines. From the noble aspect of solid wood to the nautical feel of the lockers in the living room, RAPIDO is still the leader.

An unparalleled warm ambiance

At RAPIDO our reputation is founded on the enormous importance we attach to providing a comfortable and cosy environment, an ambience that has been modelled and remodelled over time and has benefited from the close attention RAPIDO pays to customer feedback. Our ever-busy R&D teams strive to create truly luxurious yet cosy interiors that are ergonomically tested and based on notions of well-being, with materials soft to the touch...

This year, the 2014 Collection will offer new furniture ranges. From Series 6 upwards, our prestigious Elegance furniture is offered in solid wood. Or you might choose Montalcino furniture with its modern and bright range of colours. The living rooms and bedrooms enjoy energy-efficient LED lighting technology which creates a superb effect.

ALL NEW!

All the furniture
and material ranges
are new!

The 2014 Collection is truly a return to Rapido's core values, with high quality new furniture. You have a choice between classic or modern styles which will satisfy all your desires.

Inside the living areas, real wood is used alongside leather, chrome and brushed aluminium in both the Low-Profile and the A-Class ranges. RAPIDO uses solid maple wood for several of its furniture ranges, giving the elegant and stylish touches that make the brand. On ledges, steps and door frames, tables or kitchen work surfaces (depending on the model), RAPIDO thus stamps its mark, signing off with a wooden flourish as it has done for 50 years. The shades of the wooden furniture are carefully selected so as to blend harmoniously with the interior styling and the other materials used. For the luxurious 9MH Design Edition Series, RAPIDO has even collaborated with an interior designer of yachts, to create a unique, nautically-inspired ambiance. Once again, RAPIDO sets the tone ❶. RAPIDO interiors - elegant cocoons bathed in light - also owe their distinctive ambiance to the subtly distributed 100% LED lighting ❷: a ceiling light casting a gentle glow in the bedrooms, sunken LED's in the dinette's wall, ambient lighting on dimmers in the living room, an opening roof, living room entrance door with window, etc (depending on the model and series).

ALWAYS MORE REFINEMENT: A NEW EXCLUSIVE AMBIANCE Design Edition

The 2014 Collection consists of 9 'super-equipped' Design Edition models, refined symbols of luxury with the RAPIDO hallmark: 7065FF (ALDE), 7091FF, 9090dF (with or without Alde), 9000dFH, 9005dFH, Serie 10 Design Edition, Serie 9MH Design Edition. These models offer the opportunity to enjoy an exceptional and rare motor home of the kind not often seen on the highways and byways... The interior decor reflects the range's exclusivity and is enhanced by a multitude of elegant details ❸. Soft LED lighting casts a gentle glow against the bedroom ceiling ❹; Real wood veneer, together with multi-coat varnished solid wood worthy of the most luxurious yachts, adorning the kitchen and the living room...

The 9 models are equipped with Miami ambiance (Leather/Teq), with elegant shades of brown and beige ❺, and visible selvedges. Fabric and leather upholstered

chairs, ambient lighting, imitation stone kitchen bench, mouldings, mirrors, the style is pure elegance, as befits the owners. Offering a luxurious environment created using noble materials and sensitive lighting, the RAPIDO Design Edition models transform the act of travelling into the art of travelling.

CUSTOMISE YOUR LIVING ROOM

RAPIDO has dreamed up several ambiances for your interior, all of them full of warmth and softness. On the Series 6/6FF, 7dF, and 70FF low-profile models and the Series 8M/8F and 9dF A-Class models, all you have to do is design the style you like by combining one of the 10 fabrics and leathers of your choice with one of the 2 furniture styles: ELEGANCE ❹ and MONTALCINO ❷. For an elegant or resolutely modern luxury interior.

To select your fabric:
> see Page 98.

Comfort

BEDDING: ONE OF THE BEST BENCHMARKS

The bedding is one of the make's strong points. Particular care is taken to offer you optimum density foam with **the Bultex® label**.

130mm-thick Bultex® mattresses on the 9090dF, 9000dFH, 9005dFH, Serie 10 Design Edition and 9MH Design Edition models.

Its advantages:

- ① Bultex® label.
- ② Aluminium frame bed with wooden slats, providing comfort and constant ventilation.

The entire range enjoys an even higher level of finish with springs and flexi-attachments on the slats. By selecting Rapido bedding, you are choosing a level of comfort that is among the highest in the motorhome market.

THE RAPIDO A-CLASS MODELS ARE DEVELOPING TECHNICALLY AND SEEING THEIR STANDARDS OF COMFORT ADVANCE:

- ① The underside of the cab bed in the A-Class models is fitted with a new generation of built-in roller blinds, electric on 9000dFH, 9005dFH, Serie 10 Design Edition, Serie 9MH Design Edition and manual on the Serie 9dF, Serie 90dF.
- The cab beds on the A-Class Serie 10 Design Edition are electrically operated.
- ② The bed over the garage in the 803F and 9083dF is manually height-adjustable.
- The central beds are height-adjustable on the 9090dF, 9000dFH, and 10001 Design Edition.
- ③ The 7091FF, 790dF and 990dF come equipped with a jack-assisted mechanical adjustment system to tilt the bedheads simultaneously. You can keep yourself sitting up in bed quite comfortably to read or to watch a film. The adjustment mechanism also enables you to push the bedspring back to free up exceptional bedroom space.

Practicality

1

2

3

1 In the garage, an external shower with hot and cold water is provided as standard (available as an option on 6/6FF and 8M/8F; Option / Pack RAPIDO Series 7dF, 70FF, 9dF).

2 The bathroom provides several types of storage (shelves, cabinets with sliding doors) depending on the model, and comes equipped with a large mirror throughout the range.

3 On some models, skylights increase the height of the shower to maximise space. On others, the shower column is in thick, ergonomic, and design Plexiglas®.

4 Models with a central bed (except the Series 6/6FF and 8M/8F) are equipped with a bag for your dirty laundry, accessible from the shelf beside the bed and also from the garage.

5 The kitchens have become more practical and sophisticated, with a chromed metal spice rack and kitchen roll holder (except for Serie 6; Serie 8). Depending on the model, they also come equipped with self-closing and central locking drawers to avoid them opening accidentally during the trip.

6 The Series 7dF, 70FF, 9dF, 90dF/dFH and 10 Design Edition offer a highly practical serving hatch (depending on model).

On the 666, 7066FF, 866F, 9066dF (except ALDE version), You have the choice between high or low twin beds (to be chosen when placing your order):

- 7 high twin beds for a large 120 cm garage,
- 8 or low twin beds for easy access to the sleeping accommodation with 80 cm high storage (or 66 cm on the 666) and wardrobes above the beds.

4

5

6

866F

7

SOG SYSTEM: FOR CLEAN AND ECO-FRIENDLY TOILETS

No longer any need to use chemicals in the toilets. This system ensures environmentally friendly, clean and healthy use, without odours in your toilets. A fan creates low pressure in the sewage tank, causing fresh air to be drawn through the shutter opening. This influx of fresh air prevents the gas that causes bad odours from rising up into the toilet and the oxygen provided causes the sewage to decompose so quickly that there is no longer any need to add chemicals. Standard on Series 10 Design Edition.

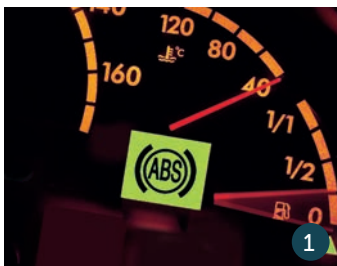

666

8

Standard equipment: an abundance of riches without equal

The standard equipment provided in RAPIDO vehicles is remarkably extensive, and the level offered is without doubt the highest available on the market in each class.

9

8

SAFETY

1 ABS (Antilock Brake System)

As standard on all the Series. This prevents the wheels from locking during braking, optimises stopping distances and, above all, ensures that the motorhome can continue to steer.

ASR (Anti Slip Regulation)

When there is loss of traction, this anti-skid system brakes the drive wheels to restore traction (Standard on 8M, 9MH Design Edition).

ESP (Electronic Stability Program)

ESP is an anti-slide system capable of braking one or more wheels to return the vehicle to its centreline. (Standard on 8M, 9MH Design Edition, option on the rest of the range FIAT except for the 900dFH, 9005dFH and the 10 Design Edition series).

SAFETY BELTS INTEGRATED ON ALL THE SEATS IN THE A-CLASS SERIES

RAPIDO has chosen to fit all the cab seats in the A-class series with retractable safety belts with the receiver built into the seat. This enables the belt to adapt better to everyone's shape.

2 BELTS FOR THE REAR PASSENGERS

The models with seats facing the road, including several side benches, are fitted with belts in the rear. Therefore all the models are fitted with at least four 3-point seatbelts.

3 DRIVER'S AIRBAG

A driver's airbag is available as standard on all the models in the range.

AIR CONDITIONING

Cab air conditioning is available as standard throughout the range, enabling

you to concentrate on your driving even in hot weather.

4 EXTRA-WIDE REAR TRACK

All the models in the RAPIDO Fiat and Fiat AL-KO ranges are fitted with an extra-wide rear track providing better stability on the road. Greater comfort and safety.

TECHNOLOGY

5 USING GAS WHILE DRIVING

The FAVEX® system (electrically controlled with an automatic inverter) enables you to use gas, even while travelling, to heat the living area or the water installation (not available in Series 6/6FF, 70FF, 7dF, 8M/8F and 9dF, which are equipped with Truma CS Dual Control).

6 REVERSING CAMERA: AUDIO - DAY AND NIGHT VIEW - HEATED - ADJUSTABLE

The Series 70FF, 90dF/dFH, 10 Design Edition and 9MH Design Edition have the benefit of a reversing camera.

The Series 6/6FF, 7dF, 8M/8F and 9dF have pre-cabling installed. The camera is connected to a screen with built-in speaker, built into the dash board. The driver can therefore hear the instructions being given by someone behind the vehicle! Manoeuvring has never been so easy!

7 AUDIO AND VIDEO EQUIPMENT: JUST LIKE BEING AT THE CINEMA!

The Series 90dF/10 Design Edition/9MH Design Edition models are equipped, as standard, with the PIONEER® Multimedia Station: DVD MP3 DIVX/USB/ reversing camera.

This hi-tech product is built in to the dashboard and fitted with a highdefinition LCD 2 DIN colour screen with a 5.8" (14.7cm) LCD screen and touch screen user interface. The AV station is equipped

with a USB socket on the front and a reversing camera input.

This enables you to:

- > play DVDs via its « DVD player » function,
- > listen to the radio, RDS AM/FM tuner,
- > listen to your own selection of music via its IPOD or MP3 connection via USB or SD Card.

8 STANDARD INITIAL EQUIPMENT: DOUBLE CABLING FOR DVD

RAPIDO goes hand in hand with innovation. Nowadays, the radios fitted in RAPIDO models can play DVD films (Series 90dF/dFH; 10 Design Edition; 9MH Design Edition): for this purpose RAPIDO has run an audio-video cable from the dashboard to the TV cabinet. And a second audio-video cable enables you to connect a DVD player near the TV cabinet.

9 100% LED LIGHTING

All of the 2014 Collection vehicles come equipped with 100% LED internal lighting to illuminate your evenings: energy-saving, recyclable technology with adjustable brightness. The LEDs enable the energy consumption to be divided by 10. On the models in the 10 Design Edition series, 9MH Design Edition series, you can alter the ambience lighting at will. Specific lighting is also offered so that you can walk around at night without inconveniencing your spouse or your friends.

PAYLOAD INCLUDING EQUIPMENT

Rapido kerb weights include the weight of standard equipment. Clear information and optimal payloads: RAPIDO designs and manufactures vehicles which boast the maximum optimisation of their weight and payload so you can carry everything you want.

1

Technical innovation in RAPIDO's genes

From the innovative materials to the principles of an intelligent design, RAPIDO is setting the technical standards today for the motorhomes of tomorrow.

2

An exclusive manufacturing method.

3

On the outside: RAPIDO bodywork makes all the difference

Our R&D department strives continuously to find innovative solutions (materials, technologies...) to deliver the very best to RAPIDO customers.

The bodywork is designed to be, at the same time, robust and classically elegant, using materials such as Polyester Polyglace®, and developed to ally style with ergonomics. The whole range is equipped with skirt and rear pillars (depending on the model) in « Champagne Gray » colour. ❶ Three series are distinguished by the attractive « silver grey » of their bodywork, together with silver grey skirt and rear pillars for the 9MH Design Edition A-Class models, and metallic silver grey cabs, skirt and rear pillars for the Series 7dF and 70FF.

GEL COAT: REINFORCED PROTECTION

❷ For some years now, RAPIDO has been using a « high-tech » gel-coat material, which protects your motor home's bodywork from climate damage, and especially UV. The quality of this resin (gel-coat) is essential. It gives your camping-car its long life, its watertightness and its brilliant look.

100% POLYESTER INCREASED HAIL RESISTANCE

RAPIDO uses polyester on its vehicles' panels and roofs. Thanks to this, the entire range offers excellent hail impact resistance (which is not the case with metal walls and roofs), as well as resistance to scratches and small impacts.

> Did you know?

Polyester bases for the entire range? RAPIDO has them! Providing great protection against the cold, weather and salt, RAPIDO motorhomes are made to last.

Another example: the internal faces of the garage doors are in polyester, to absorb any impacts when handling tables, chairs, bicycles, etc.

This is why RAPIDO chooses polyester for every one of its models.

> Did you know?

How can you spot polyester bodywork? Put your hand on the vehicle. Unlike metal or wooden bodies, RAPIDO panels are not cold. Can you feel your hand's warmth? That proves it is a polyester panel!

PERFECTLY WATERTIGHT WITH A WATER-RECOVERY ROOF

❸ Most of the range is fitted with a roof covering all edges to ensure perfect water-tightness.

With our new factory, our quality checks have been boosted. This means that every vehicle, as it leaves the production line, passes through a water jet tunnel to test the water-tightness of the openings.

WELL-PROTECTED BODYWORK: STYROFOAM AND POLYURETHANE

> Did you know?

Based on its long experience as a motor home manufacturer, RAPIDO builds the living areas of its vehicles with very particular attention to detail on the insulation with the use of a material, Styrofoam, which possesses high insulation values and recognised lightness properties.

> Did you know?

Styrofoam ❶ protects bodywork from the cold, and polyurethane ❷ protects it from impacts and damp. On all the vehicles in the 2014 Collection, RAPIDO has used polyurethane to replace the wooden frame around the bodywork in areas which are more exposed to the weather. Depending on the series, this is found on the cleats around the vehicle (roof, sides, floor), on the entire range's floors and depending on the model, the frames around the living area entrance door and the cab windows, etc. Rot-proof, light and extremely solid, polyurethane gives RAPIDO bodywork a longer life than those produced by some other manufacturers.

On the inside: technical expertise dedicated to your comfort

ADAPTABLE LIVING ROOM TABLES: A MOVE IN EVERY POSSIBLE SENSE!

The living room space must be well-designed for easy movement around the table. The living room tables are designed to enable you to travel quite easily from the cab to the kitchen:

The tabletop moves forward and back, sideways and also rotates.

On the low-profile models (except for the 6FF and 70FF), the tabletop is on a telescopic leg to provide an occasional berth.

On the A-Class models, the leg is fixed (telescopic on 9000dFH, 9005dFH, the Series 10 Design Edition and 990MHV Design Edition).

FRONT-FACING SEATS: MODULAR SEATS

To comply with our customers' wishes, RAPIDO has developed new bench seats with modular seats.

From the "Living room" position around the table, you can reconfigure the seats so that they can be used facing the road with a seat belt during a trip. With just a few manipulations, you can modify your bench seat to suit your particular requirements.

Simple, easy-to-handle bench seats!
Swipe this code with your Smartphone to see them.

Do you need help reading the QR Code?
See Page 17.

FURNITURE ASSEMBLY: THE HERITAGE OF A CABINETMAKER FOUNDER

Based on its experience in traditional joinery, RAPIDO uses several assembly techniques, including glueing, screwing and mechanical tongue and groove assembly on some of its range. This technique provides a perfect marriage between aesthetics and solidity. The principle is simple but requires dexterity and meticulousness: the first piece of furniture has an end shaped to fit perfectly in a groove of the same shape in a second piece of furniture to produce furniture able to take to fine finishes.

Living room hatch for accessing the storage space from the interior

Wide-opening jack-assisted hatches for exterior access

Interior access to the 3rd level of storage

TECHNICAL DOUBLE FLOOR

Based on its extensive knowledge of this particularly complex area of expertise, RAPIDO has designed two types of double floors combining storage space with thermal insulation.

1 STORAGE DOUBLE FLOOR (90DF AND 10 DESIGN EDITION SERIES')
Provides large volume storage with easy access and includes a RAPIDO innovation - 3rd level storage.

2 TECHNICAL DOUBLE FLOOR (SERIES 7DF AND 9DF)
Houses the fresh water and waste tanks, gas lines, electricity cables and heating circuit, freeing up space in the living area and allowing for a single-level interior floor, thus removing the need for steps. Underfloor storage box inside.

- > Thermal insulation reinforced by the technical double floor.
- > RAPIDO's double floor is connected to the lowered chassis (AL-KO or Fiat): its very low centre of gravity provides perfect driving stability.

HEATING: GENTLE INDOOR HEATING FROM THE BEDROOM TO THE LIVING ROOM, TESTED BY OUR SCANDINAVIAN CUSTOMERS WHO ARE NORTH CAPE REGULARS

TRUMA HEATING SYSTEM

The Truma heating system is located, in most models, in the kitchen area, i.e. in the central part of the vehicle, to provide the best output possible and even radiant heat to the front and rear of the vehicle. This location was determined from tests conducted jointly by the supplier and RAPIDO.

ALDE CENTRAL HEATING SYSTEM: COMFORT PLUS ARCTIC

Working in collaboration with the ALDE team, RAPIDO has developed a top-of-the-range central heating system that has been tested, with great success, in Scandinavia. It has become a benchmark for the market, providing heat evenly distributed throughout the living area and the cab (A-Class windscreen, cab-living area connection), with the possibility of separately controlling the bedroom temperature and providing a Frost Control system. The double floor is also heated (except on 7065FF, Series 9MH Design Edition).

The gas boiler heats a fluid (60% water/40% glycol) in a network of pipes and convectors and creates a flow of warm air that rises along the external walls. The bulkheads, the furniture and the air are heated progressively, forming a barrier of warm air, which insulates the windows.

- Available as standard on the 7065FF, 9000dFH, 9005dFH, Serie 10 Design Edition, Serie 9MH Design Edition.
- Available as an option, on the Low-profile 766dF and the A-Class 966dF and, with electric heated floor: 9066dF (low beds only), 9090dF.

- > ALDE Arctic Comfort Plus central heating consists of a gas boiler and a heat exchanger.

Block diagram of ALDE heating system. This does not represent a precise description of the product and/or the furniture.

4 Historically, the company's founder, Mr Constant Rousseau, was a craftsman cabinetmaker, familiar with noble materials and working with every type of wood.

Reliability: to travel in a RAPIDO, is to travel with peace of mind

3

The-top-of-the-range brand in Europe

A HEART IN THE WEST

❶ RAPIDO's customers have often had an initial experience of a motor home before coming to us. Their requirements are therefore often very specific and require us to make advances every year.

With its roots in the Mayenne region, RAPIDO has made a conscious decision to keep its industrial production in that area. All of its motorhomes are assembled in its factory in Mayenne (53) and the furniture is entirely designed in its joinery workshop there. For RAPIDO, Made in France is a proof of quality. It means respecting the French labour code, applying European standards and carrying out numerous tests and checks. This quality approach has further been reinforced by the construction of a second factory in 2008, again in Mayenne.

CONTINUOUS QUALITY IMPROVEMENT AND INNOVATION

❷ The construction of our second factory has contributed to our setting up a new organisation with even more exacting quality standards. Every vehicle, therefore, is subject to continuous quality checks, final quality check and watertightness checks as it leaves the production line. A « Quality » zone has specifically been created.

This production site on 15 hectares, with 25,000 m² dedicated to production, meets the very latest safety and environmental standards.

> Strong natural light thanks to a safety-conscious shed roof* accessible from gangways. Its northern orientation avoids the blinding noonday sun and contributes to ambient temperature control, while ensuring strong natural light in the workshop.

> Roof top heating. This enables the building to be cooled in summer by means of a reversed temperature system between indoors and the outside (with a maximum temperature differential of 5° between indoors and outside). Heating is provided using renewable energies, relayed in the winter months by a heat pump.

> Low-resonance materials: perforated sheet metal, density and materials in the partitions optimising acoustic qualities.

By improving its employees' working environment, RAPIDO is once again optimising the quality of its production. So everything is now in place to combine reliability with performance.

Constant research into improving our products is based on a progressive innovation-oriented process, requiring heavy investment in R & D with tests conducted in real situations. For example, we test our vehicles' reliability on road circuits with tracks designed especially for measuring structural aging enabling our engineering design department to provide the best solutions for ensuring optimum comfort on the road.

Other tests are conducted in cold rooms with thermal sensors, enabling us to measure heat losses. The technical solutions provided have met real success with our Nordic customers and also with

customers travelling to the mountains in the winter months.

This is why RAPIDO's serious technology is so wellknown and so often copied.

A QUALITY OF MANUFACTURE WORTHY OF OUR INITIAL TRADE AS CABINET MAKERS

❸ For 50 years, the company has remained a family company, keeping this spirit of craftsmanship with genuine attention to detail. The desire to keep furniture made with elements in solid wood is still a reality, and even the design of each unit is specially conceived to last over time.

❹ RAPIDO's reputation has been built on the quality of its vehicles and its woodwork symbolises perfectly the values of the brand: an alliance of modernity and tradition. In fact, even from the very earliest models, the joiners have always used high quality wood. They also have at their disposal innovative technical equipment such as five numerically controlled machines. The same care and attention is brought to the furniture in each series, and the varnish is applied by hand. It is because of these scrupulous finishes that RAPIDO is well-known throughout the whole of Europe for the quality of its products.

*Shed roof: a sawtooth profiled roof with a glazed slope all along its length.

A EUROPEAN GROUP, A FRENCH BRAND

RAPIDO has evolved from a high-end French brand into a European group and the market leader for top-of-the-range motorhomes. This success is based above all else on RAPIDO's exacting quality standards and the purchase of specialised brands in different recreational-vehicle market segments.

From 1993 to 2013, the RAPIDO Group has gradually expanded with the brands ESTEREL (1993), RAPIDHOME (1998), FLEURETTE (2005), ITINEO (Brand creation in 2006), CAMPEREVE (2009) and WESTFALIA (2010). The jewel of the German leisure vehicle industry, WESTFALIA, strengthens even more the RAPIDO Group's European dimension.

OVER 50 YEARS OF EXPERIENCE AND INNOVATION IN THE SERVICE OF ADVENTURE

From its beginnings with a folding caravan for use by the general public, RAPIDO has raised itself to a leading position, becoming the recognised manufacturer of top-of-the-range vehicles throughout Europe. RAPIDO was born from the creative mind of Constant Rousseau: in 1961, for his own holidays, he invented and manufactured a canvas folding caravan, resting on a chassis, which could serve as a trailer the rest of the year. Over the space of 30 years, 34,900 units of this innovative model would be produced,

with half of them going to export. By perfecting itself from year to year, the folding caravan continued to fascinate and received several awards for its ingenuity, among them 1st Prize in the Lépine competition.

Pierre Rousseau joined the company in 1976 to work with his father. Very quickly, he thought of designing motor homes. The first model left the factory in 1983: this was the Randonneur 410. Pierre Rousseau took over management of the company in 1985, on the disappearance of his father. 1987

represented a real turning point for RAPIDO: the company launched a general range of motor homes, thereby entering for the first time into the core of the market. RAPIDO then produced low-profile and luton models and, a little later, a range of A-class models. Nowadays, the catalogue is published in 9 different languages and almost half the production is exported. Times have changed, but the same philosophy still applies: the desire to do good work.

HOW TO USE QR CODES FOR ALL THOSE WHO KNOW (ALMOST) NOTHING ABOUT THEM

WHAT ARE THEY?

A QR Code is a small square containing coded information that enables you to access a Web page without having to search for it or type in the Web site's address.

HOW DOES IT WORK?

1 To read a QR Code, you need to have a mobile phone with camera capability and Internet connection. Then you have to install a free app (application) entitled « QR Code Reader »:

- If you have an iPhone, use the « Apple Store » button,
- If you have a BlackBerry, use the « BlackBerry App World » button,
- If you have some other phone, use the « Android Market » button.

2 Then enter « QR Code » in the search bar, select one of the proposed readers and install it.

HOW TO READ A QR CODE?

3 Press the icon on your reader and scan the QR Code... it will take you directly to the correct Web site!

Serie 6/6B/6FF

Low-profile models with special chassis, extra-wide rear track

Customisable low-profile models

With its revisited, enhanced design, get ready to be dazzled by Series 6/6B/6FF: the best Rapido layout, multiple customisation options (interior decoration, drop-down ceiling bed, Style vehicle front, high or low twin beds and more) and a choice of **two new furniture ranges worthy of luxury models (new in 2014):**

- > **Elegance: luxury furniture with solid maple mouldings;**
- > **Montalcino: modern furniture with a gloss and bright finish.**

Not to mention the long list of standard equipment which will take you to the other side of the Earth, all in a decidedly modern cocoon bathed with light.

With the brand new 640, RAPIDO has once again proven that compact can be luxurious: spacious living areas, large openings and elegant equipment in a vehicle which is only 6.48m long!

Get in now!

Two series, one watchword: comfort.

Exceptional new products: choose from two brand new furniture options worthy of luxury models:

> ELEGANCE: luxury furniture with solid maple mouldings;

> MONTALCINO: modern furniture with a gloss and bright finish.

Due to its the double floor, the Series 7dF offers insulation against road noise. Its thermal insulation will protect you from the coldest of climates. You will also enjoy the interior space thanks to its storage capacity present in the double floor.

The new Series 70FF* is THE series to own, with its built-in drop-down bed under the ceiling and AL-KO chassis. Your family will enjoy its exceptionally generous living spaces which have been designed to preserve each person's personal space: a second permanent bed drops down from over the living area but is hardly noticeable during the day.

Don't wait a moment longer! Get in now to enjoy the comfort of Series 70FF* and 7dF and their elegant silver grey bodywork.

Technical double floor:

- > Increased thermal insulation
- > Increased insulation against road noise
- > Storage space freed up in the living area (all the technical components are contained in the double floor)
- > Covered centre of gravity for optimum stability
- > Flat living area, without steps inside

7091FF

The advantages of the « FF » range's beds: the bed mechanism in the 70FF range, coming directly from the one in the A-class models, is efficient and reliable. Once the bed has been lowered, the height under the ceiling is 83 cm, enabling you to sit upright. The mattress, which is the same quality as the permanent bed, a Bultex®, double-reinforced mattress offers you an excellent comfort while you sleep.

New furniture, with LED backlit lockers (storage compartments), **to choose from:**

Elegance: luxury furniture with solid maple mouldings.

Montalcino: modern furniture with a gloss and bright finish.

▶ AND ALSO...

- Roof covering all edges: made from polyester, this roof fully protects the interior, guaranteeing a perfect seal and blocking heat transmission
- Alde heating as standard for 7065FF, or as an option (766dF)
- Living room upholstery: contemporary design, optimum comfort, living room backrests rounded towards the cab for an even more cosy atmosphere
- 4 berths with slat beds and Bultex® mattresses (Serie 70FF with second permanent built-in ceiling bed)
- High (with 120cm-high garage) twin beds for 766dF, low for 7065FF, and high or low (with 120 or 80cm-high garage) for 7066FF
- 4 permanent beds in Serie 70FF
- Mechanical bed head adjustment releasing lots of space for moving around the bed (790dF, 7091FF)
- 4 registered seats with seatbelts in Series 7dF; 5 registered seats with seatbelts in Serie 70FF
- Nautical-style blinds in the living room
- 19" -inch flat screen TV unit (TV not supplied)
- Spice rack and kitchen roll holder
- Removable serving hatch shelf between the kitchen and the living room (depending on model)
- Kitchen: bench edged with solid maple (ELEGANCE) or flat edges (MONTALCINO)
- Large AES refrigerator (160 L)
- Kitchen with self-closing and central locking drawers In white lacquer
- Cooker hood
- Electrically-controlled regulator valve inverter Duo Contrôle in the living area control panel
- Driver's Airbag
- ABS braking
- Cab air conditioning
- Extra-wide rear track
- Stabilising jacks
- Also available in Heavy version:

Serie 8M / 8F

Mercedes or Fiat A-Class models

Mercedes chassis rear wheel drive now accessible from 3.5 T A-Class entry level models upwards

Some dreams can now be realised

Do you dream of owning a RAPIDO A-Class? The Series 8M/8F enables you to access the much-valued RAPIDO A-Class family and even, why not, with a Mercedes carrier. The 8M/8F Series thus offers a choice of carrier, but your ability to personalise doesn't stop there:

Exceptional new products, choose from two brand new furniture options worthy of luxury models:

> ELEGANCE: luxury furniture with solid maple mouldings;

> MONTALCINO: modern furniture with a gloss and bright finish.

Whether you choose a compact model, like the 803F (under 6m), or the high level of comfort provided by a popular layout, like in the 881F, make your Rapido the motorhome of your dreams!

Since 2010, the benefits of the Mercedes rear wheel drive chassis have been amply demonstrated during the Paris-Beijing-Paris and Paris-Beijing-Istanbul rallies. During the next Dakar rally, current champion Stéphane Peterhansel will be spending his nights in comfort in an 883M.

Serie 9dF

A-Class special chassis with extra-wide rear track and double floor

The success of the double floor: the warmth of a home

Vast living spaces, a comfortable temperature in every season... the Series 9dF provides the luxury of the technical double floor, which increases the thermal insulation and insulation against road noise and frees up space in the living area. The living area also benefits from storage in the double floor to hide away the water tanks, the circuits and the pipework.

Exceptional new products: choose from two brand new furniture options worthy of luxury models:

- > **ELEGANCE:** luxury furniture with solid maple mouldings;
- > **MONTALCINO:** modern furniture with a gloss and bright finish.

Designed to attract, the Series 9dF comes in 3 models, with a host of details to make a difference on the road: roof covering all the edges, driver's door with car handle, two locks on the living area entrance door, varnished top-down side mirrors with wide-angle double mirror...

Breathtaking equipment in the heart of your home... the essence of RAPIDO's signature comfort.

Serie 90dF

Fiat AL-KO A-Class double floor models with extra-wide rear track and independent wheel suspension

The benchmark of the double floor: storage space and comfort

Equipped with an insulating double floor with a second level of storage (a RAPIDO innovation), the Series 90dF offers storage accessible from both inside and outside the vehicle. The layouts favour cosiness, storage space and freedom of movement. The AL-KO chassis provides strong payload capacity across the 6 models of the 90dF Serie, as well as an exemplary and comfortable driving experience (excellent safety and road handling).

With two new ultra-spacious models (9000dFH and 9005dFH), Series 90dF will charm you.

Also available in 3,7 T (except for 9000dFH, 9005dFH)
(or Heavy version 4,25 T with optional chassis reinforcement at extra cost)

9000dFH Design Edition

Serie 90dF

▶ ADVANTAGES

ELEGANCE:

luxury furniture with solid maple mouldings.

Storage double floor with exclusive 3rd level of storage (a RAPIDO innovation)

- > Maximum storage space, accessible from both inside and outside the vehicle
- > External access with wide-opening hatches
- > Lowered centre of gravity for optimum stability
- > Insulation against the cold, contributing to maintaining a pleasant ambient temperature in the living area

AL-KO:

Among the leaders and the precursors in the use of this chassis, RAPIDO has contributed to its development to obtain a lowered lightweight chassis, while retaining the comfort qualities stemming from its independent wheel design.

Specific equipment on the Heavy version GVW = 4,250 T

- **Greater autonomy and comfort**
 - > Authorised weight in the garage: 300 kg
 - > Reinforced front suspension
 - > AL-KO special heavy-duty stabilising jacks

Specific equipment on the 9000dFH and 9005dFH (GVW = 4,250 T)

- > Electric sunshade
- > Central heating ALDE Comfort Plus Arctic
- > 190-litre fresh water tank
- > Second living area battery
- > 5 registered seats
- > 6 berths (including 2 occasional berths in the living room)
- > Electric step on the living area entrance

▶ AND ALSO...

- Sliding screen door
- 5-seater living room (9090dF and 9066dF)
- Living room upholstery: contemporary design, optimum comfort
- 4 seats with seat belts (5 for the 9000dFH and 9005dFH)
- 4 berths: cab beds and permanent rear bed (except 9048dF) with slatted frames and Bultex® mattresses
- 6 berths for the 9000dFH and 9005dFH (including 2 occasional berths in the living room)
- 130mm-thick Bultex® mattress on the 9090dF/9000dFH/ 9005dFH
- ALDE Comfort PLUS Arctic central heating (option on 9066F with low beds, and on 9090dF; standard on 9000dFH and 9005dFH)
- Mechanical height adjustment (Δ 20cm) for the bed over the garage (9083dF, 9090dF, 9000dFH)
- High (with 120cm-high garage) or low (with 80 cm- high garage) twin beds for the 9066dF
- 19"-inch flat screen TV unit (except for 9005dF) (TV not supplied)
- Multi-function kitchen
- Kitchen with self-closing and central locking drawers. In white lacquer
- Removable serving hatch shelf between the kitchen and the living room (depending on model)
- Spice rack and kitchen towel holder
- Large AES refrigerator (160 L)
- Cooker hood
- Chromed brass kitchen tap with ceramic cartridge
- Electrically controlled inverter Favex® regulator valve
- PIONEER® Multimedia Station: DVD MP3 DIVX/USB/reversing camera
- Built-in sunshade with winding mechanism
- Cruise control
- Driver's and passenger Airbags and ABS braking
- Cab air conditioning
- External shower
- Extra-wide rear track for AL-KO chassis
- Independent wheel suspension
- Also available in 3,7 T (except for 9000dFH, 9005dFH) (or Heavy version 4,25 T with optional chassis reinforcement at extra cost)
- 9090dF, 9000dFH and 9005dFH available in Design Edition

For the complete list of equipment, please refer to the technical manual.

The models Design Edition:

The RAPIDO *refinement*

The Design Edition interior in the 9090dF (and 9090dF with the Alde option), 9000dFH and 9005dFH focuses on light and elegance: ambient lighting, mouldings and fine materials. These three models are fitted with Design Edition interior and external decoration.

- Ambient lighting (indirect lighting over the bed and bed head, an illuminated strip on the entrance to the living area, vertical lighting around the kitchen window and the living area entrance door)
- Luxurious décor in the bedroom (central beds: sophisticated trim on the bed head and its sides)
- Comfort and luxury furnishings and equipment: Ambiance MIAMI (LEATHER/Tep*), walnut burr trim on the dashboard
- Interior and external Design Edition decoration
- Indirect roof lighting on each side at the front with dimmer
- Thicker lighted wall on the back of the dinette
- Upper doors on the kitchen and living room furniture with real wood veneer and solid maple wood with Nautical style multi-coat varnish

*Tep: Polyamide-coated fabric

Serie 10 Design Edition

Fiat AL-KO A-Class models with tag axle
(GVW = 5T and GCW = 6T) with **ALDE as standard**

Up to 6 registered seats and 6 berths...
Quite simply imperial

With the Serie 10 Design Edition, you have the ultimate in RAPIDO comfort at your fingertips. Offered in Heavy version with a tag axle, it provides guests with a majestic kitchen, an 8-seater living room, a separate shower (with glass door on the 10001 Design Edition) and the highest payload of any RAPIDO. In these two models, the new **DISTINCTION** furniture in real wood, with its glorious varnished finish reminiscent of the world of luxury yachts, adds its unequalled brilliance to an interior bathed in gentle light. What more could you dream of?

The 10001 Design Edition

Launched in 2010, the Serie 10 has enchanted motorhome drivers with its sumptuous equipment and prestigious lines. Based on this success, RAPIDO launched an innovatory layout for a height-adjustable central bed over the garage: the 10001 Design Edition. This model offers 5 registered seats and 6 berths. Powerful, adjustable and welcoming, this model pushes back the limits on travel even further.

The tag axle provides genuine travelling comfort and increased stability on the move.

Serie 9MH Design Edition

Mercedes A-class Heavy version with **ALDE** as standard

All aboard for the ultimate odyssey

Let yourself be carried away by the call of the open sea... on board the majestic Serie 9MH Design Edition. You have scarcely entered into the atmosphere of one of its 2 models than you are overcome by a sense of being on board a yacht. Inspired by the yachting industry, the design of its interior (with new Majesty furniture) draws new ideas from the luxury world for even more privileged journeys. The fine materials of chestnut and ash are combined with the luxury effect of multi-coat varnish and small additional storage compartments, which are back-lit to create a very cosy atmosphere.

And if the ultimate luxury were to have everything, while ensuring everyone else's well-being? The 9MH Design Edition Series' engines conform to and exceed the EEV ecological standards, making them more environmentally friendly.

990MHV **DESIGN
EDITION**

992MH **DESIGN
EDITION**

Serie 9MH Design Edition

▶ ADVANTAGES

«CHAMPAGNE GREY» COLOUR SKIRTS AND FRONT BUMPER AND «IVORY WHITE» PANELS

MAJESTY varnished real wood furniture with ambient lighting

Designed and developed specially for RAPIDO by a wellknown designer in the nautical field. Accustomed to designing luxurious furniture for yachts, he has used all his know-how to create a unique ambience for your motorhome. Multi-coat varnished yacht-style upper doors in the bedroom and living room.

Wood

Every customer will also appreciate the use of wood once again in his furniture and to note that, depending on the model, a combination of Chestnut and ash wood finishes can be seen on the steps, the door mouldings, the living room tables... constituting a genuine signature of RAPIDO's know-how.

Mercedes with rear wheel drive

SERIE 9MH DESIGN EDITION

Twin wheels: GVW 4.6 tonnes (or option of 5T).

Practical kitchen worthy of a luxury liner with lots of storage spaces:

- > A magnificent synthetic resin bench
- > A glazed column (for a coffee-maker for instance)
- > A double wastebin, very useful for sorting out waste selectively
- > A second sink-wastebin-dRAINER on the worktop

Miami or Boston upholstery (as standard)

➤ **AND ALSO...**

2

3

4

NAVTEQ
TRANSPORT

Navigation
Navi-Truck PIONEER®

1 Double glazing

The A-Class models can be fitted with double glazing on the front cab's side windows (except driver door) to improve cab insulation and reduce mist and condensation.

2 Heated Floor

Option available (grouped option with the ALDE option) for: 9066dF, 9090dF (including in Design Edition). Option also available on the 7065FF, 9000dFH, 9005dFH, Serie 10 Design Edition, Serie 9MH Design Edition (ALDE as standard).

The composite film incorporated into the floor provides soft warmth underfoot at floor level and therefore a real feeling of comfort.

3 Insulating cold-weather cladding

Option available across the range.

Soplair Isothermic protection developed with RAPIDO, ensures maximum protection both Summer and Winter. It efficiently combats the thermal exchanges in the vehicle and the formation of condensation on the windshield.

4 WEBASTO Air Top 2000 S cab heating

(Available on Fiat and Mercedes A-Class)

The cab heating system, which is in addition to and completely separate from the TRUMA or ALDE heating, eliminates condensation and droplets of water on the windscreen in the morning when the temperature is still cool in the cab. The energy source for the warm air heating is the vehicle's own fuel (Diesel). Its low consumption is particularly useful for long periods of heating with the engine off (at night and during long breaks) and its heat emission from the moment the heating is switched on provides a rapid rise in temperature and genuine indoor comfort.

AIR suspension

« AIR PREMIUM » suspension on AL-KO chassis. This rear suspension provides you with a real feeling of comfort and the assurance of damping out impacts for the living room furniture. Available as an option only on the Series 90dF-90dFH with Heavy chassis and the Series 10 Design Edition.

4 Navigation GPS + DVD player

Offered as an option across the range, the PIONEER® navigation system enables you, through a single colour screen built- into the dashboard, to:

- Follow your route through the European roads; with the micro SD card (supplied), you have all the maps of Europe, all the service areas in Europe and your RAPIDO distributors.
- Enjoy a rear view when manoeuvring thanks to the reversing camera.
- Play DVDs via its « DVD player » function.
- Listen to the radio.
- Listen to your own selection of music by connecting it to an IPOD or MP3 player by means of a USB or micro SD card.

Navigation Navi-Truck PIONEER®

Navi-Truck PIONEER® navigation systems display specially-designed itineraries to cater for the height, weight, length and width of your vehicle. Simply enter your vehicle's dimensions and let Navi-Truck PIONEER® guide you.

1

2

1 Symphonie audio pack*

A philharmonic orchestra in your living room!

Experience your emotions to the full while listening to your preferred music with XXL acoustic comfort.

This pack consists of:

- 1 PIONEER® subwoofer, combining together a cast aluminium heat sink, a woofer with an oval aluminium cone and a built-in 150W amplifier, providing very powerful bass. It also contains a cabled remote control for refining your settings.
- 2 additional speakers in the living room.
- And a further two speakers in the bedroom.

The sound is therefore harmoniously distributed throughout the living area and provides true listening quality.

*Available only on factory order!

2 Allow wheels (option)

To customise the external style of your vehicle, the following alloy wheels are available as an option:

- AL-KO 15" (HEAVY: 16"). SCORPION alloy wheels.
- Chrome wheel covers as standard on Series 9MH Design Edition.

● Customise your low-profile model with RAPIDO's exclusive front face!

RAPIDO, in collaboration with Fiat, has developed 4 years ago a unique front face for the low profile range with the unique « RAPIDO smile ». RAPIDO, thereby, demonstrates its know-how in terms of design and, by being the pioneer, its sense of innovation. This exclusive look including the fog lights is available as an option on all the low-profile models, in white on the Series 6/6FF, and in metallic grey on the 7dF and 70FF versions.

Enjoy it!

The boutique

RAPIDO 

Here you can find a top-of-the-range selection of high-quality articles in keeping with the image of RAPIDO motor homes. From pens to windcheaters, via helmets, champagne flutes and even umbrellas, you will find the useful item that will make you stand out.

To be convinced, visit the RAPIDO shop now, at www.rapido.fr. Once you are on the Home page, click on the right-hand tab « RAPIDO Boutique » and select the products you are interested in. The all you have to do is go to your distributor.

Think about RAPIDO articles for your friends who will also appreciate their quality and good taste and give them pleasure as well!

Furniture

MONTALCINO

ELEGANCE CLASSIC

ELEGANCE DESIGN EDITION

A QUALITY OF MANUFACTURE WORTHY OF OUR INITIAL TRADE AS CABINET MAKERS

Historically, the company's founder, Mr Constant Rousseau, was a craftsman cabinetmaker, familiar with noble materials and working with every type of wood. Since then, the company has remained a family company, keeping this spirit of craftsmanship with genuine attention to detail. The desire to keep furniture made with elements in solid wood is still a reality, and even the design of each unit is specially conceived to last over time.

For a long time now, RAPIDO's joinery work has been a benchmark of quality, perfectly symbolising RAPIDO's values: an alliance of modernity and tradition. In fact, even from the very earliest models, the joiners have always used high quality wood. They also have at their disposal innovative technical equipment such as five numerically controlled machines. The joinery is guarantor of the quality of RAPIDO's manufacture: the same care and attention is brought to the furniture in each series, and the varnish is applied by hand. It is because of these scrupulous finishes that RAPIDO is well-known throughout the whole of Europe for the quality of its products.

*except for MONTALCINO furniture

New in 2014

Furniture MONTALCINO

Available in Series 6/6B/6FF, 70FF, 7dF, 8M/8F and 9dF.

Its cosy style creates a warm, modern ambience with its grey and chocolate tones enhanced by brushed aluminium rods.

Furniture ELEGANCE

The « ELEGANCE » line carries its name with nobility. The style has been designed in line with our own values and incorporates lower moulding in solid maple with a brushed aluminium style insert. Its chic French style can be found throughout this year's range, from Series 6 to Series 90dF (Series 6/6B/6FF, 70FF, 7dF, 8M/8F, 9dF and 90dF).

Our 2014 Collection models all boast solid maple furniture from entry-level series upwards!

New in 2014

Furniture DISTINCTION

Standard in Series 10 Design Edition.

Glossy yet subtle, this real multi-coat varnished wood, beautifully varnished, is reminiscent of the luxury interiors found in top Parisian hotels, and mirrors impeccable. French taste.

Furniture MAJESTY

Standard in Series 9MH Design Edition.

The « MAJESTY » line is a genuine creation in a luxurious contemporary style. With its multi-coat varnished wood and chestnut veneer (bedroom, kitchen and living room cupboards) furniture, this style has a great personality that you will find very attractive.

An entire range dedicated to luxury

Like a precious jewel, the 2014 Collection sparkles with elegant, well-designed details.

In the living room, back-lit lockers line the upper cupboards. They are easily accessible and perfect for holding your personal items, while at the same time emitting a gentle light to create a relaxing and exalting atmosphere. Inspired by cutting-edge kitchen layouts, the kitchen boasts a fresh, gourmet style with a stone-style workbench (in Series 10 Design Edition and Design Edition models), re-styled handles, glossy off-white cupboard doors and more.

The comfort of RAPIDO upholstery

SEATING COMFORT

Totally new seating has been developed for the 2014 Collection. Its fluid horizontal lines provide a combination of style and comfort. The improved seating offers an angled back combined with strong lower back support to provide excellent kidney support and make you feel that you are sitting on a sofa in the lounge of a five-star hotel!

DRIVING COMFORT

All the Fiat models are fitted with special motor home seats. In addition to their great comfort, they also adopt the ideal position (adjustable height and inclination for the back and the seat. Option/RAPIDO Pack: Series 6/8F). Design but also practical, their ergonomic shape follows your slightest movement.

HARMONY

The living room offers a resolutely modern look while also focusing on comfort: with cab seat cover colours which match the living room, incorporated leather headrests in A-class motorhomes, and "cocoon-effect" seats in some models in Series 70FF and 7dF created by the rounded shape of living room seat backs. A trendy look: throughout the entire range, Rapido's upholstery is enhanced by an elegant band of colour (except for Boston ambiance / « Sable » Nappa leather).

New in 2014

3 CURTAIN RANGES TO MATCH YOUR INTERIOR

- › Japanese blinds with sliding panels (Series 6/6B/6FF and 8M/8F).
- › Ship blinds in nautical style (Series 70FF, 7dF, 9dF et 9MH Design Edition).
- › Sliding curtains on curtain rods (Series 90dF and 10 Design Edition). The curtain rods are lit in Series 10 Design Edition.

RAPIDO pays particular attention to the quality of the upholstery. Conscious of the fact that a lot of time is spent sitting in a motor home, RAPIDO designs high quality upholstery. The choice of the foams and textiles determines the level of comfort; both are rigorously selected and tested. In your motor home, hours pass but comfort remains.

Upholstery: Fabric

Upholstery: Fabric / Tep

New in 2014

The 2014 Collection offers new fabric ranges (fabric only for the Valetta or fabric/Tep) which are easy to clean. Light, warm, classic or modern: the entire range is stylishly upholstered with a contrasting band of colour.

Luxury

Available as an option

- › Ambiance Miami (LEATHER/Tep* in dark/light brown). Available as an option across the range and as standard for the Design Edition vehicles. The visible stitching contrasts with the brown and beige hues of the leather, to which a velvety strip of faux suede is sewn.
- › Boston ambiance (LEATHER/Tep* in beige).
- › « Sable » Nappa leather. Available as an option on Series 90dF, 10 Design Edition, 9MH Design Edition. This exceptionally high quality finishing leather will make your interiors even more luxurious.

*Tep: Polyamide-coated fabric.

APP iPhone

RAPIDO is breaking new ground in being the first motorhome manufacturer to provide an iPhone app especially for service areas.

Wherever you are in Europe, RAPIDO's R app enables you, free of charge, to call up the nearest service areas.

**RAPIDO's "R" iPhone app
is available free of charge at:**
